DISCUSSION CONTENTS AT THE GENERAL ASSEMBLY

- 1. Shareholder's Question: The 2024 revenue results were low, yet the 2025 target is set higher. Is this feasible? On what basis does the Company expect to achieve this target?**

Chairman's Response::

As reported by the Executive Board, in 2024 VC9 focused on two main tasks: finalizing settlements and recovering debts from old projects, and developing business operations to achieve a revenue of VND 500.071 billion. However, the company did not meet the debt recovery target, and business development was unsuccessful due to several reasons: some bidding packages and projects pursued by VC9 were lost because of underestimating competitors and submitting low-quality bid documents.

Based on an overall market assessment and the evaluation of ongoing projects, including signed contracts carried over from 2024 and careful review of pursued bids, the Board of Directors and the Executive Board agreed to set the 2025 revenue target at VND 373.526 billion, broken down as follows:

- Construction: VND 296.236 billion (including VND 89.755 billion carried over from 2024 and VND 206.481 billion in new contracts in 2025)
- Other: VND 77.3 billion (including VND 40.61 billion from building management and VND 36.68 billion from investments)

This is a challenging plan compared to actual revenue performance in 2024 as well as the general situation of the industry. It requires the Board of Directors and the Executive Board to unite, be proactive, flexible, responsible, and closely follow their tasks while implementing specific action plans to successfully meet the targets.

- 2. Shareholder's Question: What are the Company's business operations and vision for the next three years?**

Chairman's Response:

Like other domestic enterprises, businesses in recent years have faced many difficulties, especially those in the construction industry. VC9 is no exception to this trend. Remaining committed to the company's development direction and vision for the coming years, VC9 will continue to maintain its core business in slipform concrete. Secondly, it will focus on leveraging work opportunities from long-standing partners with strong relationships, particularly in water infrastructure and transportation infrastructure.

Accordingly, the company targets revenue of VND 373 billion in 2025. Annual revenue is expected to grow by 15-20%, reaching an estimated VND 430 billion in 2026 and VND 500 billion in 2027.

3. Shareholder's Question: Please provide an update on the progress of the planning adjustment for Phase 2 of the Chi Dong Project?

Chairman's Response:

After Me Linh District, formerly part of Vinh Phuc Province, was merged into Hanoi, the project required a planning adjustment to align the technical infrastructure with the surrounding areas, incorporate additional social infrastructure criteria, comply with current regulations and standards, and fit the overall urban planning orientation.

In Q3/2023, the Hanoi People's Committee issued a notice assigning the Hanoi Department of Planning and Architecture to guide the investor in preparing a dossier for partial adjustment of the 1/500 detailed planning.

The investor has selected a consulting contractor and organized the preparation of the planning adjustment dossier, which has been submitted to the Department of Planning and Architecture for appraisal. The department has provided appraisal feedback and suggestions for improvement.

Based on this feedback, the investor instructed the consulting unit to revise the dossier and resubmitted it to the Department in April 2025.

The investor and the consulting unit will continue to coordinate, provide further explanations, and work towards having the Department submit the dossier to the Hanoi People's Committee for early approval.

4. Shareholder's Question: What is the remaining commercial land available for sale at the Nghi Phu Project? What is the remaining land clearance cost for Phase 2 of the Chi Dong Project? When is the expected time to open sales for Phase 2 of the Chi Dong Project?

Chairman's Response:

- Regarding the Nghi Phu Project: Currently, all commercial land of the project has been sold to customers; there is no remaining commercial land available for sale.
- Remaining land clearance cost for Phase 2 of the Chi Dong Project: At present, Phase 2 is undergoing adjustments to the 1/500 detailed planning. When it reaches the land clearance stage, investigation, inventory, and approval of compensation plans will be required. Therefore, it is not yet possible to estimate the remaining land clearance cost at this time.
- Expected time to open sales for Phase 2 of the Chi Dong Project: As the project is still in the stage of adjusting the 1/500 detailed planning, many further steps must be completed to meet the conditions for sales, including adjusting the investment project, land clearance, land allocation, determining financial obligations related to the land, and infrastructure construction. As such, the exact time for opening sales cannot yet be determined.

2. 2024 Performance Results

Comparison of 2024 results with 2023:

No.	Target	2023	2024	% Change
1	Total assets	996,283	834,126	-16,28%
2	Owner's equity	62,640	63,430	1,26%
3	Net revenue	268,465	233,707	-12,95%
4	Profit before tax	1,396	0,789	-43,48%
5	Profit after tax	1,396	0,789	-43,48%

Revenue Situation by Business Segment in 2024:

2.1 Construction Sector:

- The key production and revenue indicators for 2024 are as follows:
 - o **Revenue value:** VND 174.61 billion (41% of the plan)
 - o **New construction contracts signed in 2024:** VND 227.631 billion
- The construction projects have largely met their schedule. Quality inspection and supervision were prioritized, ensuring technical and aesthetic standards. Workplace safety was well maintained, with no severe labor accidents recorded throughout the year. However, although technical solutions and directions were established from the outset, the quality of finishing work remained suboptimal due to insufficient inspection during execution.
- In 2024, the company actively participated in bidding for projects. However, due to the government's tightened credit policies, real estate developers faced financial difficulties. To ensure stability, the company focused on selecting projects and investors with secure cash flow. As a result, the total value of new contracts signed was not high, and most of the work involved continuing previously signed contracts from the previous year.

2.2 Investment Sector:

- Investment value realized: VND 11.36 billion (32% of the plan)

The investment business sector underperformed due to several reasons:

- Chi Đông Urban Area Project: Phase II could not be implemented due to ongoing adjustments to the 1/500-scale detailed zoning plan. Delays occurred because, after the merger of Mê Linh District (formerly in Vĩnh Phúc Province) into Hanoi City, the project required a comprehensive review. It had to align its technical infrastructure with

neighboring projects and meet social infrastructure standards as per current design standards and construction regulations.

- Nghi Phú Project – Vinh City, Nghệ An Province: The construction of the remaining rough-built houses fell behind schedule. This was due to two adjacent roads that had yet to be completed by Nghệ An Province, leaving some units without road access. Additionally, many customers requested adjustments in design, plot mergers, and other modifications, causing delays in on-site construction progress.

2.3 Tasco Building Management and Services:

- Revenue value : VND 42.7 billion (101% of the plan)
- The company effectively managed and provided high-quality services for Tasco buildings, ensuring tenant satisfaction. The occupancy rate reached 100% of the available leasing space.

2.4 Other Business Areas:

- Revenue : VND 5.03 billion

III. BOARD OF DIRECTORS' ORIENTATION FOR 2025

1. Strategic Orientation for 2025

Based on an analysis of market challenges, opportunities, and the company's competitive advantages, the Board of Directors (BOD) has set the following strategic direction and operational guidelines for 2025:

2	Net Profit After Tax	4.925

The above is the full report from the Board of Directors (BOD) and the Executive Board, respectfully submitted to the General Meeting of Shareholders for review and approval.

We sincerely hope that our esteemed shareholders will continue to place their trust in and support the company in the coming period.
