Re: explaining the reason why the reviewed profit after tax increased compared to the same period last year

Hanoi, August 22, 2025

To:
- State Securities Commission;
- Hanoi Stock Exchange.

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guiding information disclosure on the stock market.

Vinacomin - Viet Bac Mining Industry Holding Corporation would like to explain that the after-tax profit of quarter 2 of 2025 and the accumulated profit for the first 6 months of 2025 after reviewing the Parent Company's Financial Statements and Consolidated Financial Statements increased compared to the same period last year as follows:

Unit: Million dong

Items	Quarter 2				Cumulative year			
	Quarter 2 - 2025	Quarter 2 - 2024	Difference		Year 2025	Year 2024	Difference	
			Value	Rate (%)			Value	Rate (%)
Profit after tax of the Parent Company	81,083	64,483	16,600	26	137,515	114,337	23,178	20
Profit after tax of Consolidated Financial Statements	108,891	81,415	27,476	34	181,392	128,722	52,670	41

The after-tax profit in quarter 2 of 2025 and the accumulated first 6 months of 2025 of the Parent Company's Financial Statement and Consolidated Financial Statement increased compared to the same period last year. The main reason was that the increase in consumption output increased sales revenue, thereby increasing profit compared to the same period last year.

Vinacomin - Viet Bac Mining Industry Holding Corporation would like to report to the State Securities Commission and Hanoi Stock Exchange.
