Ho Chi Minh city, day 23 month 04 year 2025

REPORT
Business Performance in 2024; Plan for 2025

To: The General Meeting of Shareholders.

The Board of Directors of Vissan Joint Stock Company (VISSAN) respectfully submits to the General Meeting of Shareholders the report on the business performance in 2024 and the business plan for 2025 as follows:

PART I
2024 PERFORMANCE OVERVIEW

I. GENERAL SITUATION

Since the beginning of 2024, Vietnam's economy has continued to face numerous difficulties and challenges. A sharp increase in exchange rates, along with persistently high prices of various raw materials and fuels, has significantly affected production costs and product prices, putting great pressure on the business operations of Vietnamese enterprises in general.

Additionally, the severe outbreak of African swine fever in many regions, coupled with a declining herd trend among several major livestock enterprises, has resulted in a shortage of live pigs since early 2024. The average price of live pigs in 2024 has risen higher than anticipated during the planning stage, further increasing the cost pressure on VISSAN's products.

Consumer purchasing power and the consumer confidence index remain low due to ongoing economic difficulties, as employment and income levels have yet to improve. Meanwhile, food prices and living expenses continue to stay high, causing consumers to adopt a more cautious spending attitude. According to data from Kantar Worldpanel, the fast-moving consumer goods (FMCG) sector recorded a decline of over 4% compared to the same period in 2023.

II. 2024 BUSINESS RESULTS

1. Business Performance

Despite the adverse impacts of numerous unforeseen external factors, VISSAN, through the collective efforts, determination, and solidarity of its employees and leadership, has proactively monitored market developments and implemented various measures to mitigate negative effects, maintain stable production and business operations, safeguard State-owned capital, fully comply with tax obligations, and ensure the rights and interests of shareholders and employees. In addition, VISSAN has continued to uphold its

role as a leading food enterprise by actively and effectively participating in the Price Stabilization Program in Ho Chi Minh City and nationwide.

No	Indicator	Unit	Actual 2023	2024			
				Target	Actual	% vs 2023	% Target
A	B	C	1	2	3	4=3/1	5=3/2
1	Total Revenue	VND million	3.384.695	3.570.000	3.181.558	94,0%	89,1%
2	Output of Key Product Categories						
2.1	Fresh Foods	Tons	10.470	10.600	8.967	85,6%	84,6%
	- Pork (all types)	Tons	9.854	10.000	8.447	85,7%	84,5%
	- Beef	Tons	616	600	520	84,4%	86,7%
2.2	Processed Foods	Tons	21.511	23.500	20.244	94,1%	86,1%
3	Profit Before Tax	VND million	139.580	141.500	141.539	101,4%	100,0%

1.1 Revenue Decreased Compared to the Same Period, But Profit Target Achieved with 1% Growth

Declining consumer purchasing power and confidence amid the overall economic downturn have negatively impacted VISSAN's sales volume and revenue in 2024, resulting in growth rates and plan completion ratios falling short of expectations.

Revenue decreased, and the price of live pigs surged significantly compared to the same period last year and exceeded the forecasted levels set in the business plan. However, despite the challenging business environment and numerous unforeseen adverse impacts, the Company made strong efforts to implement decisive and appropriate cost-cutting measures, enhance operational efficiency, and improve business performance. As a result, profit not only met the annual target but also achieved a 1% growth compared to the same period last year..

1.2 Pork Output Down by 14%, Beef by 16% Year-over-Year

The pork segment has been adversely affected not only by reduced consumer purchasing power due to declining consumer confidence and rising live pig prices—which have driven up retail prices—but also by fierce competition from rivals with strong financial capacity or advantages in raw material sourcing. These competitors are willing to implement aggressive promotional campaigns to capture market share. Additionally, the widespread availability of low-priced pork sold at informal markets, temporary stalls, and sidewalk vendors has further intensified the competitive pressure. These combined factors have led to a decline in pork sales volume compared to the same period last year.

As for the beef segment, in an effort to gradually strengthen and improve the business performance of beef products, the Company has proactively collaborated with Meat & Livestock Australia (MLA) to adjust processing techniques and enhance product

sensory qualities, aiming to improve product quality and lay the groundwork for future growth in beef sales volume..

1.3 Processed Food Sales Declined by 6% Year-over-Year Due to Various Factors

Purchasing power remained low throughout the year. The general trade (GT) sales force struggled to meet revenue targets, and some provincial markets lacked dedicated sales staff. These challenges collectively contributed to a 6% decline in processed food output, falling short of both year-over-year performance and 2024 business plan expectations.

2. BUSINESS MANAGEMENT RESULTS IN 2024

2.1. Securing Stable Raw Material Supply Amid Market Fluctuations

Conducted regular reviews and evaluations of suppliers; signed framework agreements with major partners to ensure the supply of live pigs in terms of quantity, quality, and competitive pricing.

Negotiated with suppliers of raw materials, additives, and packaging to stabilize input prices and secure volumes amid disrupted market supply and rising costs—helping to ease pressure on the Company’s product pricing.

2.2. Strengthening Sales, Distribution, and Network Expansion Across All Channels

The Company reviewed and strengthened its traditional trade (GT) sales network by enhancing field sales inspections, restructuring the sales workforce, adjusting sales policies and targets to align with current market conditions, and conducting surveys to reasonably divide distributor management areas. These efforts aim to optimize and improve the distribution efficiency of VISSAN’s products in the market.

The Company also maintained, negotiated, and expanded cooperation with reputable key clients in the Horeca channel and B2B food processing units.

Online sales channels were promoted through existing platforms such as the Vissanmart.com website and various e-commerce platforms (Tiki, Sendo, Foody, Grab, etc.). Although the revenue contribution from online channels in 2024 remained modest, the results indicate strong potential and a positive growth trend, with a 42% increase compared to the same period in 2023.

Amid declining global demand and ongoing trade tensions, the Company’s export activities faced numerous challenges, with export revenue in 2024 decreasing by 11% compared to the same period in 2023.

2.3. Market Development and Brand Building Enhanced

Marketing campaigns were implemented at various locations—including schools, retail points, supermarkets, shopping malls, and agency stores—contributing to brand promotion and enabling customers to better access and experience VISSAN’s product offerings.

The Company also conducted marketing campaigns through television channels (VTV, HTV), social media platforms, and major newspapers to enhance brand awareness and promote VISSAN’s image and products.

In 2024, VISSAN was honored with several prestigious awards in the food industry, further supporting communication efforts and reinforcing the Company’s brand presence in the market.

2.4. Focused R&D for New Product Launches

Seven new products—including grilled pork rolls and canned foods—were launched to diversify the product portfolio, meet consumer demand for novelty, variety, and convenience, and enhance the Company's revenue.

The Company successfully developed a sterilized sausage product tailored for B2B customers, contributing to increased output in the processed food segment and expanding potential to attract new clients in 2024 and the following years.

In addition, quality improvement and stabilization efforts were carried out for 30 existing processed food products (such as sterilized sausages, cold cuts, etc.) through the application of new ingredients and adjustments to formulas. These enhancements helped improve product quality, reduce production costs, and better serve consumer needs..

2.5. Investment Projects: Initiatives Taken, But Progress Behind Expectations

About "the relocation and modernization of the livestock slaughterhouse and food processing facility" project, coordinated with authorities in Long An Province to:

- Carry out the documents and procedures for converting from an industrial park to a direct investment project, request approval of the new investment policy, and approve the investor. Then, carry out the procedures for converting to land lease according to regulations after equitization and adjust the changes in the shape and coordinates of the project land boundary in Long An on the land use right certificate to match the current status of the land.
- Carry out the adjusted project documents and procedures according to regulations to have enough basis to submit to the Shareholders' Meeting for approval of the project adjustment.
- However, due to legal issues regarding documents, procedures, and land use right certificates of the project land, which are currently still stuck; although the Company has proactively contacted and worked with the Department of Natural Resources and Environment, along with other departments, branches, and sectors of Long An province; sent an official dispatch to the Ministry of Natural Resources and Environment to resolve the problems and backlogs to promptly implement the project; The Company is currently awaiting review and guidance.

About Land Lease at Tan Tao Industrial Park:

- Although the General Meeting of Shareholders has passed a resolution approving the adjustment of the project—separating the "VISSAN Business Operations Office and Transit Warehouses" from the relocation project—the Company still needs to proceed with resolving the land lease agreement at Tan Tao Industrial Park. Currently, the Company is proactively working with ITACO to address issues related to the land lease contract, ensuring the lawful rights and interests of its shareholders.

Other Capital Projects Supporting Business Operations:

- For the Vissan Binh Duong Livestock Enterprise project: the Company has actively coordinated with relevant departments and agencies in Binh Duong Province to complete the procedures for updating the land use right certificate, changing the name from "One-Member Limited Liability Company" to "Joint Stock Company." The Company is currently carrying out the necessary procedures in accordance with

regulations to establish the legal basis for project approval and expedite investment and operational deployment, serving the Company's strategy of securing raw material sources.

- Several projects were completed, accepted, and put into use in 2024, including: upgrading infrastructure for production and business activities at the Ho Chi Minh City plant; applying information technology to enhance corporate management; and expanding the Fast Business Online system, contributing to production and business operations and strengthening management and operational capacity.

2.6. Asset Management, Cost Optimization, Organizational Restructuring, and Human Resource Governance

Review, develop and supplement norms in production and business and costs of raw materials and transportation to optimize and increase the efficiency of the Company's operations.

Review, adjust and supplement the internal management regulations and rules; at the same time, regularly inspect and evaluate units on compliance with the Company's regulations, procedures and rules to ensure that the Company's operations are in accordance with current laws and regulations, and manage risks well in production and business activities.

Complete the restructuring plan of the Vissan Bac Ninh Food Factory's organizational structure, change the organizational structure of the Administration Department; review and issue decisions on the establishment and dissolution of units, steering committees, councils, working groups, etc. and decisions on the establishment and termination of business locations of affiliated branches to suit the actual operating situation.

Complete, evaluate, and receive traditional channel sales personnel from labor service providers to the company to enhance operational efficiency and sales management.

Resolutely review labor, streamline production processes, etc. to reduce costs, increase labor productivity and operational efficiency.

Organize the exploitation and effective use of information technology applications deployed in the past (FBO, Wework, Cloud office, HRonline, etc.) to contribute to improving administrative management, enhancing internal communication, and optimizing business processes.

Implement professional and technical training courses on quality management; traceability; tax policies; labor safety; bidding laws, stock market, etc. for more than 2,700 workers with a total cost of more than 350 million VND and support university and graduate school tuition for 02 workers to help improve their qualifications and work efficiency.

PART II ORIENTATION AND TASKS FOR 2025

I. OUTLOOK FOR 2025

Vietnam's economy in 2025 is forecast to face more challenges than advantages, with difficulties outweighing opportunities. Increasing geopolitical instability and the escalating risk of a widespread trade war are expected to further tighten global supply chains. Meanwhile, fuel prices, input material costs, market commodity prices, interest

rates, exchange rates, and inflation are all projected to remain high. Consumers are increasingly adopting a more frugal spending mindset, and purchasing power as well as the recovery of consumer confidence are expected to remain at low levels.

The price of live pigs is forecast to stay elevated due to the ongoing herd reduction trend among several large livestock enterprises and the resurgence of African swine fever in certain regions, leading to supply shortages that will affect the Company's product cost structure.

Competitors with strong financial resources and raw material advantages are expected to continue implementing various aggressive sales support programs to capture market share, intensifying the already fierce competition within the industry.

II. BUSINESS PLAN FOR 2025

Based on the 2024 performance results and the 2025 market outlook, the Company proposes the following key business targets for submission to the General Meeting of Shareholders for review and approval:

No	Indicator	Unit	Actual 2024	Target 2025	% vs 2024
A	B	C	1	2	3=2/1-1
1	Total Revenue	VND million	3.181.558	3.335.000	104,8%
2	Output of Key Product Categories				
2.1	Fresh Foods	Tons	8.967	9.165	102,2%
	- Pork (all types)	Tons	8.447	8.630	102,2%
	- Beef	Tons	520	535	102,9%
2.2	Processed Foods	Tons	20.244	21.460	106,0%
3	Profit Before Tax	VND million	141.539	116.000	82,0%

***Note:** Land lease expenses in 2024 amounted to VND 48.2 billion. The 2025 pre-tax profit plan has been formulated based on an estimated land lease expense of VND 67.9 billion. If the actual land lease cost in 2025 increases or decreases compared to this amount, the profit plan will decrease or increase accordingly.*

According to forecasts by several reputable organizations, Vietnam's economy is expected to continue facing significant challenges. Employment and income levels have yet to improve, while food prices and living expenses remain high, leading consumers to adopt more restrained spending habits. Purchasing power and the consumer confidence index are projected to remain low in 2025. This outlook is further supported by actual data from the first quarter of 2025, which shows continued low purchasing power and a sharp 5–20% decline in consumer spending during the 2025 Lunar New Year (Year of the Snake) compared to the 2024 Lunar New Year (Year of the Dragon), based on statistics from the Departments of Industry and Trade in several provinces and cities.

If production and business plans for 2025 were based solely on these forecasts and first-quarter realities, the projected figures would be extremely low. However, in a spirit of determination and commitment to safeguarding shareholder interests, the Company has developed its 2025 business plan with the highest level of ambition and will exert maximum effort to fulfill the production and business targets set for the year.

III. KEY TASKS AND STRATEGIC SOLUTIONS FOR 2025

In 2025, the Company will continue to implement many solutions to achieve the best results in its production and business plan, focusing on the following main solutions:

1. Securing Raw Material Supply for Production

Accelerate the development of live hog supply under the Feed – Farm – Food strategy to cover 20–30% of the Company's demand in the long term. This includes expediting the investment process for the new pig farm project in Binh Duong.

Continue building strategic partnerships with large-scale livestock companies to ensure long-term stable supply of live pigs with controlled quality and competitive pricing.

Review all raw material input costs and identify high-cost or vulnerable ingredients that may impact production, and seek alternative replacements to reduce cost.

2. Strengthening Sales, Distribution, and Network Development

Continue to promote sales activities by maintaining and expanding cooperative relationships with existing customers, expanding areas, changing eye-catching displays in traditional and modern sales channels to increase product coverage.

Promote the implementation of stimulating shopping, increasing sales volume through key sales support programs (by product, region, etc.), new promotional programs to maintain market share, retain consumers in the context of low purchasing power and fierce competition from competitors.

Strengthen and expand the distribution network, seek more customers such as B2B channel manufacturing and processing units, school customers, restaurants, hotels in Horeca channel, etc. to increase sales volume.

Complete the deployment of tablets for the sales team to optimally exploit DMS One software in supporting sales activities; Continue to equip cold storage cabinets for points of sale to increase sales and market share for the Company's cold storage products such as Frozen processing, cold cuts, fresh sausages, etc., contributing to restructuring the proportion of the product line to limit risks in business.

Promote online sales through the website Vissanmart.com and existing e-commerce platforms; at the same time, agree to cooperate to bring VISSAN products to new e-commerce sites (tiktok, lazada, etc.) to enhance the image and consumption output.

For export activities: Continue to maintain existing export markets (Hong Kong, Taiwan, Japan, Korea, the United States, Australia, etc.) and focus on finding new customers. At the same time, research to improve the quality of existing products; develop new products and packaging suitable for the consumer market of importing countries.

3. Developing New Products and Enhancing Existing Lines

Diversify meatball products, canned goods with various pricing tiers, and sausages with new flavors. Expand the cold cut product line through quality improvements and new product development to serve a broader range of customers and grow the processed food segment.

Continue developing Medium Temperature Sausages (MTS) — shelf-stable sausages suited for youth snacking habits and convenient distribution.

Explore and test updates across all product lines: redesign packaging, refine formulations, and adopt cost-efficient ingredients without sacrificing quality. Focus on high-volume products like sterilized sausages, Family sausages, and canned goods to meet growing consumer demand and improve profit margins.

Customize flavors, appearance, and packaging based on regional and cultural preferences to boost sales in domestic and export markets.

4. Promoting and Strengthening the VISSAN Brand through Communication

Continue brand awareness and reminder campaigns via reputable media outlets (TV, radio, press).

Build brand trust with communication campaigns targeting young, potential future customers while reinforcing loyalty among existing customers. Extend school event series from Ho Chi Minh City to neighboring provinces like Vung Tau, Binh Duong, and Tien Giang.

Promote product categories (fresh foods, processed foods), new products, the Company's Vissanmart.com website, and official social media platforms (Facebook, YouTube...) to enhance brand recognition and visibility.

Expand internal communication with fresh content and diverse formats to boost employee morale, engagement, and unity.

Participate in reputable awards such as Vietnam High-Quality Goods, Vietnam Strong Brands, and Outstanding Ho Chi Minh City Enterprises & Entrepreneurs to promote brand value and trust across internal and external stakeholders.

5. Accelerating Investment Projects

For “the relocation and modernization of the livestock slaughterhouse and food processing facility” project:

- Continue working with Long An authorities on technical and legal procedures to convert the industrial cluster into a direct investment project; secure investment policy approval and investor recognition; update land lease agreements and cadastral records to reflect current land status. Expedite investment approval amid administrative restructuring, which may cause leadership reshuffles that could impact ongoing support for project difficulties.

- Finalize project adjustment documentation to present to the General Meeting of Shareholders.

- Resolve outstanding packages from before 2023.

For Land Lease at Tan Tao Industrial Park: Continue active discussions with ITACO to address lease agreement issues and safeguard shareholder rights and interests.

For other approved investment projects: Accelerate execution to support business operations and production targets.

6. Enhancing Governance and Human Resource Development

6.1. Governance

Work closely with authorities to resolve pending land use certificate and lease contract issues for Company-managed stalls and retail spaces.

Review labor resources and optimize production workflows; update production cost norms and link employee income to performance. Tighten control on return rates and yield recovery (pork, beef, organs...) to reduce costs, improve productivity, and enhance VISSAN's competitiveness—especially for fresh food products.

Restructure the Company for efficiency by reviewing departmental functions and workforce allocations; continue designing a new organizational model in preparation for relocation to Long An.

Continuously review and update internal policies to ensure legal compliance and minimize business risk.

Strengthen IT management, optimize existing applications (FBO, Wework, Cloud Office, HRonline...), and invest in or upgrade tools (fresh meat counter software, asset management systems...) to enhance operational control and slicing ratio management.

Develop a "green economy" and "circular economy" roadmap through adopting energy/resource-efficient technologies, and training employees in eco-friendly practices.

6.2. Human Resource Development

Provide training on workplace safety, soft skills, and sales skills for staff in fresh and processed food divisions. Offer advanced courses for middle management to improve leadership capacity.

Strengthen the Company's performance recognition system to reward individuals and teams with outstanding achievements or innovations that benefit business operations.

This concludes the report on 2024 business performance and the 2025 business plan.

Respectfully submitted to the General Meeting of Shareholders for review and approval./.

ON BEHALF OF THE BOARD OF DIRECTORS
CHAIRMAN

- As stated above;
- To be filed: Office of the Board of Directors, Board Secretary

Nguyễn Phúc Khoa
Nguyễn Phúc Khoa

No: 1858/BC-HĐQT-VISSAN

Ho Chi Minh city, day 23 month 04 year 2025

**REPORT
Review of Business Performance (2020–2024);
Strategic Plan and Objectives (2025–2029)**

To: The General Meeting of Shareholders.

The Board of Directors of Vissan Joint Stock Company respectfully submits to the General Meeting of Shareholders the summary report on business operations during the 2020–2024 period and the strategic directions and tasks for the 2025–2029 period, as follows:

**PART I.
PERFORMANCE DURING THE 2020–2024 PERIOD**

I. GENERAL OVERVIEW

The 2020–2024 period witnessed rapid and highly complex global and domestic developments, presenting unprecedented difficulties and challenges. The prolonged COVID-19 pandemic caused severe consequences; strategic competition among major powers intensified; and geopolitical tensions escalated, disrupting most global supply chains. Combined with rising inflation and tightening monetary policies, these factors led to a significant slowdown in global economic growth. As a highly open economy, Vietnam has been heavily affected since 2022. Many businesses have had to scale down production, unemployment has risen, and household income has declined, leading to tightened consumer spending. As a result, purchasing power and consumer confidence have dropped sharply, posing great challenges to businesses in general and to VISSAN in particular.

As a company engaged in food production and trading, VISSAN was not only subject to these general macroeconomic impacts but also directly confronted with outbreaks of African Swine Fever (ASF), which disrupted supply and demand balance and caused complex and volatile fluctuations in live hog prices at times surging to levels that suppressed consumer demand. In addition, the Company faced intense competition from financially strong industry players who implemented aggressive sales support programs to capture market share. These factors had significant adverse effects on VISSAN's business operations.

All of these external, unforeseen factors created considerable challenges to the Company's operations, resulting in declines in output, revenue, and profit from 2020 through the present.

II. PERFORMANCE DURING THE 2020–2024 PERIOD

1. Results Achieved:

Despite facing numerous adverse external factors, with determination, effort, and unity among all employees and the leadership team, the Company proactively monitored

market trends and implemented a variety of effective measures to mitigate negative impacts on its operations. These efforts helped preserve and grow state-owned capital, protect shareholder interests, and ensure employee income.

Furthermore, during the height of the COVID-19 pandemic—when maintaining stable food supply was a national priority, VISSAN played a key role as a leading food enterprise. The Company actively and effectively participated in the Price Stabilization Program in Ho Chi Minh City and across the country, further reinforcing consumer trust in the VISSAN brand.

No	Indicator	Unit	Actual 2020	Actual 2021	Actual 2022	Actual 2023	Actual 2024	Actual (2020- 2024)
1	Total Revenue	VND millio n	5.168.538	4.327.424	3.876.132	3.384.695	3.181.558	19.938.347
2	Output of Key Product Categories	Tons						
2.1	- Pork (all types)	Tons	17.475	14.639	10.954	9.854	8.447	61.369
2.2	- Beef	Tons	1.077	729	632	616	520	3.574
2.3	Processed Foods	Tons	28.021	23.826	25.319	21.511	20.247	118.924
3	Profit Before Tax	VND millio n	204.926	187.206	173.525	139.580	141.539	846.776

2. Results of Key Tasks and Solutions for the 2020–2024 Period

2.1. Market Research and Development Activities:

Regularly and periodically, the Company has conducted many surveys and market research to grasp consumer trends; analyze and evaluate opportunities and challenges to orient and implement production and business activities in line with the Company's development strategy

Strengthen communication and promotion of the VISSAN brand through many reputable media channels such as: television stations, major newspapers... Focus on renovating and upgrading product introduction stores, updating company introduction films and profiles, fresh product catalogs, renewing sales staff uniforms, taking care of goods and building a professional working style for employees, thereby contributing to perfecting the VISSAN brand identity system.

Implement many marketing activities in distribution channels, promote online business through the website Vissanmart.com for online sales nationwide; Cooperate with e-commerce platforms (Tiki, Sendo...) to better serve consumers, especially during the Covid-19 outbreak. Successfully organize many partner conference events, contributing to increasing the connection between VISSAN and partners (suppliers, distributors).

Actively research, closely follow the market situation, correctly assess consumer needs and trends; promptly launch 37 new, unique, high-quality products to meet the needs

of many different customer groups; make improvements on 67 existing products in most product groups in the fresh food and processed food industry to improve product quality.

Every year, VISSAN is honored and receives many prestigious titles and awards from the Prime Minister, the City People's Committee, departments, newspapers and magazines, thereby affirming the position of VISSAN, contributing to promoting production, business, communication and better promoting the VISSAN product brand.

2.2. Improving Business and Production Efficiency

Investment plans were developed and several projects applying advanced technologies were proposed and implemented (such as HRonline for human resource management; FBO for warehouse, sales, and accounting; MiniMis for budgeting; Cloud Office for document management, etc.) to optimize production processes, enhance labor productivity, and improve product quality.

The Company continued to restructure its organization and human resources to strengthen operational governance. Production was streamlined for certain products to boost capacity and labor productivity. Labor norms, headcounts, product costing, and performance targets were reviewed and reassigned accordingly.

Scientific and technical advancements were further integrated into production and business operations. The Company regularly reviewed and controlled material costs, streamlined logistics to reduce costs, enhance product quality, and improve competitiveness and overall business performance.

2.3. Raw Material Development Program

The Company continues to sign framework contracts for live pig supply with partners to ensure a stable supply of key raw materials at favorable prices. It is committed to providing 100% VietGAP-standard pork, Australian beef in compliance with ESCAS standards, and full participation in the TE-Food Program “Management, Identification, and Traceability of Pork in Ho Chi Minh City” across all fresh meat counters. The Company is also enhancing the standardization of inspection and control processes to ensure product quality from raw material input to end-user delivery.

The leadership has directed the VISSAN Binh Thuan Livestock Enterprise to implement a series of synchronized solutions, including: deploying the Herdman management software from the USA for breed tracking, and the Agri System software for monitoring productivity during livestock raising; signing contracts with partners such as De Heus and US Feed to supply animal feed according to Global GAP standards; developing vaccination protocols for disease prevention; and establishing a biosecurity network both inside and outside the enterprise. These initiatives aim to reduce costs, ensure production safety, and proactively secure a portion of the Company’s raw material supply for slaughtering, processing, and sales operations.

To meet long-term production and business needs and supply 20–30% of its live pig requirements, the Company has launched the “Investment in the New Construction of VISSAN Binh Duong Livestock Enterprise” project, with a total investment capital of VND 229 billion. The investment policy has been approved, and the project is currently in the preparation phase. It is expected to begin operations in 2028, fundamentally meeting the Company’s production and business demands

2.4. “The relocation and modernization of the livestock slaughterhouse and food processing facility” project:

Since the beginning of the term, the Company has focused on implementing the Relocation Project according to the approved plan. Adjusting the assignment of members of the Board of Directors and the Board of General Directors to be in charge of and participate in the project implementation; signing a commitment with the collective effort according to the assigned tasks to complete the project on schedule; Closely coordinating with local authorities and consulting contractors, construction contractors to carry out the documents, procedures, and legal basis of the Relocation Project according to the prescribed order. Periodically every quarter, 6 months, 9 months and 1 year, the Company evaluates the results and progress of the Relocation Project implementation; points out difficulties and obstacles and proposes policies and solutions to overcome and speed up the project progress. Up to now, the implementation of the Relocation Project has achieved the following results: (1) Basically completing the "Establishment of construction drawing design and total project estimate" dossier; (2) Complete the construction of the "Fence surrounding the land and temporary gate of the project"; (3) Complete the preparation, submission and approval of the "Environmental Impact Assessment Report" by the Department of Natural Resources and Environment of Long An province; (4) Withdraw the project "Vissan Food Processing Industrial Cluster" from the Industrial Cluster planning to convert it into a direct investment project; (5) Implement the adjustment of changes in the Land Use Rights Certificate of the project land in Luong Binh commune, Ben Luc district, Long An province; (6) Separate the project "VISSAN Business Management Office and Transit Warehouses" from the initially approved project to form another project; (7) Implement the project adjustment work...

During the implementation of the relocation project, although the Company has made great efforts, been proactive, actively grasped and coordinated with all levels, sectors, and functional agencies to promote the project progress; However, the arising of legal procedures related to land such as: the boundary on the Land Use Rights Certificate is different from the current status of the project land; land use progress;... along with changes in technology, adjustments in scale and total investment have caused the relocation project to be behind schedule compared to the set plan.

2.5. Enhancing Management and Governance Capacity

a. Human Resource Development Program

Recognizing that human resource development brings significant benefits to both employees and the enterprise, the Company has, in recent years, placed strong emphasis on building and strengthening its human resource development initiatives. These efforts have shown positive transformation in alignment with the Company's strategic development goals. The Company has proactively implemented training and development programs to enhance management capabilities, professional knowledge, and working skills for its staff and employees; financial support has also been provided for employees pursuing university and postgraduate education.

A dynamic and friendly working environment has been fostered through the implementation of appropriate remuneration, welfare, and reward policies to attract and recruit external talent, while also maintaining and stabilizing the current workforce. These initiatives aim to foster long-term employee engagement and loyalty to the Company.

The Company continues to restructure its functional departments to enhance operational efficiency, optimize resources, and meet the development requirements of the new period. This includes reviewing and issuing decisions related to changes, adjustments, and additions to the functions, duties, and organizational structures of affiliated units; as well as implementing appointments, transfers, and rotations to meet operational and business needs.

To reduce costs while maintaining effective human resource management, the Company continues to apply the "HRonline" software for HR administration and performance evaluation. It also collaborates with consulting units to restructure operations and assess job effectiveness and employee performance through measurable KPIs

b. Information Technology Program

Recognizing the crucial role of IT in business operations, VISSAN allocated financial resources to develop over 10 software applications between 2020–2024. These included: Fast Business (FBO) for financial/accounting/warehouse/sales management, AX for retail, DMS for national GT channel sales, HRonline for human resources, budgeting systems, Wework for work management, electronic invoicing, office and decision support apps. These tools significantly improved governance, optimized processes, enhanced productivity, and enabled faster strategic planning aligned with real-time market changes.

c. Corporate Culture Development

At VISSAN, corporate culture is viewed as a core value and foundation for differentiation and social responsibility. The Company has continuously fostered positive cultural values, building a respectful and harmonious work environment that encourages compliance, passion, dedication, and sustainable growth. In the spirit of "Remembering One's Roots," the Company annually hosts events honoring past leaders, sharing their experiences with younger generations. Efforts are made to ensure fair compensation, full social benefits, and welfare support. Support is also extended to employees in difficult circumstances and through community-focused CSR activities.

Through these endeavors, VISSAN has earned widespread recognition from government authorities and consumers alike, receiving numerous awards and honors each year, further promoting the brand and its market position

III. GENERAL ASSESSMENT

I. Achievements

During the 2020-2024 term, the Company's leadership and employees have made efforts to overcome difficulties and negative impacts of the Covid-19 pandemic, African swine fever (ASF) and the increase in input material prices; have preserved and developed State capital at the Company, basically completed the annual profit target, ensured jobs and income for employees, maintained and sustained production and business activities, did not break the supply chain of fresh and processed foods for the market; actively and effectively participated in market stabilization work under the direction of the City People's Committee; harmoniously combined the interests of the State, enterprises, shareholders and employees.

Well implemented the restructuring, rearrangement of the apparatus, and arrangement of staff; restructured the fresh food industry; reviewed, adjusted and supplemented the system of regulations and rules; Actively research and develop new products and improve the quality of existing products; strengthen internal control... to

ensure the Company's operations comply with the provisions of law, reduce costs, improve labor productivity, and increase production and business efficiency.

Focus on promoting the implementation of key programs and projects to serve production and business activities. Actively apply scientific and technical achievements and promote the application of information technology in the Company's management, production and business organization. Maintain the implementation of standardization of inspection, control, and traceability processes, ensuring product quality from input materials until the products reach consumers. Pay attention to building and developing corporate culture, along with expanding the market and promoting the VISSAN brand and products, contributing to affirming the position, image, and brand of VISSAN.

2. Limitations and causes

Some production and business targets on output and revenue have not been achieved compared to the annual Resolution and the Congress Resolution. The main reason is that the market's purchasing power is weak, causing sales output and revenue to decrease; along with the increase in input material prices, which has increased production costs, increased product prices, arising unexpected costs related to Covid-19 prevention and control work, and a sharp increase in land rent, causing profits to decrease; leading to budget payments and average income of workers not reaching expectations. Meanwhile, many competitors with large market budgets have implemented many promotional programs to increase market share for some of the Company's key products. Some markets are empty due to changes in distributors and sales personnel, leading to a decrease in sales force income, which also increases the number of job quits and market losses in some areas. The fresh produce industry has continuously decreased in output over the years, leading to high production costs that make it difficult to compete on the GT channel where customers choose low prices.

“The relocation and modernization of the livestock slaughterhouse and food processing facility” project has not yet achieved the planned progress. The implementation of investment and development projects has been prolonged, affecting the production and business activities of the Company. Although the Company has made great efforts, proactively and actively grasped and coordinated with all levels, sectors and functional agencies to promote the project progress; but the arising of legal procedures regarding the boundary and boundary on the Land Use Rights Certificate of the project land; along with changes in technology, adjustments in scale and total investment of the project; on the other hand, complicated documents, processes and legal procedures and at the same time having to submit to many levels and sectors for opinions have caused the project implementation progress to be prolonged, not meeting the approved plan.

PART II

ORIENTATION AND KEY TASKS FOR THE 2025–2029 PERIOD

I. OUTLOOK

The period 2025-2029 is forecast to be a period of volatility and challenges for the global economy and businesses, including VISSAN. Increasing climate change and extreme weather events will directly impact the supply of raw materials, push up production costs and destabilize the supply chain. In addition, geopolitical tensions and trade conflicts can disrupt production activities, making it difficult to import raw materials

and export products. The rise of new technologies such as Industry 4.0 and artificial intelligence will create new opportunities but also pose many challenges, requiring businesses to quickly adapt and innovate. At the same time, the increasing consumer trend of focusing on health and sustainability will impact consumer needs and preferences, requiring food businesses to change their production and business strategies. In that context, VISSAN will have to face many pressures such as fierce competition from domestic and foreign rivals, rapid changes in consumer tastes and increasingly strict regulations on food safety and environmental protection will continue to have a great impact on social life as well as the production and business activities of enterprises in general and the Company in particular.

To survive and develop in the new context, VISSAN needs to constantly innovate, improve competitiveness, build a strong brand and quickly adapt to market changes; promote the implementation and application of new achievements of the 4.0 industrial revolution in production and business activities to improve labor productivity, corporate governance capacity, production management, and cost savings; effectively implement the relocation of the factory to Long An; Promote the training process, innovate the thinking of staff, managers at all levels, provide professional training for workers to meet the new situation, thereby gradually solving difficulties, continuing to develop quickly and sustainably.

II. ORIENTATION AND KEY TASKS FOR THE 2025–2029 PERIOD

No	Indicator	Unit	Target 2025	Target 2026	Target 2027	Target 2028	Target 2029	Target (2025–2029)
1	Total Revenue	VND million	3.335.000	3.503.000	3.719.000	3.950.000	4.181.000	18.688.000
2	Output of Key Product Categories							
	- Pork (all types)	Tons	8.630	9.100	9.600	10.100	10.600	48.030
	- Beef	Tons	535	560	590	620	650	2.955
	Processed Foods	Tons	21.460	22.600	23.800	25.100	26.500	119.460
3	Profit Before Tax	VND million	116.000	138.900	153.200	140.200	151.300	699.600

- According to forecasts for the 2025–2029 period, VISSAN is expected to face numerous pressures, including fierce competition from both domestic and international rivals, and rapidly changing consumer preferences. These factors will continue to significantly impact business operations across the industry, including VISSAN. Based on a thorough review of business performance across all sales channels and an assessment of the competitive landscape, the Company has developed its production plan for the 2025–2029 period as follows:

- Pork: Total production volume of 48,030 tons, with an average annual growth rate of 4.6%

- Beef: Total production volume of 2,955 tons, with an average annual growth rate of 4.6%.
- Processed foods: Total production volume of 119,460 tons, with an average annual growth rate of 5.5%.

- Regarding Total Revenue: The total revenue for the 2025–2029 period is projected to reach VND 18,688 billion, with an average annual growth rate of 5.6% .

- Regarding business efficiency: Live pig prices are forecast to rise in the coming years, which will significantly affect the Company's profitability. Additionally, under Decision No. 79/2024/QĐ-UBND issued by the Ho Chi Minh City People's Committee on October 21, 2024, land lease costs are expected to increase sharply, further reducing the Company's operational efficiency. Moreover, interest expenses and depreciation costs associated with the VISSAN Binh Duong Industrial Pig Farm Project—scheduled to commence operations in 2028—are also expected to substantially impact the Company's business performance in the near future.

II. MAJOR TASKS AND SOLUTIONS

1. Strengthening market research and development

The Company will continue to strengthen market research efforts by regularly conducting market surveys and studying consumer trends to shape long-term strategies and develop annual production and business plans.

Product research and development will be further enhanced, focusing on introducing new processed food items across most product categories tailored to different market segments and a diverse customer base. This includes the development of the MTS product line, tray-packed products in “ready-to-eat” and “ready-to-cook” formats, along with the continuous improvement of existing products to align with consumer trends and meet increasing demand.

Sales activities will be promoted by expanding product coverage and display space across both traditional and modern retail channels. The Company will also seek new customers and points of sale, and further develop online business through the Vissanmart.com website and other e-commerce platforms.

The Company will continue organizing distributor and customer conferences, collaborating with partners to explore customer needs and gather feedback on product quality and presentation. Promotional programs will be effectively implemented. In addition, brand communications and internal communications will be intensified with new and diverse content and formats. The Company will also participate in prestigious annual awards to enhance brand and product visibility, supporting overall production and business activities..

2. Enhancing production and business efficiency

The Company will continue to implement construction projects, investments, and technological innovations, while expanding cooperation with domestic and international partners to enhance production capacity, improve labor productivity, increase competitiveness, and expand market reach.

It will also work on refining business and production processes, optimizing production arrangements, and linking employee income to job performance in order to

reduce costs and improve operational efficiency. The Company will continue finalizing its organizational restructuring plan and developing a new organizational model to align with the planned relocation to Long An.

Additionally, efforts will be made to review and evaluate input material costs, identify alternatives for high-cost or unstable-supply materials to optimize product pricing, and strengthen the internal system of regulations and policies to ensure compliance with legal requirements and minimize operational risks..

3. Enhancing corporate governance and leadership capacity

Continue to streamline and restructure the organizational system at departments, branches, and centers, ensuring lean and efficient operations. Reassess functional responsibilities and staffing to improve managerial capacity and responsiveness to market changes.

Strengthen transparent and effective financial management to ensure liquidity and profitability. Develop a comprehensive risk management system to proactively identify and mitigate potential business risks.

Implement training programs for all management levels. Improve recruitment, attraction, and retention of high-quality personnel. Develop job position profiles and competency frameworks, performance evaluations, and reform compensation policies to align with task performance.

Promote a results-oriented reward system to drive innovation, efficiency, and loyalty.

Foster and promote VISSAN's corporate culture, emphasizing legal compliance, professionalism, dedication, and unity. Support underprivileged individuals and actively engage in CSR and community initiatives.

4. Accelerating strategic and breakthrough programs and projects

4.1. Livestock supply development program

Continue establishing partnerships with major livestock suppliers to ensure a stable, high-quality, and competitively priced pork supply.

Strengthen inspections and coordination on livestock source verification to ensure standards, disease safety, and modern farming practices with traceability, forming high-quality pork supply zones for the company's operations.

Maximize the performance of VISSAN Binh Thuan Farm in line with local planning and development trends. Expedite implementation of the new Binh Duong pig farm project using advanced, disease-safe technology. Aim to bring the Binh Duong farm into operation soon to meet 20–30% of the company's long-term pork needs.

4.2. Export development program

As the domestic market matures and internal consumption growth slows, expanding exports is essential for VISSAN's growth and brand elevation. Leveraging its diverse processed product portfolio, the company aims for an annual average export growth rate of 10% or more through:

- (1) Maintaining existing export products and developing new ones for traditional markets such as Hong Kong, Taiwan, Japan, South Korea, the U.S., and Australia.
- (2) Investing in facility upgrades, production processes, and technology to meet

export certification standards (e.g., HACCP, ISO), paving the way to penetrate new, high-standard markets like the EU.

(3) Offering incentives for new markets and customers, shortening R&D and delivery lead times, and continuously improving product quality and packaging to suit import market preferences.

4.3. Digital transformation, green transition, and sustainable development

In light of the inevitable trend of the digital economy and the growing demands for environmental protection, the implementation of digital transformation, green transition, and sustainable development has become an urgent task for VISSAN. Digital transformation helps optimize production processes, enhance operational efficiency, reduce costs, and improve customer experience. Meanwhile, green transition not only ensures compliance with stringent environmental regulations but also creates competitive advantages and aligns with sustainable consumption trends. The integration of both elements will enable VISSAN to pursue sustainable development, increase brand value, and elevate its position in both domestic and international markets.

For the 2025–2030 period, the Company will focus on the following key initiatives:

(1) Accelerate digital transformation and the application of Industry 4.0 technologies across all operational processes by strengthening the management, utilization, and effective implementation of existing IT applications. The Company will proactively research, collaborate, and develop new digital solutions to serve its management and business operations.

(2) Develop and gradually implement a roadmap for the Company's growth aligned with the “green economy” and “circular economy” trends by integrating ESG practices, applying scientific and technical advancements, and adopting modern, energy- and resource-efficient production processes. The Company will establish a pathway toward carbon neutrality and greenhouse gas emissions reduction to meet the criteria for green products, in accordance with the Prime Minister's National Strategy on Climate Change to 2050 under Decision No. 896/QĐ-TTg dated July 26, 2022, and prepare to participate in the carbon market when it officially begins operation in 2028

4.4. “The relocation and modernization of the livestock slaughterhouse and food processing facility” project

Urgently and proactively work with relevant authorities to resolve outstanding legal issues and complete all required documentation for project adjustment approval, investment policy, investor designation, land use adjustment, and lease agreements. Restructure project financing to ensure stable operation and effective business performance.

Execute the project's components according to regulations. By 2029, complete the installation and trial operation of the pig slaughtering line (240 pigs/hour) and finalize all infrastructure, handover, and commissioning processes.

Relocate equipment and machinery from the current facility in Ho Chi Minh City to the new Long An plant, and complete all audit and finalization procedures per regulations. Organize workforce planning, recruitment, and vocational training before, during, and after the relocation to ensure uninterrupted business operations

Above is the summary report on production and business activities for the period 2020-2024 and the direction and tasks for the period 2025-2029.

Respectfully submitted to the General Meeting of Shareholders for review and approval./.

REPORT

Board of Directors' Activities in 2024

Summary of the 2020–2024 Term and Strategic Directions for the 2025–2029 Term

To: The General Meeting of Shareholders.

During the 2020–2024 term, the world and domestic conditions experienced rapid and highly complex changes, with unprecedented challenges. The prolonged Covid-19 pandemic caused severe consequences; strategic competition between major powers became increasingly intense; geopolitical conflicts escalated, leading to disruptions in most supply chains, high inflation, and tight monetary policies, which resulted in a global economic slowdown. With an open economy, from 2022 onwards, many businesses in Vietnam were forced to scale down production, unemployment increased, and people's income decreased, leading to tighter spending, lower purchasing power, and a decrease in consumer confidence, causing difficulties for many businesses, including Vissan. Furthermore, the African Swine Fever (ASF) outbreak disrupted supply and demand, causing pork prices to fluctuate significantly and rise at certain points, affecting consumers' purchasing behavior. In addition, fierce competition from industry competitors with strong financial capabilities, who implemented attractive sales promotion programs to capture market share, significantly impacted the company's business operations.

Amidst these challenges, the Board of Directors (BOD), together with the Executive Board and the entire workforce of the company, continuously strived to complete the tasks assigned by the General Meeting of Shareholders (GMS). Despite facing many difficulties, the company achieved certain results, which are as follows:

PART I: REPORT ON THE BOARD OF DIRECTORS' ACTIVITIES IN 2024

1. Operational Activities

In accordance with legal regulations and the Company's Charter, the Board of Directors (BOD) fulfilled its leadership and governance responsibilities in 2024 by approving key policies and making important decisions to accomplish the objectives assigned by the General Meeting of Shareholders (GMS).

- The BOD held 26 meetings through both in-person sessions and written consultations to review and decide on matters under its authority and functions.
- A total of 26 Resolutions and 14 Decisions were issued (see attached Appendix 1), covering investment initiatives, business development orientations, and other significant matters in compliance with applicable regulations.

2. Duties of BOD Members: In 2024, the Board of Directors consisted of members with the following assigned duties:

NO	FULL NAME	MISSION
1	Mr. Nguyễn Phúc Khoa – Chairman of the Board of Directors	<input type="checkbox"/> Overall responsibility for the operations of the Board of Directors; <input type="checkbox"/> Responsible for human resources organization, training, and workforce development; <input type="checkbox"/> In charge of shareholder relations, matters related to shares, and information disclosure; <input type="checkbox"/> In charge of strategic development of production and business activities; <input type="checkbox"/> Responsible for the Vissan Factory Relocation Project; <input type="checkbox"/> Carrying out other duties as assigned by the Board of Directors' Resolutions and the Company's regulations.
2	Mr. Nguyễn Ngọc An – Vice Chairman of the Board of Directors	<input type="checkbox"/> Responsible for the Company's executive operations; <input type="checkbox"/> Overseeing business activities; <input type="checkbox"/> In charge of market management and development, branding, and marketing; <input type="checkbox"/> Responsible for production technology; <input type="checkbox"/> Researching and proposing mechanisms and policies for production management (planning, cost control, cost of goods); <input type="checkbox"/> Managing raw materials, supplies, and production equipment; <input type="checkbox"/> Overseeing product R&D and technology development; <input type="checkbox"/> Supporting the Chairman in the Vissan Factory Relocation Project; <input type="checkbox"/> Performing other duties as per Board Resolutions and Company regulations.
3	Mr. Nguyễn Quốc Trung – Vice Chairman of the Board of Directors	<input type="checkbox"/> Responsible for strategic aspects of the industry: ensuring pork supply with competitive pricing and standard quality; collaborating with the Chairman on business development strategies to enhance efficiency and profitability; <input type="checkbox"/> Supporting the Chairman in the Vissan Factory Relocation Project; <input type="checkbox"/> Performing other tasks as per Board Resolutions and Company regulations.
4	Mr. Lê Minh Tuấn – Member of the Board of Directors	<input type="checkbox"/> Responsible for business planning; <input type="checkbox"/> In charge of investment activities (excluding the Vissan Factory Relocation Project); <input type="checkbox"/> Managing accounting and financial governance; <input type="checkbox"/> Supporting the Chairman in the Vissan Factory Relocation

NO	FULL NAME	MISSION
		Project; <input type="checkbox"/> Carrying out other tasks as assigned by the Board Resolutions and Company regulations.
5	5. Mr. Trương Hồng Phong – Member of the Board of Directors	<input type="checkbox"/> Responsible for legal affairs and the application of information technology within the Company; <input type="checkbox"/> Supporting the Chairman in the Vissan Factory Relocation Project; <input type="checkbox"/> Performing other tasks as per Board Resolutions and Company regulations.

In 2024, the members of the Board of Directors successfully fulfilled their assigned duties, made strategic decisions on the Company's key directions, and promptly provided guidance to improve corporate governance toward greater efficiency. They ensured strict control over costs and financial management, while minimizing legal and financial risks during the Company's business operations, thereby safeguarding the legitimate rights and interests of the Company and its shareholders.

3. Implementation of the 2024 Annual General Meeting of Shareholders (AGM) Resolutions:

The Board of Directors comprehensively and promptly directed the implementation of the 2024 AGM Resolutions, specifically as follows:

- The BOD oriented company activities and directed the implementation of production and business targets as assigned by the 2024 AGM.
- Amended and supplemented the Company's Charter in accordance with current legal regulations and the practical operation of the Company.
- Executed the 2023 profit distribution, including the payment of dividends to shareholders in accordance with legal regulations.
- Carried out tasks related to the Relocation and Technology Modernization Project of the Vissan Slaughter and Food Processing Plant.

4. Remuneration, salaries, and bonuses of the BOD and Executive Board in 2024:

Please refer to Appendix 2 attached.

5. Supervisory activities of the BOD over the Executive Board:

The provision of information and reporting to BOD members was performed regularly and comprehensively, specifically:

- The Executive Board regularly reported to the BOD on financial conditions, investment activities, and business performance to date, as well as plans for the future, enabling the BOD to provide direction. This facilitated close supervision by the BOD of the Executive Board's implementation of BOD resolutions and decisions.

- The Executive Board reported all unusual or extraordinary matters related to the Company's operations.

In general, the Executive Board demonstrated initiative and accountability in handling company affairs. They regularly reported on governance and operations, sought guidance and direction from the BOD, and disclosed and explained company activities transparently and in accordance with the law. The Executive Board also proactively organized production and business plans in line with actual market conditions based on the BOD's guidance.

6. Report on transactions between the Company and related parties:

Please refer to Appendix 3 attached.

PART II: SUMMARY OF THE BOARD OF DIRECTORS' ACTIVITIES – TERM 2020–2024

1. Implementation results:

In implementation of the General Meeting of Shareholders' resolutions, the Board of Directors (BOD) developed annual plans and directions, defined the Company's production and business strategies and objectives, and assigned the Executive Board to carry them out. At the same time, the BOD closely monitored and promptly addressed any difficulties encountered by the Executive Board during the execution process.

a. Business Operations

During the 2020–2024 term, the Company's leadership and employees made great efforts to overcome numerous challenges and negative impacts caused by the COVID-19 pandemic, African swine fever (ASF), and the sharp rise in input material and fuel prices. Cost-reduction measures were proactively implemented. The Board of Directors proposed strategic directions and objectives and instructed the Executive Board to focus on key priorities, including: developing a retail network, recruiting and enhancing human resource capabilities, launching sales and advertising programs, among others. As a result, the Company successfully achieved its annual profit targets, ensured stable employment and income for its workforce, and maintained stable business and production operations.

b. Production Activities

- Recognized as a long-term value driver, the BoD consistently prioritized factory and equipment upgrades.
- Machines were frequently upgraded for modernization and automation to reduce manual labor.
- Product R&D and staff capacity building were emphasized.
- Skilled training for production workers was regularly conducted to ensure food safety standards.
- Production plans and shift assignments were optimized to enhance worker well-being and productivity.
- Labor safety, fire prevention, and environmental sanitation were strictly implemented.

c. Financial Management

- The BoD closely monitored financial status, controlled expenditures, and ensured capital security and business efficiency.
- Dividends were paid in full per GMS resolutions.
- Salaries, bonuses, social and health insurance, and employee benefits were fully disbursed.

d. Awards and Achievements

- Vietnam National Brand (awarded by the Prime Minister)
- VNR500 – Top 500 Largest Enterprises in Vietnam
- Top 10 Reputable Food Companies in Vietnam
- Top 50 Leading Brands in Vietnam
- “Vietnam High-Quality Goods” Award for consecutive years
- Typical Products and Services of Ho Chi Minh City
- “Green Business” Award by HCMC Business Association & Saigon Times
- Various other honors from central and local governments, ministries, and industry associations.

2. BoD Supervision of the Executive Board

The provision of information and reporting to non-executive Board members has been carried out regularly and comprehensively, specifically:

- The Executive Board consistently reports to the Board of Directors on the Company’s current financial status, investment activities, and business operations, as well as plans and directions for the near future. Based on these reports, the Board of Directors is able to provide timely guidance and closely monitor the Executive Board’s implementation of the Board’s resolutions and decisions.
- The Executive Board also reports all unusual or extraordinary issues related to the Company’s operations

3. Coordination with the Supervisory Board

- The Board of Directors (BOD) held meetings and briefing sessions with the participation of the Supervisory Board, which provided timely feedback on the BOD’s and the General Director’s policies and decisions.

- The BOD proactively informed, discussed, and reached consensus with the Supervisory Board, the Executive Board, and other management personnel regarding inspection and supervision plans at the Company. The BOD also facilitated the Supervisory Board in collecting relevant information and documents related to the Company’s operations upon request.

- The BOD forwarded documents to the Supervisory Board during the course of management and operational decision-making..

4. General Assessment of BoD Management

- The members of the Board of Directors (BOD) have accompanied the Company for many years and are all highly experienced in corporate governance, financial management, and investment.

- During the past term, the BOD closely directed the Executive Board in implementing the resolutions of the General Meeting of Shareholders (GMS) as well as the BOD's resolutions and decisions related to the Company's strategic orientation, production, and business activities.

- The BOD members demonstrated a strong sense of responsibility, actively participating in nearly all meetings or promptly responding to written consultations when required. They fulfilled their responsibilities in governance and supervision as prescribed. The BOD consistently achieved high consensus when approving resolutions and decisions, allowing timely resolution of challenges and issues arising in business operations.

- Additionally, the BOD showed care for the well-being of the Company's employees. Salaries, bonuses, and benefits were directed to be paid in full and in accordance with applicable regulations.

PART III: ORIENTATION FOR BOD ACTIVITIES FOR THE 2025–2029 TERM

During the past term, amidst both challenges and opportunities in production and business activities, the Board of Directors (BOD), together with the Executive Board, made continuous efforts to identify effective business solutions based on the Company's strong foundation of brand reputation and high product quality.

To maintain stability and foster growth, ensure business efficiency, preserve and develop capital, maximize shareholder value, protect employee rights and working conditions, and make positive contributions to the community and society, the BOD has defined the following directions for 2025 and the subsequent years:

- Leverage internal potential and competitive advantages, mobilize and utilize resources effectively; accelerate organizational restructuring, adopt scientific and technological innovations in management and operations, and enhance labor productivity.
- Develop the Company into one of the leading, reputable, and highly competitive enterprises in Vietnam's fresh and processed food sector, with expanded export markets and a focus on sustainable development.
- Prioritize the effective implementation of key programs and projects, including:
 - + The Raw Material Development Program
 - + The Export Market Development Program
 - + The Digital Transformation, Green Transition, and Sustainable Development Program
 - + The relocation and modernization of the livestock slaughterhouse and food processing facility” project

We respectfully submit this report on the BoD's activities in 2024, summary of the 2020–2024 term and operational directions for the 2025–2029 term. We welcome shareholder feedback, especially on areas for improvement in management and

supervision, to help the BoD perform even better and fulfill the goals entrusted by the GMS.

Wishing all shareholders good health and success.

- As stated above;
- To be filed: Office of the Board of Directors, Board Secretary

**ON BEHALF OF THE BOARD OF DIRECTORS
CHAIRMAN**

Nguyễn Phúc Khoa

APPENDIX 1

MEETINGS, RESOLUTIONS/DECISIONS OF THE BOARD OF DIRECTORS IN 2024
(Attached: Report No. 1859/BC-VISSAN-HĐQT dated 23/04/2025 by the Board of Directors)

1/ Meetings of the Board of Directors:

No	Board of Director' member	Number of meetings attended by Board of Directors	Attendance rate	Reasons for absence
1	Mr Nguyễn Phúc Khoa	26/26	100%	
2	Mr Nguyễn Ngọc An	26/26	100%	
3	Mr Lê Minh Tuấn	26/26	100%	
4	Mr Trương Hồng Phong	26/26	100%	
5	Mr Nguyễn Quốc Trung	26/26	100%	

* In 2024, the Board of Directors held 26 meetings, including 6 in-person meetings and 20 written consultations.

2. Resolutions/Decisions of the Board of Directors in 2024:

REPORT

SUPERVISORY BOARD'S OPERATIONS IN 2024, REPORT FOR THE 2020—2024 TERM, AND PLAN FOR THE 2025—2029 TERMOF VISSAN'S SUPERVISORY BOARD

To: The General Meeting of Shareholders

- Pursuant to the current Law on Enterprises;
- Pursuant to Decision No. 1485/QĐBKS-CTY dated April 28, 2021, on the promulgation of the Operational Regulations of the Supervisory Board;
- Pursuant to the Charter of Vissan Joint Stock Company;
- Pursuant to the 2024 financial statements audited by PwC Vietnam Co., Ltd., and the results of inspections and supervision based on documents related to the Company's 2024 business operations

The Supervisory Board hereby reports to the General Meeting of Shareholders the results of its inspection and supervision activities, as follows:

PART I – REPORT ON INSPECTION AND SUPERVISION RESULTS IN 2024 **I. ACTIVITIES OF THE SUPERVISORY BOARD**

1. Organizational Structure of the Supervisory Board

The Company's Supervisory Board consists of three members, including:

- Mr. Trương Việt Tiến – Full-time Head of the Supervisory Board
- Ms. Trịnh Thị Vân Anh – Part-time Member of the Supervisory Board
- Ms. Đỗ Thị Thu Nga – Part-time Member of the Supervisory Board

2. Activities of the Supervisory Board in 2024:

Based on its powers and responsibilities as stipulated in the Law on Enterprises and the Charter of Vissan Joint Stock Company, the Supervisory Board carried out the following main tasks:

- Examined the preservation of capital, cash flow management, and the overall efficiency of the Company's operations;

- Monitored compliance with legal regulations, the Company's Charter, and the implementation of resolutions of the General Meeting of Shareholders and the Board of Directors;
- Reviewed the implementation of investment projects through quarterly investment progress reports;
- Assessed cost-saving measures via quarterly reports and management explanations;
- Appraised the Company's quarterly and annual financial statements;
- Evaluated business efficiency, debt repayment capacity, and capital utilization and management;
- Supervised the implementation of recommendations outlined in inspection and audit reports issued by external audit and inspection bodies;
- Coordinated with the Board of Directors and General Director in managing State capital with the aim of preserving and increasing equity;
- Carried out other tasks in line with the 2024 Supervisory Board Activity Plan, including quarterly inspections and assessments of compliance with the law, the Company's Charter, and resolutions of the General Meeting of Shareholders.
- The Supervisory Board conducted inspections and supervision continuously and systematically to promptly assess the actual performance of the Company and its affiliated units, helping the Company detect and resolve existing issues in its management, operations, and internal control system.
- The Supervisory Board strictly followed its 2024 Activity Plan, in alignment with the resolutions of the General Meeting of Shareholders, the Company's operational plan, and actual developments. All tasks were carried out in accordance with the authority and responsibilities stipulated by the Law on Enterprises and the Company Charter.
- The members of the Supervisory Board performed their duties with a high sense of responsibility, maintaining independence and prudence, always prioritizing the interests of shareholders and the sustainable development of the Company.
- In 2024, the Supervisory Board held four in-person meetings, with 100% attendance by all members. The key agenda items discussed in each meeting are as follows:
 - + Meeting 1: Approval of the appraisal report on the 2023 financial statements; selection of the audit firm for the 2024 financial statements; Supervisory Board's report to the 2024 Annual General Meeting of Shareholders; approval of the 2024 activity plan and task assignments for the Supervisory Board.
 - + Meeting 2: Approval of the Q1 inspection and supervision report; approval of the Supervisory Board's activity plan for the second half of 2024.
 - + Meeting 3: Approval of the reviewed appraisal report on the semi-annual financial statements and the inspection and supervision report for the first half of 2024.
 - + Meeting 4: Approval of the Q3 inspection and supervision report; proposal regarding the selection method for the audit firm for the 2025 financial statements

3. Salaries, Remuneration, and Other Benefits of the Supervisory Board:

The salaries, remuneration, and other benefits of the Supervisory Board are implemented in accordance with the resolution of the 2024 Annual General Meeting of Shareholders and are compliant with the provisions and guidelines set forth in Decree No. 53/2016/NĐ-CP and Circular No. 28/2016/TT-BLĐTBXH issued by the Ministry of Labor, Invalids and Social Affairs. The details are as follows:

No.	Full Name	Position	Salary & Remuneration (VND)	Bonuses and Other Benefits
1	Truong Viet Tien	Head of Supervisory Board	576,000,000	As per current regulations and disclosed in the 2024 audited financial statements.
2	Trinh Thi Van Anh	Member	72,000,000	
3	Do Thi Thu Nga	Member	72,000,000	

All expenses related to the activities of the Supervisory Board comply with the Supervisory Board's Regulations, the Company's financial management regulations, and internal spending policies.

II. RESULTS OF THE COMPANY'S OPERATIONAL SUPERVISION IN 2024

1. Business performance results:

The Supervisory Board inspected and supervised the business operations and appraised the 2024 business performance report of the Company. The results are as follows:

1.1 Key indicators of the 2024 plan performance:

No.	Indicator	Unit	Actual 2024	Plan 2024	Actual 2023	% of Plan 2024	% of Actual 2023
1	Total Revenue	VND billion	3.181.6	33570	3.385	89,12%	94,00%
2	Total Expenses	VND billion	33040.1	3.428.5	3.245	88,67%	93,68%
3	Profit Before Tax	VND billion	141.5	141.5	140	100,03%	101,40%
4	Profit After Tax	VND billion	111.1	112.2	108	99,02%	102,87%

In 2024, the Company recorded total revenue of VND 3.181,6 billion, equivalent to 89.12% of the annual plan and down 6.00% compared to 2023. This includes core business revenue of VND 3.137,3 billion, financial activities revenue of VND 40,7 billion, and other income of VND 3,6 billion. Revenue from fresh food reached VND 1.113 billion (down 8.55%), and revenue from processed food reached VND 1.943 billion (down 4.05%) compared to 2023.

Profit before tax reached VND 141,5 billion, achieving 100,03% of the annual plan, an increase of 1,40% compared to 2023.

As of December 31, 2024, total assets were VND 2.106 billion, down VND 72 billion from December 31, 2023. The decrease was primarily due to reductions in receivables and inventories.

The capital preservation ratio as of December 31, 2024, was 1,004 times (owner's equity of VND 1.294 billion vs. VND 1.289 billion as of December 31, 2023). The Company maintained profitability and preserved its owner's equity.

Return on equity (ROE) in 2024 was 8,58%, up 0,20% compared to 2023. Return on assets (ROA) was 5,28%, up 0,32% from the previous year. The debt-to-asset ratio was 0,39 times as of December 31, 2024, indicating a safe level for business and investment operations.

1.2 Business performance by segment:

Fresh Food

No.	Indicator	Unit	2024 Result	2024 Plan	2023 Result	% of Plan 2024	% of Actual 2023
1	Production Volume	Tons	8.967	10.600	10.470	84,59%	85,64%
	Pork	Tons	8.447	10.000	9.854	84,47%	85,72%
	Beef	Tons	520	600	616	86,65%	84,40%
2	Net Revenue	VND billion	1.113		1.217		91,45%

- Pork production in 2024 reached 8.447 tons, fulfilling 84,47% of the annual plan, and declined by 14,28% compared to 2023. This decline stemmed from several key reasons:

+The prices of many input materials remained persistently high, driving up production costs and directly impacting product prices and the Company's competitiveness in the market

+ The resurgence of animal diseases—especially African swine fever—disrupted the supply of live pigs. The average live pig price in 2024 reached VND 62.972/kg, representing a 12,56% increase over 2023 and exceeding the projected price when the 2024 plan was developed.

+ In October 2024, due to the complicated developments of African swine fever, the Company was forced to implement a herd reduction plan at the Vissan Binh Thuan Livestock Enterprise to minimize potential losses. This decision significantly affected the live pig supply and had a direct impact on the Company's business performance.

+ The economic downturn led to decreased food consumption demand, including pork. Consumers tightened spending and shifted to more affordable food alternatives.

+The pork market saw increasing competition from large-scale livestock companies and smaller local suppliers, creating downward pressure on selling prices and impacting the Company's pork sales volume.

- Beef production in 2024 was 520 tons, achieving 86,65% of the annual plan and declining by 15,60% compared to 2023. This was a strategic decision by the Company to proactively reduce slaughtering volumes in order to improve business efficiency. The adjustment was aimed at optimizing production costs while aligning with the Company's long-term product quality strategy. Vissan worked closely with the Meat and Livestock Australia (MLA) to improve technical standards and focus on enhancing product sensory attributes. These improvements not only enhanced current beef quality but also laid a strong foundation for sustainable growth. The short-term reduction in output reflects the Company's proactive and strategic approach to optimizing resources and preparing for stronger future developments. This also enables the Company to better meet increasing market demands and strengthen its brand reputation in the fresh meat industry.

- Net revenue reached VND 1.113 billion, representing an 8,55% decrease compared to 2023. Of this, pork revenue accounted for VND 965 billion, making up 86,70% of total fresh food revenue.

Processed Food

No.	Indicator	Unit	2024 Result	2024 Plan	2023 Result	% of Plan 2024	% of Actual 2023
1	Production Volume	Tons	20.244	23.500	21.511	86,14%	94,11%
2	Net Revenue	Billion VND	1.943		2.025		95,95%

In 2024, the output of processed food was 20.244 tons, achieving 86,14% of the annual plan and decreasing by 5,89% compared to 2023. This decline was primarily due to economic difficulties, which negatively affected consumer purchasing power across most sales channels. Significantly lower demand reduced income for the salesforce in traditional channels, resulting in mass resignations—especially in the Northern region—causing a severe shortage in sales personnel. This shortage directly impacted product distribution capacity and was a major reason why processed food output decreased and failed to meet the annual target.

Net revenue reached VND 1.943 billion, down 4,05% year-over-year. The two product lines experiencing the largest decline were sterilized sausage and Family sausage, due to a sharp drop in demand and challenges in maintaining the traditional salesforce. This situation demonstrates how the lack of personnel in traditional sales channels and the impact of pricing policies reduced the Company's competitiveness, affected revenue, and hindered market share maintenance during difficult economic times.

2. Fixed Asset and Capital Construction Investment Management

In 2024, the Company's investments in fixed assets (FA) and capital construction (CC) mainly involved procuring machinery, equipment, and transport vehicles to support business operations. The total original cost of these investments increased by VND 9 billion, a decrease of VND 6 billion compared to 2023.

Capital construction investments in 2024 focused primarily on projects carried over from 2023, such as PU scanners, expansion of the Fast Business Online system, and IT applications for management. The total disbursed amount for these activities was VND 5.7 billion.

* Regarding *“the relocation and modernization of the livestock slaughterhouse and food processing facility”* project the Company carried out the following in 2024:

After obtaining the General Meeting of Shareholders’ approval for adjusting the project name on the Investment Registration Certificate and extending the implementation deadline to 2025, the Company completed the dossier and submitted it to the Long An Public Administrative Service Center. The proposal received basic agreement from the Department of Construction, Department of Agriculture and Rural Development, Department of Industry and Trade, Department of Science and Technology, and Ben Luc District People’s Committee. However, the Department of Natural Resources and Environment only agreed on environmental matters and did not yet approve land-use-related contents. The Company has repeatedly submitted reports and clarifications to Long An Province People’s Committee, Department of Natural Resources and Environment, and Department of Planning and Investment.

On January 25, 2024, the Board of Directors issued Resolution No. 495/NQHĐQT-VISSAN approving the hiring of a consulting firm to continue processing the project adjustment dossier under Resolution No. 4651/NQHĐQT-VISSAN dated October 28, 2022, which includes reducing the pork slaughtering capacity from 360 pigs/hour to 240 pigs/hour.

As of December 31, 2024, the project had been delayed by 12 months compared to the original schedule because the Long An Province People’s Committee had not yet approved the new investment policy.

* For the “Business Operations Office and Transfer Warehouse” project in Tan Tao Industrial Park:

After the General Meeting of Shareholders approved separating this facility from the relocation project, the Company initiated discussions with ITACO regarding the land lease contract to determine the most beneficial course of action for shareholders.

On January 10, 2025, the Board of Directors issued Resolution No. 554/NQHĐQT-VISSAN authorizing the Executive Board to negotiate with ITACO to receive handover of the current vacant land, with the conditions that the land must be dispute-free and that ITACO must complete the procedures to issue a land use right certificate for Vissan under the one-time payment lease method.

All fixed asset and capital construction investment projects were carried out in accordance with current State regulations and the Company’s internal policies. After completion, the assets were transferred into use, categorized, and depreciated in accordance with the Ministry of Finance’s guidelines. These investments contributed positively to the Company’s business performance.

3. Marketing and Brand Development

In 2024, the Company carried out various marketing programs at schools, supermarkets, shopping centers, and retail points to support sales activities and promote the Vissan brand.

The Company actively collaborated with universities, primary schools, and kindergartens to organize field trips, helping students and children understand the production process. These activities also served as a way to introduce the Company to younger, high-potential customer groups.

In addition, Vissan enhanced its brand promotion through reputable media channels such as VTV, HTV, VTC, Thanh Nien Newspaper, Nguoi Lao Dong Newspaper, and Tuoi Tre Newspaper. It also expanded its brand recognition via social media platforms to improve visibility and engagement.

The Company further developed its online sales channels via its website and e-commerce platforms, enabling consumers to access safe and hygienic products more easily and conveniently.

4. Corporate Governance and Human Resources

In 2024, the Company reviewed and supplemented production norms, evaluated, rotated, and appointed managerial personnel. It also completed the integration of 530 traditional channel sales employees who were previously under labor service providers, bringing them under the Company's direct management to enhance sales operations and control.

The Company also reviewed labor norms, staffing levels, and unit price quotas. In 2024, the average number of employees was 4,067, with a total salary fund of VND 355 billion. The average monthly income per employee was VND 7,28 million.

Human resource development efforts included planning, appointing, and rotating managerial personnel; conducting training programs and professional development courses to meet the Company's production and business needs.

5. Debt Management

The Company maintained strict control over the management, supervision, and recovery of receivables. Provisions were fully made for overdue and doubtful debts in accordance with regulations.

As of December 31, 2024, total receivables amounted to VND 148 billion, a decrease of VND 86 billion or 36,91% compared to December 31, 2023. The average collection period was 21,9 days. Overdue receivables totaled VND 3.3 billion, accounting for 2.2% of total receivables, and these have been fully provisioned with a value of VND 1,9 billion. Debt reconciliation was performed in accordance with regulations.

As of December 31, 2024, total liabilities stood at VND 811 billion, a decrease of VND 78 billion or 8,75% compared to December 31, 2023. Short-term liabilities were VND 785 billion, while long-term liabilities were VND 26 billion. Loans from credit institutions totaled VND 251 billion.

Debt payments were ensured through reasonable cash flow planning, contributing to the Company's financial stability.

III. FINANCIAL STATEMENT APPRAISAL RESULTS

The Supervisory Board conducted an appraisal of the financial statements for the fiscal year ending December 31, 2024, and confirmed the following results:

- The 2024 financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024, as well as its business results and cash flows for the year then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System, and relevant legal regulations on the preparation and presentation of financial statements.

- The accounting records and classifications were performed in accordance with the accounting standards issued by the Ministry of Finance. The Company complied with current regulations regarding periodic and ad-hoc reporting and disclosure.

- The 2024 financial statements were audited as required by the Company Charter and the 2024 Annual General Meeting of Shareholders' Resolution. PwC Vietnam Co., Ltd. was selected as the auditor for the 2024 financial statements.

- The Supervisory Board concurs with the audited consolidated financial statements for the year ending December 31, 2024, and with the management letter from PwC Vietnam Co., Ltd.

- In 2024, the Company preserved and grew its owner's equity, fully implemented measures to safeguard capital in conjunction with business activities: complying with financial and accounting regulations, profit distribution policies, and provisioning requirements for inventory devaluation, short-term doubtful debts, short-term and long-term liabilities.

- Asset management: All assets were managed in compliance with State and Company regulations. Inventory checks were performed, and depreciation was applied properly. High-value assets were depreciated over long periods in line with their actual usage for production and business activities.

Key performance indicators reflecting the Company's operational efficiency:

Return on Equity (ROE): 8.58%

Return on Assets (ROA): 5.28%

Return on Sales (ROS): 3.54%

As of December 31, 2024:

Debt-to-Equity Ratio: 0.63 times

Current Ratio: 2.19 times

Total Liquidity Ratio: 2.6 times

These indicators demonstrate that the Company's financial position remains healthy and stable.

- Cash and cash equivalents as of December 31, 2024, totaled VND 869 billion, an increase of VND 110 billion from the previous year. Net cash flow from operating activities was VND 201.4 billion, from investing activities was VND 1.4 billion, and from financing activities was negative VND 93.2 billion, mainly due to principal repayments of VND 215 billion on maturing loans.

IV. SUPERVISION OF THE BOARD OF DIRECTORS AND THE EXECUTIVE BOARD

The Supervisory Board reviewed and agreed with the reports of the Board of Directors and the Executive Board presented to the General Meeting of Shareholders.

These reports fully complied with the Law on Enterprises and accurately reflected the activities of the Board of Directors, the Company's business performance, and operations.

In 2024, the Board of Directors operated in compliance with the Law on Enterprises, the Company Charter, resolutions of the General Meeting of Shareholders, applicable laws, and its own resolutions and decisions. The Board of Directors held 26 meetings, including 6 in-person meetings and 20 written consultations. A total of 40 documents were issued: 26 resolutions and 14 decisions.

The Board of Directors closely monitored the implementation of its decisions and supervised the Company's operations through direct working sessions with departments and units. It fully exercised its rights and responsibilities in corporate governance, proactively guided and supported the Executive Board, the Supervisory Board, and all Company units in performing their duties.

The Executive Board worked diligently and responsibly throughout the year. It identified and adapted to challenges and fluctuations in the food and livestock sectors, conducted in-depth analysis of opportunities and risks, implemented risk management to mitigate losses, and stayed ahead of future developments. The Executive Board directed operations decisively and flexibly, closely managed all activities, and proactively researched and implemented timely solutions. Efforts included market expansion, brand protection, product diversification, cost reduction, product development, and technological innovation in management and operations.

The Executive Board also launched various initiatives and emulation campaigns to mobilize resources, optimize production and business processes, and enhance management effectiveness. These actions helped reduce costs, improve the efficiency of the management system, and ensure successful business performance.

V. COORDINATION BETWEEN THE SUPERVISORY BOARD AND THE BOARD OF DIRECTORS & EXECUTIVE BOARD

The Supervisory Board closely coordinated with the Board of Directors and the Executive Board in fulfilling its assigned responsibilities, ensuring the protection of shareholders' legitimate interests in accordance with the Company Charter and relevant laws.

The Board of Directors and the Executive Board facilitated the Supervisory Board's work by providing full access to documents and information regarding the Company's operations. The Supervisory Board was invited to participate in all Board of Directors' meetings. In 2024, the Supervisory Board attended 25 company briefings, 26 Executive Board discussions, and 92 other thematic meetings.

The Supervisory Board conducted inspections and supervision of management and operational activities, capital usage and repayment ability, internal controls, accounting records, and preparation of quarterly financial statements. All Supervisory Board reports were consulted with the Board of Directors prior to submission to the General Meeting of Shareholders.

Throughout 2024, the Supervisory Board maintained close coordination with the Board of Directors and the Executive Board in supervising the Company and its

subsidiaries' operations. It also reviewed and provided opinions on the preparation and presentation of financial statements, ensuring full compliance with State regulations and internal policies.

In 2024, the Supervisory Board did not receive any complaints or proposals from shareholders or groups of shareholders holding the legally required ownership ratio.

VI. REVIEW OF RELATED PARTY TRANSACTIONS

In 2024, the Board of Directors issued two resolutions related to transactions between the Company and related parties. These transactions were fully disclosed and complied with all relevant legal regulations.

All transactions were conducted transparently and in accordance with current laws, ensuring the interests of shareholders.

VII. EVALUATION OF THE INTERNAL CONTROL SYSTEM AND RISK MANAGEMENT

The Company has established a relatively complete and strict set of internal regulations and policies, forming a legal framework to facilitate internal control activities. These efforts have strengthened corporate governance and helped to prevent, detect, and handle risks effectively.

The Board of Directors and the Executive Board have paid close attention to continuously reviewing, amending, and supplementing internal regulations and policies. This ensures the effectiveness and efficiency of business management and aligns with applicable legal requirements.

PART II – SUMMARY REPORT FOR THE 2020–2024 TERM AND OPERATIONAL PLAN FOR THE 2025–2029 TERM

I. ACTIVITIES OF THE SUPERVISORY BOARD

1. Personnel:

At the General Meeting of Shareholders held on June 18, 2020, the Supervisory Board for the 2020—2024 term was elected with three members

+ Mr. Trương Việt Tiến – Head of the Supervisory Board

+ Mr. Tô Quốc Thái – Member

+ Ms. Phạm Thị Thanh Tâm – Member

On March 22, 2022, Ms. Phạm Thị Thanh Tâm submitted her resignation from the Supervisory Board. Subsequently, on March 25, 2022, Mr. Tô Quốc Thái also submitted his resignation from the Supervisory Board for the 2020—2024 term.

On April 21, 2022, Ms. Đỗ Thị Thu Nga and Ms. Trịnh Thị Vĩn Anh were elected as additional members of the Supervisory Board for the remainder of the 2020—2024 term.

2. Activities of the Supervisory Board during the term

Each year, the Supervisory Board developed a detailed work plan and assigned responsibilities to each member to inspect and supervise the Company's operations in accordance with the Company Charter and the Supervisory Board's regulations.

The Board supervised the implementation of annual business plans by the Board of Directors and Executive Board, monitored production, investment activities, and other Company functions.

It also ensured compliance with laws, resolutions of the General Meeting of Shareholders, and internal regulations by the Board of Directors and the Executive Board.

The Board reviewed the legality, accuracy, and prudence in the organization of accounting and the preparation of annual financial statements. It also reviewed quarterly, semi-annual, and annual reports audited by PwC Vietnam Co., Ltd.

Members actively participated in meetings of the Board of Directors and internal briefings to stay informed and make timely recommendations as necessary.

In 2021, the Supervisory Board amended its operating regulations, which were approved by the General Meeting of Shareholders on April 28, 2021.

Overall, during the 2020–2024 term, the Supervisory Board received strong support from the Board of Directors, Executive Board, and departments across the Company, enabling it to effectively fulfill its responsibilities.

II. BUSINESS PERFORMANCE RESULTS FOR THE 2020–2024 TERM

Key performance indicators during the 2020–2024 term based on audited financial statements are as follows:

Indicator	2020	2021	2022	2023	2024
Total Revenue (mil. VND)	5.168.538	4.327.424	3.876.132	3.384.695	3.181.558
Profit Before Tax (mil. VND)	204.926	187.206	173.525	139.580	141.539
Profit After Tax (mil. VND)	165.150	149.011	137.452	107.601	111.055
Total Assets (mil. VND)	2.142.958	2.288.520	2.081.675	2.178.182	2.106.005
Owner's Equity (mil. VND)	1.125.646	1.216.009	1.286.832	1.289.392	1.294.950
Dividend (% face value)	0	0	5,5%	6%	5% (*)
Avg. Monthly Income (mil. VND)	9,8	10,1	9,6	7,2	7,3

(*) The 2024 dividend distribution plan was approved at the 2024 Annual General Meeting of Shareholders.

Based on the 2020—2024 implementation results, the Company strived to fulfill its duties despite economic challenges. The average plan completion rate for revenue was 89.81%, while average plan completion for pre-tax profit was 104.48%. Notably, pre-tax profit consistently met or exceeded 100% of the annual plan, reflecting effective cost control and operational efficiency. However, the downward trend in revenue highlights the difficulties in business operations. To ensure sustainable development, the Company needs strategies to boost revenue growth in the coming years.

Regarding the selection of independent auditors: In accordance with annual shareholder resolutions, the Supervisory Board selected PwC Vietnam Co., Ltd. as the independent auditor for the 2020—2024 period, ensuring transparency and professionalism.

During the term, all Company activities complied with the Law on Enterprises, the Company Charter, and resolutions of the General Meeting of Shareholders.

III. OPERATIONAL PLAN FOR THE 2025–2029 TERM

During the 2025–2029 term, the Supervisory Board will continue to carry out its duties in accordance with its legally mandated powers and responsibilities. The Board will focus on the inspection and supervision of the following key areas:

- Supervising the Company’s management, production, and business operations in accordance with the functions and responsibilities stipulated in the Company’s Charter and the Supervisory Board’s Rules of Operation.
- Monitoring compliance with laws, the Company’s Charter, and the implementation of internal regulations, resolutions, and decisions of the General Meeting of Shareholders and the Board of Directors.
- Inspecting and supervising the implementation of production and business activities, investment operations, and the progress of the project “Relocation and Technological Modernization of Vissan’s Livestock Slaughtering and Food Processing Plant.”
- Monitoring the implementation of the land lease agreement with ITACO at Tan Tao Industrial Park.
- Inspecting and supervising the development of technical and economic norms and cost-saving measures in management and product pricing.
- Appraising financial statements and evaluating the business performance on a quarterly, semi-annual, and annual basis.
- Monitoring capital allocation and cash flow management.
- Reviewing contracts and transactions with related parties that fall under the approval authority of the Board of Directors or the General Meeting of Shareholders, and making recommendations on contracts or transactions requiring such approval.
- Overseeing the Company’s annual cash and asset inventory activities.

- Maintaining close coordination with the Board of Directors and the Executive Board in all activities

PART III – CONCLUSION AND RECOMMENDATIONS

The Supervisory Board agrees with the Report of the Board of Directors and the Report of the General Director regarding the assessment of business performance for the 2020–2024 term and the strategic directions for the 2025–2029 term, as presented at the 2025 Annual General Meeting of Shareholders.

To successfully accomplish the business objectives for 2025, the Supervisory Board respectfully recommends that the Board of Directors and the Executive Board consider and implement the following:

- Actively implement measures to recover outstanding debts and minimize overdue accounts in order to improve liquidity and cash flow management. At the same time, finalize documentation for the settlement of unrecoverable debts in accordance with applicable regulations.

- Strengthen investment activities based on feasibility and investment efficiency to enhance the Company's competitiveness and operational performance.

- Accelerate the process of revising the scale and total investment of the “Relocation and Technological Modernization of Vissan's Livestock Slaughtering and Food Processing Plant” project and promptly submit it for approval by the General Meeting of Shareholders, ensuring full compliance with State and Company procedures.

- Continue to resolve outstanding issues related to the “Relocation and Technological Modernization” project, such as updating the land use right certificate for the plot located in Luong Binh Commune, Ben Luc District, Long An Province, and completing procedures to convert to land lease status as required following Vissan's equitization.

- Urgently engage with Tan Tao Investment & Industry Corporation regarding the land transfer under the signed agreement and develop an effective utilization plan for the land in Tan Tao Industrial Park, ensuring optimal value for shareholders.

- Further restructure and streamline human resource allocation, and review and develop a suitable compensation and reward mechanism, with a focus on employee retention and improvement of sales channels to better meet future market demand.

- Continuously improve corporate governance and management practices, enabling and empowering the executive team to ensure the stable development of the Company, the achievement of business targets set by the General Meeting of Shareholders, and the maximization of legitimate shareholder interests.

The above is the 2024 Supervisory Board Report and the Summary Report for the 2020–2024 term. On behalf of the Supervisory Board, we would like to sincerely thank our valued shareholders for entrusting us with the responsibility of overseeing the Company's operations throughout the past term. We also extend our sincere appreciation to the Board

of Directors and the Executive Board for their ongoing support and cooperation, which enabled the Supervisory Board to fulfill its assigned duties effectively

Respectfully submitted to the General Meeting of Shareholders for consideration and approval.

Sincerely yours

ON BEHALF OF THE BOARD OF SUPERVISORY
Head of Supervisory

Ho Chi Minh city, day 23 month 04 year 2025

PROPOSAL

Regarding the selection of an auditor for financial statements in 2025

To: The General Meeting of Shareholders

Pursuant to the Law on Enterprises 2020;

Pursuant to the Charter of Vissan Joint Stock Company (Vissan);

The Supervisory Board respectfully submits to the General Meeting of Shareholders for consideration and approval the selection of an independent auditing firm to provide audit and review services for the 2025 financial statements of Vissan Joint Stock Company (Vissan) as follows:

I. Selection Criteria:

- Must be a legally operating company in Vietnam and approved by the Ministry of Finance and the State Securities Commission to conduct audits for public interest entities.
- Must have experience in auditing public interest entities in Vietnam.
- Must have a reputable standing in the field of auditing.
- Must have a team of auditors with strong professional qualifications and extensive experience in auditing companies operating in fields similar to that of the Company.
- Must be able to meet the Company's audit schedule requirements.
- Must not have any conflict of interest when auditing the Company's financial statements.
- Must offer an audit fee that is appropriate to the scope of the Company's audit.

II. Selection Method:

The selection of the auditing firm shall be carried out through a national online bidding process in accordance with the provisions of the Law on Bidding. The Company has signed a contract with Thao Nghi Construction and Trading Consulting Co., Ltd. to act as the consulting unit responsible for conducting the bidding process and preparing the bidding documents in compliance with regulations.

III. List of Proposed Independent Auditing Firms:

Based on the evaluation and ranking results presented in Report No. 0502/2025/BCĐG-TN dated March 28, 2025, by Thao Nghi Construction and Trading Consulting Co., Ltd., the Supervisory Board respectfully submits the list of proposed independent auditing firms, ranked in the following order:

1. UHY Auditing and Consulting Co., Ltd.
2. International Auditing Co., Ltd.
3. ECOVIS AFA Vietnam Auditing – Valuation – Consulting Co., Ltd.

The above firms are reputable independent auditing companies that fully meet the established selection criteria.

IV. Supervisory Board's Recommendation:

The Supervisory Board respectfully proposes that the General Meeting of Shareholders approve the selection of UHY Auditing and Consulting Co., Ltd. to conduct the audit and review of the 2025 financial statements of Vietnam Meat Industries Joint Stock Company (VISSAN).

In the event that an agreement cannot be reached to sign a contract with UHY Auditing and Consulting Co., Ltd., the Supervisory Board will proceed with negotiations with the next-ranked auditing firm on the list, ensuring compliance with regulations and maintaining efficiency.

Respectfully submit to the General Meeting of Shareholders for consideration and approval./.

ON BEHALF OF THE BOARD OF SUPERVISORY
Head of Supervisory

- As stated above;
- To be filed: Office of the Board of Directors, Board Secretary

Ho Chi Minh city, day 23 month 04 year 2025

PROPOSAL

Re: Approval of the Adjustment to the Project “Relocation and Technological Renovation of the Vissan Livestock Slaughtering and Food Processing Plant” for the Preparation of the Investment Proposal Dossier to be Submitted to the Long An Department of Finance for Appraisal

To: The General Meeting of Shareholders

The Board of Directors respectfully submits to the General Meeting of Shareholders for consideration and approval the adjustment to the project “Relocation and Technological Renovation of the Vissan Livestock Slaughtering and Food Processing Plant” for the preparation of the investment proposal dossier to be submitted to the Long An Department of Finance for appraisal, as follows:

After obtaining approval from the 2022 Annual General Meeting of Shareholders, Vietnam Meat Industries Joint Stock Company (VISSAN) sent Official Letter No. 1487/VISSAN-BDA-BPC dated April 22, 2022 to the Long An Department of Industry and Trade to express agreement with the policy of the Long An Provincial People's Committee regarding the removal of the “Vissan Food Processing Industrial Cluster” under the Project for Relocation and Technological Renovation of the Livestock Slaughtering and Food Processing Plant (hereinafter referred to as “Vissan Industrial Cluster” or “Vissan IC”) from the industrial cluster planning, converting it into a direct investment project.

On July 5, 2022, the People's Committee of Long An Province issued Decision No. 6025/QĐ-UBND on the annulment of the decision to establish the Vissan Food Processing Industrial Cluster. At the same time, the Committee assigned the Long An Department of Planning and Investment and the People's Committee of Ben Luc District to review and guide VISSAN in preparing the application for approval of the investment policy, concurrently with the investor approval for implementing the project (according to the new investment objectives), in compliance with the procedures and regulations prescribed by current laws

In February, June, October, and November of 2023, the Company successively prepared and submitted the investment proposal dossier to the Long An Department of Planning and Investment for appraisal. Relevant departments and agencies, including the Department of Construction, the Department of Agriculture and Rural Development, the Department of Industry and Trade, the Department of Science and Technology, and the People's Committee of Ben Luc District, have all agreed with the investment proposal for the Project. However, the Department of Natural Resources and Environment has, to date, only approved the environmental aspects of the Project and has not yet agreed on the land use content.

Therefore, on January 11, 2024, the Long An Department of Planning and Investment issued Official Letter No. 161/SKHĐT-KTĐN in response, stating that it is not yet able to submit the proposal to the Long An Provincial People's Committee for approval of the investment policy and investor selection for the Project.

On April 1, 2024, Vissan issued Official Letter No. 1622/VISSAN-BDA to the Department of Natural Resources and Environment (with copies sent to the Office of the People's Committee of Long An Province and the Department of Planning and Investment) to present the difficulties and obstacles encountered in preparing the investment proposal dossier.

By April 8, 2024, the Department of Natural Resources and Environment issued Official Letter No. 2332/STMNT-QLDD stating that it was still awaiting guidance from the Ministry of Natural Resources and Environment (this letter was not in response to Vissan's case but related to another project), which must be received before the Department can provide instructions for Vissan to proceed with the subsequent procedures.

To promptly resolve issues related to the extension of the land use commencement deadline, the Company issued Official Letter No. 2601/VISSAN-BDA dated May 25, 2024, to the Ministry of Natural Resources and Environment, reporting the matter and requesting the Ministry's guidance on the extension of the land use commencement for Vissan's project located in Luong Binh Commune, Ben Luc District, Long An Province. On July 29, 2024, the Ministry of Natural Resources and Environment issued Official Letter No. 1584/QHPTTND-PPTTND, requesting the Department of Natural Resources and Environment of Long An Province to review the conclusions related to Vissan's project dossier.

On September 16, 2024, the Department of Natural Resources and Environment of Long An Province issued Document No. 6838/STNMT-QLDD dated September 16, 2024 reporting to the People's Committee of Long An Province on the problem of extending the land use schedule for Vietnam Livestock Industry Joint Stock Company, recommending that the Provincial People's Committee assign the Department of Planning and Investment to advise on the procedures for approving the investment policy for the Project of Vissan Company; After the Provincial People's Committee approves the investment policy, the Department of Natural Resources and Environment will advise the Provincial People's Committee to allow Vissan Company to extend the land transfer and use schedule.

Throughout this period, the Company has continuously followed up with relevant authorities in Long An Province regarding the extension of the land use timeline and the approval of the investment policy as well as the investor for project implementation. On March 25, 2025, the Party Standing Committee of the Long An Provincial People's Committee issued Minutes No. 04-BB/ĐU, documenting the conclusions of the meeting held on March 17, 2025. The Committee agreed to assign the Department of Finance to take the lead, in coordination with the Department of Agriculture and Environment, the People's Committee of Ben Luc District, and other relevant units, to study and guide VISSAN in carrying out the procedures for adjusting the project's investment policy first, followed by land-related procedures. This serves as an important legal basis for continuing with the subsequent steps of the Project.

In parallel with closely coordinating with the relevant authorities of Long An Province, the Company has recently re-evaluated the market situation and current business volume, while also forecasting future demand. Based on this, the Company has reviewed the project's scale and total investment to submit to the General Meeting of Shareholders for consideration and approval of project adjustments. The investment proposal dossier will then be submitted to the Long An Department of Finance for appraisal. The specific contents proposed for project adjustment are as follows:

**** Investment phase: project phase into 02 phases:***

- Phase 1: from 2025 to the end of 2029, specifically:

+ Phase 2025 - 2026:

- Request approval of investment policy and approval of investors; Carry out procedures for land use extension, land change registration, land lease contract signing...
- Prepare, appraise, approve detailed planning project 1/500; Prepare, examine, appraise and approve adjusted project documents.

+ Phase 2026 - 2027:

- Design, review, appraise, approve design documents, construction drawings and total project estimate; Apply for construction permit.
- Start construction of main project items (Technical infrastructure, factory).

+ Phase 2027 - 2028:

- Complete construction of works under the Project;
- Complete the supply and installation of central refrigeration system equipment and other equipment; Pig slaughter line;
- Organize the relocation and installation of equipment from the old factory to the new factory; Organize acceptance, trial operation and put the project into operation.

+ 2029: Hand over and return the factory premises, Vissan office at 420 No Trang Long, Binh Thanh District, Ho Chi Minh City.

- Phase 2: after 2029 - Invest in building slaughterhouses, processing plants and other production facilities on the remaining reserved land of the project, depending on the future development needs of the market. The company will expand existing plants or invest in new construction to suit increased output or new products in the future.

* **Output scale:** The output scale is expected based on the forecast of the Company's current business situation, specifically as follows:

+ Phase 1:

1. Pig slaughter line: capacity of 240 heads/hour
2. Relocation of 01 buffalo and cow slaughter line: capacity of 30 heads/hour
3. Sausage production workshop: capacity of 900 tons/year
4. Canned food production workshop: capacity of 2,650 tons/year
5. Sterilized sausage production workshop: capacity of 20,800 tons/year
6. Cold meat production workshop: capacity of 3,400 tons/year
7. All kinds of ham production workshop: capacity of 1,500 tons/year
8. Other food production workshop: capacity of 5,600 tons/year
9. Auxiliary systems: frozen storage, freezing, cool storage, wastewater treatment, waste, etc.

+ Phase 2: Depends on future market development needs

* **Area scale:** The expected area scale is synthesized from the requirements of the Production Workshops according to the forecast until 2035, specifically as follows:

+ Construction land area of phase 1: 14ha (Total project area: 22.4ha).

+ Maximum height: 3 floors.

+ Construction floor area: 78,778m².

- **Total investment:** The expected total investment for phase 1 is 1.558.444.936.417 VND.

- Investment capital and capital mobilization plan:

Total expected investment capital: VND 1.558.444.936.417 (one thousand five hundred fifty-eight billion, four hundred forty-four million, nine hundred thirty-six thousand, four hundred seventeen dong) and equivalent to USD 61.501.379 (sixty-one million five hundred and one thousand three hundred and seventy-nine US dollars) (exchange rate 1 USD = VND 25,340 according to Foreign Exchange Rate - ViettinBank on March 18, 2025), of which:

+ Expected investor's contributed capital accounts for 40%: VND 623.377.974.566 (Six hundred twenty-three billion, three hundred seventy-seven million, nine hundred seventy-four thousand, five hundred sixty-six dong) and equivalent to USD 24.600.551 (Twenty-four million six hundred thousand five hundred and fifty-one US dollars) US) – method of raising capital in cash

+ Estimated mobilized loan capital accounts for 60%: VND 935.066.962 (nine hundred sixty-five billion, sixty-six thousand, nine hundred sixty-two dong) and equivalent to USD 36.900.827 (thirty-six million nine hundred thousand eight hundred twenty-seven US dollars)

(Note: The investment scale and total investment amount mentioned above are provisional estimates used as data in the investment proposal dossier submitted to the Long An Provincial Department of Finance for review and appraisal. The detailed investment scale and total investment amount will be implemented by the consulting unit at the stage of preparing the Project Feasibility Study Report and will be submitted to the General Meeting of Shareholders for review and approval)

Respectfully submitted to the General Meeting of Shareholders for review and approval./.
