Content of explanation:

VVMI La Hien Cement Joint Stock Company has Profit after corporate income  
tax in the business performance report of the announced period as follows:

Unit: VND

No.	Items	Q1/2024	Q1/2025	% increase (+) decrease (-)
1	Profit after tax	361.261.463	2.194.268.102	+ 507,3%

**Reasons:**

Profit in the first quarter of 2025 increased by 507.3% compared to the same  
period in 2024 mainly due to the following reasons:

Due to signs of recovery in the cement consumption market and increased  
demand, the company's cement output and revenue were higher than in the first quarter of  
2024.

This is the main reason for the increase in the company's after-tax profit compared  
to the same period last year.
