Pursuant to Clause 4 Article 11 Chapter III of Circular No. 155/2015/TT-BTC dated October 06, 2015, issued by the Ministry of Finance and effective from January 01, 2016, providing guidance on information disclosure on the securities market, Song Da Water Investment Joint Stock Company would like to provide an explanation regarding the profit after corporate income tax for the third quarter of 2025, which recorded a profit and experienced a change of 10% or more compared to the same period of the previous year, as follows:

The profit after tax for the third quarter of 2025 was VND 33,957,825,168, representing an increase of 203% compared to the same period in 2024 (equivalent to VND 66,944,156,468).

The main reason for this increase in profit was the growth in clean water output during the period, along with an approved adjustment to the selling price of clean water in 2025, which led to an increase in revenue compared to the same period last year.

These were the key factors resulting in a profit being recorded in the third quarter of 2025 and a 203% increase in profit compared to the same period of the previous year, equivalent to VND **66,944,156,468**.
