2. Statement of compliance with accounting standards and accounting policies

State. The separate financial statements are prepared and presented in accordance with all provisions of each standard, circular guiding the implementation of the standard and the applicable accounting regime.

IV. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the parent company. Control exists when the parent company has the power to govern the financial and operating policies of an entity to obtain economic benefits. Subsidiaries are consolidated into the consolidated financial statements from the date control begins until the date control ceases.

Elimination of Intercompany Transactions

Intercompany balances, unrealized income, and expenses arising from internal transactions are eliminated when preparing the consolidated financial statements. Unrealized gains from transactions with associates accounted for using the equity method are eliminated against the investment to the extent of the group's interest in the investee. Unrealized losses are eliminated unless the transaction provides evidence of an impairment of the transferred asset.

2. Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at actual rates of exchange ruling at the transaction dates.

Monetary items denominated in foreign currencies are revalued at the exchange rate provided by the commercial bank with which the company transacts most frequently at the reporting date

- For assets denominated in foreign currencies, the revaluation uses the buying rate of the commercial bank

- For liabilities denominated in foreign currencies, the revaluation uses the selling rate of the commercial bank

Foreign exchange differences arising from revaluation and actual transactions during the year are recognized in financial income or expenses

3. Cash and Cash Equivalents

Cash includes cash on hand, bank deposits, and cash in transit.

Cash equivalents are short-term investments with original maturities not exceeding three months, which are readily convertible to cash with an insignificant risk of value changes.

4. Obstacles in accounting for financial investment

Held-to-maturity investments

Investments held to maturity include investments that the Company has the intention and ability to hold to maturity. Investments held to maturity b / include: term bank deposits (b / including treasury bills, promissory notes), bonds, preferred stocks The issuer is required to repurchase at a certain time the capital and holdings until maturity for the purpose of collecting periodic interest and investments hold until ivory/other term

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
Quarter 2, 2025

Investments held until maturity are recorded starting from the date of purchase and are determined at the initial investment value purchase price and costs related to the price/ transaction of purchasing the investments. Interest income from investments held up to maturity is recorded in the income statement on an accrual basis. Interest earned before the Company holds is recorded as a deduction and/or original price at the time of purchase

Investments held to maturity are determined at original cost less provision for bad debts

Provisions for held-to-maturity investments are made according to: current accounting regulations

Capital contribution investments in other units

Investments in public companies, joint ventures/ affiliated companies are recorded under historical cost method. Net profits paid from corporations and joint ventures arising from investments are recorded and recorded as results of business operations. Other disbursements (other than net profit) are considered recovery of investments and recorded as a deduction from the original cost of investment.

5. Obstacles in accounts receivable accounting

Accounts receivable represents the book value of accounts receivable from customers, including accounts receivable of a commercial nature arising from the sale of goods, provision of services and Other receivables are not commercial in nature, not related to the sale of goods and provision of services

Provision for doubtful receivables is established for each receivable based on the overdue principal payment period:/ initial debt balance (not taking into account the extension of debt held by the parties), h/or the basis and/the expected level of loss that can be incurred. Accounts receivable that are determined to be uncollectible will be written off.

Accounts receivable are divided into short-term and long-term on the balance sheet based on: the remaining term of the accounts receivable at the date of the balance sheet.

6. Obstacles in recording inventory

Inventory is calculated at:/ original cost. In case the net realizable value is lower than the original price, the net realizable value must be calculated. The original cost of inventory includes purchasing costs, processing costs and other directly related costs incurred to bring the inventory to its present location and condition.

Inventory value is determined using the weighted average method.

Inventory/ is recorded/ approved/ regular inventory method.

The method of establishing provisions for devaluation of inventories is made according to: current accounting regulations.

7. Rules for recording and amortizing tangible and intangible fixed assets

8. Rules for recording and amortizing financial lease fixed assets

An asset lease is classified as a financial lease if most of the risks and benefits associated with ownership of the asset belong to the lessee. Financial leased fixed assets are shown at original cost minus flood depreciation. The source of the price of a fixed asset under a finance lease is the lower of the fair value of the leased asset at the beginning of the lease contract and the current value of the minimum lease payment. The discount rate to calculate the present value of the minimum rental payment for the lease is the interest rate implicit in the lease contract or the stated interest rate. ng contract. In cases where the implicit interest rate in the lease contract cannot be determined, the interest rate v at the time of the beginning of the lease shall be used.

Finance leased fixed assets are depreciated using the straight-line method over their estimated useful lives. In cases where it is uncertain that the Company will have ownership of the asset at the end of the lease contract, the fixed asset will be depreciated for the shorter period of the lease term and the term of the lease. n estimated usefulness. The discount period is estimated as follows:

- | | |
|---------------------------|---------------|
| - Machinery and equipment | 03 – 05 years |
| - Motor vehicles | 03 – 06 years |
