6.2 Explanation content:

- For the separate financial statements and consolidated financial statements:

Quang Nam Transportation Construction Joint-Stock Company would like to provide an explanation regarding the changes in profit after corporate income tax (CIT) for the current reporting period compared to the same period of the previous year, as follows:

- The profit after CIT presented in the Statement of Business Performance for the reporting period increased by 10% or more compared to the same period of the previous year.

- The profit after CIT for the current reporting period shifted from a loss to a profit compared to the same period of the previous year.

The main reason for this change is that revenue for the first six months of 2025 reached VND 20,086 billion, representing an 86% increase compared to VND 10,784 billion for the same period in 2024. This significant increase in revenue resulted in improved business performance (with a change exceeding 10%), contributing to the Company's profit growth and the shift from a loss to a profit in the current reporting period.
