2 ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1 Accounting period and accounting currency

Annual accounting period commences from 01 January and ends as at 31 December.

The Company maintains its accounting records in VND.

2.2 Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Company applies Corporate Accounting System issued under the Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance, the Circular No. 53/2016/TT-BTC dated 21 March 2016 issued by Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC.

Declaration of compliance with Vietnamese accounting standards and accounting system

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3 Basis for the preparation of Separate Financial Statements

The Separate Financial Statements are presented based on the historical cost principle.

Separate Financial Statements of the Company are prepared based on summarization of transactions incurred at dependent accounting entities and the head office of the Company

In the Company's Separate Financial Statements, internal transactions and internal balances related to assets, capital and internal receivables and payables... have been completely eliminated.

2.4 Accounting estimates

The preparation of Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Directors/General Director to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the separate financial statements and the reported amounts of revenues and expenses during the fiscal year.

The estimates and assumptions that have a material impact in the Financial Statements include:

- Provision for bad debts;
- Provision for devaluation of inventory;
- Provision for payable expenses;
- Level of allocation of prepaid expenses;
- Estimated useful life of fixed assets;
- Classification and provision of financial investments;
- Estimated income tax

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Board of General Directors to be reasonable under the circumstances.

2.5 Foreign currency transactions

Foreign currency transactions during the year are translated into Vietnam dong using the actual rate at transaction date.

Real exchange rate when revaluating monetary item denominated in foreign currencies at the reporting date of the Separate Financial Statements is determined under the following principles:

- For asset accounts, applying bid rates of commercial banks where the Company regularly conducts transaction;
- For foreign currency deposits in banks, applying bid rates of the bank where the Company opens foreign currency accounts;
- For liability accounts, applying offer rates of commercial banks where the Company regularly conducts transactions.

All exchange differences arising from foreign currency transactions in the year and from revaluation of remaining foreign currency monetary items at the end of the year are recorded immediately to operation results of the fiscal year.

2.6 Cash

Cash includes cash on hand, non-term deposits at bank.

2.7 Financial investments

Trading securities are initially recognized at original cost which includes purchase prices plus any directly attributable transaction costs such as brokerage, transaction fee, cost of information provision, taxes, bank's fees and charges. After initial recognition, trading securities are measured at original cost less provision for diminution in value of trading securities. When liquidating or transferring, the cost price of a trading securities is determined according to the weighted average method

Investments in subsidiaries and joint ventures are initially recognized in the accounting books at cost. After initial recognition, value of these investments is measured at historical cost less provision for devaluation of investments.

Provisions for devaluation of investments is made at the year-end as follows:

- For investments in trading securities: provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting books over their market value at the provision date.
- For investments in subsidiaries and joint ventures: provision for loss investments shall be made based on the financial statements of subsidiaries and joint ventures at the provision date.

2.8 Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. Receivables are classified as short-term and long-term in the separate financial statements based on the remaining maturity of the receivables at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or is missing and making a getaway.

2.9 Inventories

Inventories are initially recognized at original cost including the purchase price, processing costs and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory less the estimated costs to complete the product and the estimated costs to sell the product.

The cost of inventory is calculated by weighted average method.

Inventory is recorded by perpetual method.

Method for valuation of work in process at the end of the year: The value of work in progress is recorded based on actual cost incurred for each stage in production chain.

Provision for devaluation of inventories made at the end of the year is based on the excess of original cost of inventory over their net realizable value.

2.10 Fixed assets and Finance lease fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets are recorded at cost, accumulated depreciation and carrying amount.

Value after initial recognition

If these costs increase the future economic benefits expected to be obtained from the use of tangible fixed assets beyond the standard operating level as initially assessed, these costs are capitalized, as an additional cost of tangible fixed assets.

Other costs incurred after fixed assets have been put into operation, such as repair, maintenance and overhaul costs, are recorded in the income statement (separately) in the year in which the costs are incurred.

The historical cost of finance lease fixed assets is recognized at the lower of fair value and present value of the minimum lease payments (in case fair value is higher than present value of minimum lease payment) plus any directly attributable costs incurred related to finance lease (exclusive of value added tax). During the using time, finance lease fixed assets are recorded at historical cost, accumulated depreciation and carrying amount. Finance lease fixed assets are depreciated over the lease term and charged to operating expenses in order to fully recover the capital.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	10 - 50 year
- Machinery, equipment	03- 15 year
- Transportation equipment	06 - 10 year
- Office equipment	03 - 08 year
- Management software	03 year
- Land use rights	Not amortized

2.11 Construction in progress

Construction in progress includes fixed assets which are being purchased or constructed but have not completed at the end of the accounting year and recorded at historical cost. They include costs of construction, installation of equipment and other direct costs.

2.12 Operation leases

Operating leases is fixed asset leasing in which a significant portion of the risks and rewards of ownership of assets are retained by the lessor. Payments made under operating leases are charged to the statement of income on a straight-line basis over the period of the lease.

2.13 Business Cooperation Contract (BCC)

Business Cooperation Contract (BCC) is a contractual agreement between two or more venturers with the objectives of cooperating to carry out specific business activities without constitution of a new legal entity. This operation may be jointly controlled by venturers under BCC or controlled by one of them.

The Company has conducted the following business cooperation contracts:

a) Regarding the Investment cooperation contract No. 156/HD. DT/Postef-Songhong ICT dated 24 April 2012 signed with Songhong Investment Construction Trading Joint Stock Company on building complex at 63 Nguyen Huy Tuong, Thanh Xuan, Hanoi, two parties agreed that Song Hong Investment Construction Trading Joint Stock Company would be in charge of opening bank accounts, doing the bookkeeping and settling project expenses. The company only records the annual land rental incurred from 01 January 2012 until now according to the notification of the tax authority that the Company paid on behalf of the joint venture and records as receivable item for the project, which is reflected in the item "Other receivables". Profit distribution is made based on the capital contribution rate.

b) Regarding the investment cooperation contract No. 40/2011/HDHTDT/POT-LV-HL dated 28 December 2011 signed with the joint venture of Lien Viet Group and Him Lam Corporation on building POSTEF complex at 61 Tran Phu, Ba Dinh, Hanoi, all parties agreed that the Company would be the project owner and in charge of opening bank accounts and doing the bookkeeping during the investment and the construction phase. The project expenses are recorded on the incurred expenses under the contract. The expenses are paid by the joint venture and recorded in the item "Construction in progress " and "Other payables". Profit distribution is made based on the capital contribution rate.

2.14 Prepaid expenses

The expenses incurred but related to operation results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods .

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria.

Types of prepaid expenses include:

- + Prepaid land expenses include prepaid land rental for which the Company has received the land use right certificate but is not eligible for recording as intangible fixed assets according to the Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on April 25, 2013 guiding regulation on management, use and depreciation of fixed assets and other incurred expenses related to ensuring the use of leased land. These expenses are recognized in the separate statement of income on a straight-line basis over the term of the lease.
- + Tools and instruments include assets held by the Company for use during business operation. As cost of each asset is less than VND 30 million, they are not eligible for

recording as a fixed asset according to current regulations. Cost of tools and equipment is depreciated on a straight-line basis over a period of 1 to 3 years.

- + Expenses for prepayment of infrastructure rental are allocated to expenses in the fiscal year according to the lease term.
- + Equipment leasing project costs including Camera system, operating machinery and equipment and related software are amortized on a straight-line basis over the useful life of 36 months.
- + Other prepaid expenses are stated at cost and amortized on a straight-line basis over their useful lives from 1 to 3 years.

2.15 Payables

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company. Accounts payable are classified as short-term and long-term in the separate financial statements based on the remaining maturities of the payables at the reporting date.

2.16 Borrowings and finance lease liabilities

The value of finance lease liabilities is recognized at the payable amount equal to the present value of minimum lease payments or the fair value of leased assets.

Borrowings and financial lease liabilities are tracked by each lender, each loan agreement, and the repayment terms of the borrowings.

2.17 Borrowing costs

Borrowing costs are recognized in production and business expenses in the period when they are incurred, except for borrowing costs directly related to the investment in construction or production of unfinished assets which are included in the value of assets (capitalized) when all the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing costs" are met. In addition, for separate loans for the construction of fixed assets, investment real estate, interest is capitalized even if the construction period is less than 12 months.

2.18 Accrued expenses

Accrued expenses include payables to goods or services received from the suppliers or provided for the customers during the reporting period, but the payments for such goods or services have not been made and other payables such as transportation costs, factory relocation costs, interest expenses, etc. which are recorded to operating expenses of the reporting period.

The recording of accrued expenses as operating expenses during the year shall be carried out under the matching principle between revenues and expenses during the year. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

2.19 Provision for payables

Provision for payables is only recorded when meeting all following conditions:

- The Company has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- Debt obligation can be estimated reliably.

Value recorded as a provision for payable is the most reasonably estimated amount required to settle for the present debt obligation at the end of the fiscal year.

Only expenses related to the previously recorded provision for payable shall be offset by that provision for payable.

Provision for warranty of products, goods is deducted for products, goods according to time and committed in each specific contract. The rate of provision for warranty is determined according to the rate of warranty value for each specific contract.

Provisions for payables are recorded as operating expenses of the accounting year. In case provision made for the previous accounting year but not used up exceeds the one made for the current accounting year, the difference is recorded as a decrease in operating expenses.

2.20 Owner's equity

Owner's equity is stated at actually contributed capital of owners .

Share premium is recorded at the difference between the par value, the costs directly attributable to issuing shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profit appropriation or loss handling of the Company.

Dividends to be paid to shareholders are recognised as a payable in Separate Statement of Financial Position after the announcement of dividend payment from the Board of Management and the announcement of cut-off date for dividend payment from Securities Depository Center of Vietnam.

2.21 Revenues

Revenue is recognized when it is probable that the economic benefits will flow to the Company which can be reliably measured. Revenue is determined at the fair value of the amounts received or to be received after deducting trade discounts, sales discounts, sales returns:

Revenue from sale of goods

- The majority of risks and benefits associated with the right to own the products or goods have been transferred to the buyer;
- The majority of risks and benefits associated with the right to own the products or goods have been transferred to the buyer .

Revenue from service providers

- Determine the work completed on the date of preparing the Balance Sheet .

Financial income

Revenue arising from the used by the others of entity's assets yielding interest, royalties and dividends shall be recognised when:

- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The amount of the revenue can be measured reliably.

Dividends and distributed profits are recognized when the Company is entitled to receive dividends or receive profits from capital contributions.

2.22 Cost of goods sold

Cost of goods sold is recognized in accordance with revenue arising and in compliance with the prudence principle. In case loss of materials and goods exceeds the acceptable/normal level, the excess after deducting the responsibility of collective and individuals concerned, etc. are recognized fully and promptly into cost of goods sold in the period.

2.23 Financial expenses

Items recorded into financial expenses consist of:

- Borrowing costs;
- Exchange losses, etc.

The above items are recorded by the total amount arising in the year without offsetting against financial income.

2.24 Current corporate income tax

Current corporate income tax expenses are determined based on taxable income during the year and current corporate income tax rate.

2.25 Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence over the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel of the Company, the close family members of these individuals;
- Enterprises which the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence over.

In considering the relationship of related parties to serve for the preparation and presentation of separate financial statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.

2.26 Segment information

The Company mainly operates in the field of production and trading of post and telecommunication equipment, other activities accounted for negligible proportion (less than 10%) in production and business activities and in the total value of assets. In addition, the Company's activities are taken place in Vietnamese territory. Therefore, the Company does not make Segment reporting by business sector and geographical area.
