## REPORT ON STATEMENT OF INCOME OF THE YEAR 2025

Lady and Gentleman,

On behalf of Board of Directors, I would like to report on statement of income of the year 2024 and business plan of the year 2025 as following:

### **Part 1: Overview of the year 2024**

#### **1. Shipping market of the year 2024**

In the first quarter of 2024, the upcoming Lunar New Year holiday caused a sharp drop in cargo output from China, and the slow Asian market affected the demand for small-sized vessels such as supramax and handy size, with the BDI index at 1,397 points. From the middle of the first quarter of 2024, the market became active again thanks to the recovery of the Pacific region after the long Lunar New Year holiday. In addition, Indonesia's thermal coal exports reached a high level in early 2024, up 24% compared to the same two months of 2023. In addition, iron ore prices traded in China continued to increase thanks to the growing demand of the Chinese domestic market. This also positively affected the demand for construction materials transportation in the regional market. However, by the end of the quarter, the BDI index decreased due to the impact of low demand for transportation due to the impact of the Easter holiday, causing a large number of empty vessels, reaching only 1,821 points.

By the second half of 2024, BDI index will reach over 1,600 points, and the market will generally remain at an average level. After the 10-day-Chinese New Year, at the beginning of the third quarter in 2024, freight volumes remain quite low. Freight rates have yet to reach expectations. Freight volumes in these markets will continue to remain low in the final months of 2024.

Regarding to Vietnam's domestic market, the recent interest rate reduction support policies implemented by the State Bank of Vietnam will cause domestic consumption demand to begin to recover, leading to the demand for domestic goods circulation to begin to improve again in the second half of the year. Specifically, it is forecasted that Vietnam's domestic maritime transport turnover in the second half of the year will improve by about 11% compared to the first half of 2024.

In addition, the world situation has many instabilities, difficulties and challenges; especially military conflicts, escalating political instability in the Middle East, fluctuations in USD exchange rates and gold prices in the world have created many difficulties for financial activities in general and transportation activities in particular.

### 3. Other shipping services

+ Transportation service for Formosa: Due to the requirement that the contractor report a profit for the last 2 years and deposit 5 billion VND, we are not eligible to continue participating in the bidding.

+ Transportation service for Hoa Phat, we must have sufficient working capital to pay in advance the ship rental fee to the ship owner (because Hoa Phat often pays 20-30 days late), so with our current resources, it is not enough to continue participating in the bidding.

+ Crew service: In order to create more jobs and income for employees, the Company continues to provide crew rental services for SB ships and this year has brought the total revenue of over 4.6 billion VND.

+ For other services, the Company continues to promote administrative services such as office rental, accommodation, and vehicle storage to create more jobs and revenue to have more sources to pay salaries for employees. The results from this service last year reached over 1.5 billion VND.

### 4. Construction Investment

In 2024, the company will try to maintain stability, exploit the current fleet well to restructure debt, and have no investment items.

## PART 2: Plan of the year 2025

### 1. Shipping market overview in 2025

In 2025, it is forecasted that we will continue to face many difficulties and challenges; finding sources of goods is increasingly difficult. The Company's fleet is over 30 years old, in a state of technical degradation, requiring continuous maintenance, while spare parts for these types of ships are difficult to purchase due to their obsolescence, and the addition of new maritime safety equipment is difficult, requiring frequent repairs but operations do not meet design requirements... Therefore, it is more difficult to operate, with many potential risks.

### 2. Plan of the year 2025

Facing with unpredictable developments in the shipping market, the Company's fleet in 2025 is expected to face more difficulties than last year. The company's financial situation and cash flow are very difficult. To stabilize the fleet in 2025, the Company's Board of Directors will flexibly adjust the form of self-exploitation or time charter. For the form of time chartering with a period of 3-6 months, the freight rate will be adjusted based

on the transportation market situation. Try to choose long-term, trustworthy charter partners with good operating and financial records. With the above time charter period, based on the actual market situation, the Company can also flexibly switch between time chartering or self-exploitation. In addition, the Company continues to promote and develop services to create additional revenue from crew rental, office rental, etc.

### 2.1. Plan of the year 2025:

N o.	Item	Unit	Plan 2025		Comparison Plan 2025/ Impl 2024
			Revenue	Net Revenue	
1	Quantity of Transportation	Tons	137.500		13%
2	Total Revenue	Mil VND	169.989,86		90%
	Including: - From shipping	Mil VND	47.329,86		30%
	- From shipping service	Mil VND	1.700,00		15%
	- - Other revenue	Mil VND	120.960,00		565%
3	Profit	Mil VND	-32.936,46		11%
4	EBITDA	Mil VND	2.747,44		

#### Explain the increase/decrease indicators:

- The 2025 transport output plan is 13% compared to 2024 due to: Phuong Dong 05 ship will operate until the end of the first quarter of 2024 and Phuong Dong 06 ship will operate until December 2024, then be handed over to the Bank to handle the secured assets. The Company does not implement the iron transportation contract for Formosa and coal for the Hoa Phat Dung Quat project.

- The 2024 revenue plan is 90% compared to 2024, with additional revenue expected from asset liquidation. In addition, promoting external ship leasing services to increase revenue. Given the unpredictable market situation, the Company expects the freight rate for Phuong Dong 06 ship to be 4,400.00 USD/day by the end of 2024; Oriental Glory continues to be bareboat chartered at a rate of VND 1,700,000,000/month (including VAT).

### 2.2. Investment

In 2025, due to continuing to focus on restructuring activities, the Company has no investment plans.

### 2.3. Liquidation of assets

Coordinate with competent authorities to handle collateral assets for ships Phuong Dong 05 (invested by Vietnam Joint Stock Commercial Bank for Foreign Trade), Phuong Dong 06 (invested by Vietnam Bank for Agriculture and Rural Development Transaction Office Branch) and Oriental Glory (invested by Vietnam Joint Stock Commercial Bank for Foreign Trade).

### 2.4. Transfer of capital divestment

At the 2023 and 2024 Annual General Meetings of Shareholders, the General Meeting of Shareholders approved the policy of transferring the Company's investment capital at Nosco Shipyard Joint Stock Company according to Submission No. 66/TTr-HĐQT dated March 27, 2023 and Submission No. 02/TTr-HĐQT dated March 14, 2024 of the Board of Directors. However, due to many objective reasons, it has not been possible to implement. Therefore, at this General Meeting of Shareholders, the Board of Directors of the Company continues to seek shareholders' opinions on transferring the policy of divesting the investment capital in shares at Nosco Shipyard Joint Stock Company (Nosco Shipyard), based on the actual situation to implement.

### 3. Solutions:

- Development strategy and goal in 2025 is to continue to closely monitor market developments to select appropriate exploitation options for each vessel to optimize business efficiency. During the negotiation and signing of the charter contract, pay attention to the terms to gain more initiative in dispatching vessels and adjusting the charter price, minimizing losses when market fluctuations cause disadvantages for the ship owner.

- Save management costs such as communication costs, reception costs, office costs and cut some other unnecessary costs;

- Focus on developing high-quality human resources through training and rotation to have crew officers and office specialists with professional expertise.- Xây dựng quy chế trả lương và phân phối tiền thưởng phù hợp với điều kiện thực tế của công ty, đảm bảo tiền lương cho người lao động phản ánh đúng tính chất, tính trách nhiệm trong công việc của người lao động;

- Launch emulation movements to enhance spirit and responsibility in work such as: emulation in ship maintenance, emulation in good management, etc.

- Accelerate the process of restructuring corporate finance, debt forgiveness, debt extension, proactively coordinate with credit institutions to handle ineffective collateral assets so that enterprises have the opportunity to borrow working capital to serve the fleet's operations, overcoming the shortage of working capital as in previous years.

The coordination between management departments and shipboard officers needs to be closer to improve efficiency, minimize incidents and be caught, causing costs to be incurred. ### **1. Audit results of 2024 financial statements**

The 2024 financial statements ending on December 31, 2024, were audited by UHY Auditing and Consulting Company Limited, including: Balance sheet; Business performance report; Cash flow statement and Notes to the financial statements.

Auditor's opinion: Due to the importance of the matter stated in the "Basis for disclaimer of opinion" paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Therefore, we are unable to express an audit opinion on the attached financial statements.

Basis for disclaimer of opinion:

- At the time of issuing the audit report on the Financial Statements for the fiscal year ending December 31, 2024, we have not received a letter confirming the balance of the following debts: Loans and financial lease debts with the respective values at December 31, 2024 being VND 3,093,625,539,290 and at January 1, 2024 being VND 3,028,914,074,035; Interest payable at December 31, 2024 being VND 2,069,345,697,674 and at January 1, 2024 being VND 1,995,233,541,594. Alternative audit procedures do not provide us with a basis to evaluate the existence, completeness and accuracy of the above liabilities and the impact on other indicators in the accompanying financial statements.

- At the time of issuing the audit report on the Financial Statements for the fiscal year ending December 31, 2024, we have not received the confirmation letter of the investment as of December 31, 2024 and the Financial Statements for the first 6 months of 2024 as well as the Financial Statements for 2023 of the Investment in the associates, Nosco Shipyard Joint Stock Company and Northern Trading and Shipping Joint Stock Company with investment values of VND 112.3 billion and VND 6 billion, respectively. The Company has made a provision for 100% of these investments. Alternative audit procedures do not provide us with a basis to assess the existence, completeness and value of the above investments, nor do we assess whether the provision for 100% of the investment value is appropriate.

- The investment in Nosco Quang Ninh Water Transport and Trading Joint Stock Company (100% owned by OSTC), the amount of VND 7,650,000,000 has been 100% provisioned by the company and is being transferred to other receivable accounts by the company because Nosco Quang Ninh Water Transport and Trading Joint Stock

Company has closed its tax code, stopped operating and cannot contact the members of the board of directors.

- As explained in Note 2.4, in 2024, the Company incurred a loss of VND 289.2 billion. As of December 31, 2024, the Company's accumulated loss was approximately VND 5,358.55 billion, negative equity was more than VND 5,099.548 billion, and loans and financial leases were all overdue. These events, together with the issues stated in Note 2.4, present uncertainties that affect the Company's ability to continue as a going concern. At the time of issuance of this Report, we do not have sufficient basis to express an opinion on whether the Company's going concern assumption is appropriate.

In addition, the auditors also raised the following issues to emphasize:

- The financial statements of Oriental Shipping and Trading Joint Stock Company for the fiscal year ended December 31, 2023 have been audited by another auditor and auditing firm. This auditor has issued an unqualified opinion on the financial statements as of March 11, 2024. The basis for the unqualified audit opinion is as follows:

- The investment in Northern Trading and Shipping Joint Stock Company and Nosco Shipyard Joint Stock Company (Associate Company) is being provisioned at 100%. However, at the time of issuing the audit report, we have not yet received the financial statements as a basis for determining the investment provision.

- At December 31, 2023, the unit has sent a confirmation letter for the loan from Southeast Asia Commercial Joint Stock Bank - Hai Phong branch. However, we have not received any return of the balance confirmation procedure from the Bank. On the other hand, the unit did not determine the interest expense payable for this loan, the estimated interest amount is: VND 26,267,493,450. According to the unit's explanation: Because this loan is secured by the asset of the Nosco Victory ship. However, the collateral of this loan has been sold but the Company has not received specific notice of the principal balance to be deducted, so the unit does not calculate the interest payable for this loan. (Details in Note 20 and Appendix 1).

- The Company does not determine and reflect in the business results of the period the interest payable for the loan from Maritime Commercial Joint Stock Bank and Vietnam Development Bank. The estimated interest amount is: VND 14,015,867,716. According to the unit's explanation: Because this loan is secured by the asset of the Hong Linh ship. According to the minutes of the tripartite meeting before handling the collateral, the bank will write off all principal and interest after handling all assets (Hong Linh Ship). At the time of the report, the Hong Linh Ship had been sold but the parties had not yet had an official record on the issue of writing off the principal balance, so the unit did not estimate the interest payable.

- The investment in Nosco Quang Ninh Water Transport and Trading Joint Stock Company (100% owned by Phuong Dong Sea Transport Joint Stock Company), the amount of VND 7,650,000,000 has been 100% provisioned by the company and is being transferred to other receivables accounts because Nosco Quang Ninh Water

Transport and Trading Joint Stock Company has closed its tax code, stopped operating and cannot contact the members of the board of directors.

The above issues still affect the company's 2024 financial statements
