8. Principles of recording and depreciating fixed assets, financial lease fixed assets, investment real estate.

Fixed assets are recorded at original cost. During use, fixed assets are recorded at original cost, accumulated depreciation and residual value.

From June 2013, INDUSTRIAL GAS AND WELDING ELECTRODE JOINT STOCK COMPANY changed its accounting policy for fixed assets and fixed asset depreciation according to the guidance in Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance guiding the management, use and depreciation of fixed assets, accordingly the minimum original price of fixed assets increased from VND 10 million to VND 30 million, for fixed assets that previously did not satisfy this condition, the remaining value was adjusted to long-term prepaid expenses and allocated to production and business expenses within 3 years.

Depreciation is provided on a straight-line basis. Depreciation period applicable is estimated as follows:

- Houses	10-25 years
- Machines, equipments	5-25 years
- Vehicles, Transportations equipment	8-10 years
- Office equipments and Furniture	4-10 years
- Land use rights	50 years
- Management software	3 years

9. Accounting principles for business cooperation contracts.

10. Accounting principles for deferred corporate income tax.

11. Principles of accounting for prepaid expenses.

Prepaid expenses: Prepaid expenses allocated to investment activities in basic construction, renovation and upgrading of fixed assets during the period are capitalized into the fixed assets being invested in or renovated and upgraded.

Prepaid expense allocation method: Prepaid expenses that are only related to the current fiscal year are recorded as production and business expenses in the fiscal year.

12. Accounts Payable Principle.

13. Principles of recording loans and financial lease liabilities.

14. Nguyên tắc ghi nhận và vốn hóa các khoản chi phí đi vay./ Principles of recognition and capitalization of borrowing costs.

- Principle of prepaid expenses: Prepaid expenses allocated to investment activities in basic construction, renovation and upgrading of fixed assets during the period are capitalized into the fixed assets being invested in or renovated and upgraded.

- Principles for setting aside reserve funds from after-tax profits: According to Article 27 of Decree 199/2004/ND-CP dated December 3, 2004 of the Government.

15. Principle of recording payable expenses.

Payable expenses include interest expenses payable, commission expenses, land use rentals incurred during the year but not yet paid due to payment not being due or insufficient accounting records and documents.

16. Principles and methods of recording payable provisions.

17. Principles of recognizing unrealized revenue.

18. Principles of recognition of convertible bonds.

19. Principles of recording equity:

- Principles for recording owners' capital contributions, equity surplus, convertible bond options, and other owners' capital.
- Principles for recording differences in asset revaluation
- Principles of recording exchange rate differences
- Principles of recording undistributed profits.

20. Principles and methods of revenue recognition.

Sales revenue: Recognized when all of the following conditions are met:

- + The significant risks and rewards of ownership of the goods have been transferred to the buyer.
- + The company no longer holds the right to manage the goods as the owner of the goods or the right to control the goods.
- + Revenue is determined relatively certainly;
- + The company has obtained or will obtain economic benefits from the sale transaction;
- + Identify costs associated with sales transactions.

Revenue from the provision of services: Recognized when the outcome of the transaction can be reliably determined. In case the provision of services involves many periods, revenue is recognized in the period according to the results of the work completed on the date of the Balance Sheet of that period. The result of the service provision transaction is determined when the following conditions are satisfied:

- + Revenue is determined relatively certainly;
- + Ability to obtain economic benefits from the transaction of providing that service;
- + Determine the completed work on the date of the Balance Sheet;

+ Determine the costs associated with the transaction to complete that service.

Financial revenue: Revenue arising from interest, royalties, dividends, and profits is included in financial revenue.

21. Accounting principles for revenue deductions
22. Principles of accounting for cost of goods sold
23. Principles of financial cost accounting
24. Principles of accounting for sales costs and business management costs
25. Principles and methods of recording current corporate income tax expenses and deferred corporate income tax expenses.
26. Other accounting principles and methods

V. Applicable accounting policies (in case the enterprise does not meet the going concern assumption)

1. Should long-term assets and long-term liabilities be reclassified as short-term?
2. Principles for determining the value of each type of asset and liability (according to Net Realizable Value, Recoverable Value, Fair Value, Current Value, Current Price, etc.)
