PROPOSAL

(Regarding: Capital Raising Plan for 2025 and Asset Borrowing Plan to Secure Bank Loan Collateral for 2025)

To: The Annual General Meeting of Shareholders 2025
Development Investment Construction Number 2 JSC

- Pursuant to the Charter on the Organization and Operations of Development Investment Construction Number 2 Joint Stock Company
- Pursuant to The audited financial statements for 2024 and the business plan for 2025 of Development Investment Construction Number 2 Joint Stock Company.

The Board of Directors respectfully submits the following items for consideration by the General Meeting of Shareholders:

1. The capital raising plan to support the production and business activities for 2025 is as follows:

Form of Capital Raising	Purpose of Loan	Loan Limit for 2025 (VND billion)	Outstanding Loan as of December 31, 2024 (VND billion)
1. Short-term bank loans	Purchases of materials, tools and instruments, and salary payments	268	130,4
Bank for Investment and Development of Vietnam – Ba Ria – Vung Tau Branch		210	92,9
Vietnam Joint Stock Commercial Bank for Industry and Trade – Ba Ria – Vung Tau Branch		40	37,5
Vietnam Prosperity Joint Stock Commercial Bank – Vung Tau Branch		18	0
2. Other short-term borrowings (Funds mobilized from employees, finance companies, and other individuals)	Purchases of materials, tools and equipment, and salary payments	10	0
Total		278	130,4

- For the **“Other short-term borrowings”** limit (mobilizing capital from employees, finance companies, and other individuals): The legal representative – Chairman of the Board of Directors of DIC No. 2 is authorized to proactively organize the capital mobilization with a maximum interest rate not exceeding the lending interest rate for the same term of the commercial bank currently providing funding to DIC No. 2 and not exceeding 150% of the base interest rate prescribed by the State Bank of Vietnam at the time of borrowing. The Company’s assets must not be used as collateral for these borrowings. The total mobilized amount from such borrowings must not exceed VND 10 billion, in accordance with the borrowing limit plan approved by the General Meeting of Shareholders. The legal representative – Chairman of the Board of Directors of DIC No. 2 shall be responsible for directing the development of a feasible borrowing/repayment plan, ensuring that borrowed capital is used for the right purposes and efficiently, and ensuring the ability to repay debts to credit institutions and other lenders.

2. Plan to borrow assets for collateralizing bank loans and mobilizing capital from employees and other individuals in 2025:

Pursuant to the 2025 business and production plan and based on the assessment of the economic and credit situation in the real estate and construction sectors, as well as the financial condition of project developers, it is expected that significant difficulties will persist in 2025. Meanwhile, overdue receivables remain high, and the Company’s assets are limited. Therefore, in addition to the credit lines granted by banks and other borrowings, the Company will need to borrow additional assets to serve as collateral for loans from credit institutions.

To maintain and increase credit limits from banks and to mobilize capital from employees, the Board of Directors submits the following proposal for the General Meeting of Shareholders’ consideration and approval:

- To enter into asset lease agreements with employees for collateral purposes, with the total appraised value of the leased assets not exceeding VND 15 billion, to secure the Company’s working capital loans from commercial banks when an increase in the credit limit is needed and the Company’s own assets are insufficient as collateral. The annual payment to employees who lease their assets to the Company shall be based on the value of the collateral accepted by the bank for the Company’s loans and will be recorded as financial expenses, with a maximum cost rate of $1.5\%/year \times \text{the actual borrowed amount}$, but not exceeding the appraised value of the collateral assets.
- The General Meeting of Shareholders authorizes the Chairman of the Board of Directors – the legal representative of the Company – to:
- + Sign asset lease agreements and related documents in connection with the procedures for leasing employees’ assets to serve the purpose of maintaining and increasing credit limits for the Company’s working capital loans at banks, in accordance with legal regulations and the Company’s internal policies; to be responsible for managing the use of employees’ assets as collateral in a reasonable and effective manner, ensuring the borrowed capital is used for the right purposes and that the Company is capable of repaying debts secured by employees’ collateral assets.
- + Carry out the procedures for pledging and guaranteeing loans with credit institutions.

Respectfully submitted to the General Meeting of Shareholders for consideration and approval./.

REPORT OF THE BOARD OF DIRECTORS ON THE COMPANY'S OPERATIONS

To: Esteemed delegates and valued shareholders

The 2025 Annual General Meeting of Shareholders of Development Investment Construction Number 2 Joint Stock Company is convened in the context of continued global economic challenges throughout 2024 and into 2025. The risk of economic conflicts among major nations, the ongoing wars in Ukraine and Gaza, and geopolitical tensions have disrupted the fragile post-pandemic recovery and increased the risk of economic slowdown, inflation control efforts by governments, and rising armed conflicts. The domestic economy is not immune to these conditions, particularly our real estate and construction sectors. To review and assess the results achieved in 2024 and set out directions for 2025 and the following years, the Board of Directors (BOD) respectfully reports to the General Meeting the key contents as follows:

PART I REPORT ON THE ACTIVITIES OF THE BOARD OF DIRECTORS IN 2024

1. Organizational Structure and Personnels:

As of December 31, 2024, the Board of Directors of Development Investment Construction Number 2 Joint Stock Company consists of 3 members:

1	Mr. Pham Duc Dung	Chairman of the BOD	Full-time
2	Ms. Tran Thi Thu	Member of the BOD	Part-time Member
3	Mr. Le Hai Chau	Member of the BOD	Independent Member

All BOD members possess the qualifications and experience in enterprise management and construction operations, thereby meeting the requirements for effective corporate governance and leadership.

2. Main Activities of the BOD in 2024:

- In 2024, the BOD held 16 meetings, both regular and extraordinary, and issued 10 Resolutions and 2 Decisions to promptly direct and approve business plans, investment strategies, organizational restructuring, and procedures related to the private placement of shares in accordance with the authorization of the General Meeting of Shareholders. All Resolutions and Decisions of the BOD complied with the Company's Charter and relevant legal regulations.
- The BOD provided strategic guidance while allowing the Executive Board to exercise

autonomy in performing their tasks, thus ensuring coherent operational management throughout the Company.

- Directed the enhancement of supervision and organizational efficiency across departments and project sites.
- Led the development of the Company's business strategy in parallel with the strategy for human resource training and development to meet long-term growth objectives.
- Reported to the General Meeting that the BOD successfully directed the private placement of 68.39% of the proposed share volume, specifically: 3,419,309 out of 5,000,000 shares, raising the total outstanding shares to 10,975,650, which were additionally listed on the HNX in accordance with the 2024 AGM resolution. The total proceeds from the issuance amounted to VND 34,193,090,000, with the offering completed on November 21, 2024. However, due to timing delays, part of the proceeds could not be used to settle certain due debts as initially planned. Therefore, the BOD and the Extraordinary General Meeting (via written consultation) agreed to adjust the capital use plan. To date, VND 25,193,090,000 has been disbursed to repay bank loans. The remaining VND 9 billion was planned for the purchase of tower cranes, hoists, and aluminum formwork. As the construction demand has not yet reached the stage requiring these assets, the Company has deferred the investment and will proceed at a time that ensures optimal efficiency.
- Directed the information disclosure department to prepare and submit reports to securities regulatory authorities and to ensure timely and complete public disclosure in accordance with applicable regulations.
- Directed the Executive Board to implement projects and construction works in accordance with approved plans.

4. Assessment of the Performance of the Board of Directors:

The year 2024 continued to be a year of significant challenges due to a slowdown in economic growth and increased risk of short-term recession. Credit tightening in the real estate sector by banks aimed at curbing inflation, intensified inspections and oversight of corporate bonds—especially those related to real estate—by the Government, and strict supervision by the State Securities Commission of Vietnam (SSC) further compounded difficulties. Global geopolitical tensions, armed conflicts, natural disasters, and pandemics also placed heavy pressure on both the domestic and global economies. Nevertheless, the Board of Directors of DIC No. 2 proactively anticipated these challenges and took firm and decisive action in directing operations in accordance with the spirit and directives set forth by the General Meeting of Shareholders. As a result, key targets—such as the successful increase in charter capital through private placement of shares to professional securities

investors—were fundamentally achieved. Despite the difficulties in 2024, the Board of Directors and Company leadership placed strong emphasis on employee welfare, successfully promoted internal unity, and ensured the rights and interests of shareholders. The BOD operated in full compliance with legal regulations, and all Resolutions and Decisions were made with high consensus among its members. Each member actively contributed to corporate governance and fulfilled their responsibilities with diligence, thereby minimizing risks to the Company

The Board of Directors directed the Executive Board to develop a clear roadmap and assign specific tasks to fulfill the business plan entrusted by shareholders. Step by step, these efforts have helped the Company overcome difficulties, stabilize operations, and achieve the following planned targets:

II. General Assessment of the Activities of the Board of Directors

In 2024, the Board of Directors of DC2 demonstrated effective leadership amidst a challenging landscape in the construction and real estate markets, which faced fluctuations in raw material prices and tightened credit policies. The Board of Directors made several key strategic decisions, including:

- **Investment in New Projects:** The Board of Directors approved a plan to expand the investment portfolio with infrastructure and real estate development projects, capitalizing on the post-pandemic recovery in demand.
- **Cost Optimization:** The Board implemented operational cost-cutting measures to improve profit margins amid intense market competition.

The financial results of DC2 in 2024 reflect the effectiveness of these decisions. Several key activities in 2024 exemplified the independence of my role. During Board meetings, I consistently provided independent opinions, especially on matters involving potential conflicts of interest or the allocation of resources, with the aim of safeguarding shareholders' interests.

The Board of Management of DIC2 recognizes that although the economy has shown signs of recovery, the legal issues surrounding real estate projects remain unresolved, and the capital situation for many investors is still challenging. Therefore, the business direction for 2025 has been set with great caution.

To successfully implement and complete the tasks outlined in the 2025 business plan, the following actions must be carried out effectively:

- ✓ Continue to restructure the organizational structure in line with job demands, management requirements, and the actual work situation at construction sites.
- ✓ Develop detailed plans for revenue, expenses, and order placement for each contract and month to maximize business efficiency.
- ✓ Strengthen and focus on developing the business development department to approach investors in the industrial construction sector and continue to invest deeply in the foundation treatment sector.
- ✓ Continue to recover outstanding debts, which is considered a crucial task in 2025, primarily to preserve capital, supplement business capital, reduce financial costs, lower corporate income tax, and enhance the registered business performance.
- ✓ Focus on bidding to seek additional new contracts and projects with secure legal frameworks and bank financing.
- ✓ Seek partners and investors to efficiently exploit real estate investments and fixed assets already acquired.

Throughout the year, the BOD organized and maintained regular meetings to make decisions on matters related to the company's business operations. During the period, the BOD held 10 meetings to approve key issues such as: approving the 2024 Annual General Meeting of Shareholders plan, implementing the plan for private placement of shares in 2024, selecting the auditing firm for 2024, resolving unsold shares from the private share issuance (PHRL), approving the results of the private placement of shares, approving the adjustment of the business registration certificate to increase charter capital, adjusting/changing the capital use plan from the private placement of shares, ...

The Board of Management's implementation in 2024 adhered to the direction of the BOD/Chairman of the Board of Directors. Monthly, the Board of Management organized meetings to implement and propose solutions to address issues related to the company's business operations, with a focus on executing the completion of projects and recovering customer debts.

3. Evaluation of the Coordination Between the Board of Supervisors, the Board of Directors, and the Board of Management:

In 2024, the Board of Directors and the Board of Management always facilitated the Board of Supervisors in carrying out its duties. The Board of Supervisors was provided with necessary documents for supervision and allowed to offer feedback on matters related to the company's operations.

The Board of Supervisors regularly reported its findings to the Board of Directors and the Board of Management regarding the results of inspections and supervision. Additionally, The Board of Supervisors recommended that all management levels fulfill their responsibilities properly, ensuring compliance with legal regulations and the company's charter.

4. Business Performance of the Company:

4.1. Business Results in 2024:

Unit: VND Billion

Indicator	2024 Plan	2024 Actual	2023 Actual	Completion rate in 2024 vs. 2024 plan	Change compared to the previous period
Production Value	250,1	256,3	130,7	102.5%	96.1%
Net Revenue	250,0	250,2	209,9	100.1%	19.2%
Pre-tax Profit	8,0	8,3	4,3	102.7%	93.0%
Post-tax Profit	5,3	5,6	1,0	104.3%	460.0%

In 2024, DIC2 achieved the business results approved by the 2024 Annual General Meeting of Shareholders. Specifically, net revenue reached VND 250.2 billion, achieving 100.1% of the plan, and post-tax profit reached VND 5.56 billion, achieving 104.1% of the plan. Compared to the same period in 2023, net revenue and pre-tax profit increased by 19.2% and 94.4%, respectively. In 2024, the company's revenue focused solely on construction activities, with revenue from projects of the parent company Cai Mep Logistics Joint Stock Company reaching VND 172.2 billion, accounting for 68.8% of net revenue, and revenue from the DIC Group reaching VND 45.7 billion, accounting for 18.3% of net revenue.

Interest expenses incurred in 2024 amounted to VND 11.9 billion, a decrease of 54.8% compared to the same period last year. However, the use of financial leverage remained high, leading to the exclusion of interest expenses exceeding 30% of EBITDA (net profit, interest, and depreciation) from allowable costs, with the excluded interest expense in 2023 being **VND 3.8 billion, accounting for 31.8% of the interest expenses incurred.**

– Asset and Capital:

+ Assets: As of December 31, 2024, the company's total assets amounted to VND 322.4 billion, a decrease of 18.6% compared to the same period last year. This includes current assets of VND 253.3 billion, which account for 78.6% of total assets, and non-current assets of VND 69.0 billion, which account for 21.4% of total assets. Compared to the same period in 2023, current assets decreased by 22.8%, and non-current assets increased by 1.7%.

+ Capital:

▪ **Charter Capital:** As of December 31, 2024, DIC2's charter capital was VND 109.7 billion. The DIC Group holds 50.14% of the charter capital of DIC2. In 2024, DIC2 successfully increased its charter capital from VND 75.6 billion to VND 109.7 billion through a private share issuance.

▪ **Liabilities:** As of December 31, 2024, DIC2's total liabilities were VND 202.7 billion, a decrease of 35.8% compared to the same period last year. Short-term liabilities accounted for 100% of total liabilities.

As of December 31, 2024, the company's Debt-to-Equity Ratio was 1.7 times, which is within the safe threshold according to the company's financial regulations. The company's quick and current liquidity ratios were 1.11 times and 1.25 times, respectively, indicating that the company can still ensure payment of its short-term obligations. However, as of December 31, 2024, the company's short-term receivables from customers amounted to VND 178.5 billion, which accounts for 69.4% of current assets and 54.5% of total assets. This means the company's ability to meet its due liabilities depends partly on its ability to collect debts from customers. If debt collection does not meet the expected progress, the company may face difficulties in paying its suppliers and short-term loan obligations.

4.2. Implementation of the 2024 Shareholders' General Meeting Resolutions:

- *Regarding the establishment of funds:* The company has completed the allocation of funds and successfully increased its charter capital from VND 75.6 billion to VND 109.7 billion through a private share issuance.

- *Regarding the implementation of the business plan:* In 2024, production value reached VND 257.5 billion, completing 103% of the plan; Net revenue reached VND 250.2 billion, completing 100.1% of the plan; Pre-tax profit reached VND 8.3 billion, completing 102.7% of the plan; Post-tax profit reached VND 5.6 billion, completing 104.1% of the plan.

- *Regarding the remuneration for the Board of Directors and the Board of Supervisors:* During the year, the company paid remuneration to the Board of Directors and the Board of Supervisors in accordance with the resolutions approved by the General Meeting of Shareholders. Detailed information about the remuneration of the Board of Supervisors is presented in the proposal No. 10/TTr-DIC No2-HĐQT of DIC2.

5. Report on transactions of Insiders and related parties; between DIC2, subsidiaries, and companies controlled by DIC2 with over 50% of charter capital

In 2024, DIC2 did not exercise control over 50% of the charter capital in any entity. During 2024, there were no cases where fines were imposed for violations of approval authority, reporting requirements, or information disclosure related to transactions of Insiders and related parties.

6. Recommendations to the Board of Directors and the Board of Management:

- *Regarding debt collection:* DIC2's ability to pay its debts is highly dependent on accounts receivable. Therefore, it is recommended that the Chairman of the Board and the Board of Management take decisive actions in debt collection efforts, and select customers with strong financial capabilities to minimize the risk of uncollectible debts. Provisions for doubtful debts should be made in accordance with the regulations in Circular No. 48/2018/TT-BTC dated August 8, 2018.

- The company's capacity to settle its outstanding debts depends largely on the successful collection of accounts receivable. Thus, alongside raising capital from financial institutions to support business operations, it is imperative that the company intensifies efforts in receivables collection to ensure the smooth cash flow necessary for business activities. Furthermore, it is essential to adjust the company's debt-to-equity structure to enhance debt repayment capacity, reduce financial costs, and improve operational efficiency. Any capital raised must be aligned with achieving the company's business objectives.

- To minimize tax-related risks, it is recommended that the company regularly review accounting records, stay updated on tax regulations, and ensure that tax filings and payments are done accurately and in full compliance with the current legal framework.

- The company should strictly adhere to both internal information disclosure policies and legal requirements to ensure transparency and comply with all applicable laws.

7. Operational Plan of the Board of Supervisors for 2025:

- Monitor the implementation of the resolutions of the Annual General Meeting of Shareholders. Supervise the compliance with the laws of the state and the company's Charter. Oversee the implementation of the resolutions, decisions, and directives issued by the Board of Directors.

- Verify the legality and compliance in managing business activities, maintaining accounting records, and preparing financial reports.

- Review and validate the quarterly and annual financial statements of the company.

- Report to the General Meeting of Shareholders on the accuracy, honesty, and legality of the accounting records, document storage, preparation of accounting books, financial statements, and other company reports.

- Supervise the coordination between the Board of Directors, the Board of Management, and the Board of Supervisors.

- Perform other tasks in accordance with the provisions of the Enterprise Law and the company's Charter.

This is the report on the activities of the Board of Supervisors for 2024, submitted for approval by the General Meeting of Shareholders.

Wishing all shareholders good health and success.

Sincerely,

**On behalf of the Board of Supervisors
Head of the Board**
