## **REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION**

**To: The Shareholders, Board of Directors, and Management  
Quang Ninh Book and Educational Equipment JSC**

We have reviewed the accompanying interim financial statements prepared on 14/08/2025 of Quang Ninh Book and Educational Equipment JSC ("the Company") as set out on pages 5 to 32, which comprise the interim balance sheet as at 30/06/2025, the interim income statement, interim statement of cash flows for the first 6 months of 2025 and the notes thereto.

### **Chairman and Management's Responsibility for the Interim Financial Statements**

The Company's Chairman and Management are responsible for the preparation and fair presentation of these interim financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System, and the statutory requirements relevant to the preparation and presentation of interim financial statements, and for such internal control as the Chairman and Management determine is necessary to enable the preparation and presentation of interim financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express a conclusion on the accompanying interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity".

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Auditors' Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements do not present fairly, in all material respects, the financial position of the Company as at 30/06/2025, and of its financial performance and its cash flows for the first 6 months of 2025 in accordance with the Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and the statutory requirements relevant to preparation and presentation of the interim financial statements.

### 32. Risk management

#### a. Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

### b. Financial risk management

Financial risks include market risk (including exchange rate risk, interest rate risk, price risk), credit risk, and liquidity risk.

**Market risk management:** The Company's activities expose it primarily to the financial risks of changes in interest rates and prices.

#### *Interest rate risk management*

The Company's interest rate risk mainly derives from interest bearing loans which are arranged. To mitigate this risk, the Company has estimated the impact of borrowing costs to its periodic business results as well as making analysis and projection to select appropriate time to repay the loans. The Chairman and Management assess that the risk of unexpected interest rate fluctuations is low.

#### *Price risk management*

The Company purchases goods and raw materials from domestic suppliers to support its operations and is therefore exposed to the risk of price fluctuations. However, the prices of goods and raw materials in the education sector are generally stable with slight movements. Accordingly, the Company assesses that the price risk in its operations is low.

### **Credit risk management**

The Company's trade receivables primarily arise from educational departments and schools within Quang Ninh Province. These are traditional customers with regular transactions and a strong capacity for timely payments. Tuition fees, in particular, are collected immediately in cash. For overdue receivables, the Company has made provisions for doubtful debts to ensure adequate coverage. Accordingly, the Company's exposure to credit risk from customers is low.

### **Liquidity risk management**

To ensure the availability of funds to meet present and future financial obligations, the Company manages liquidity risk by regularly monitoring and maintaining sufficient cash reserve, optimizing idle cash flows, making use of credit from customers and counterparties, controlling maturing liabilities in relative to maturing assets and the amount of funds that can be generated within that period.
