2. Content of the information disclosure:

Sonadezi Corporation explains the fluctuations in Profit after corporate income tax for Quarter III/2025 as follows:

*** Consolidated Financial Statements:**

Expressed in: million VND

No.	Content	Quarter III/2025	Quarter III/2024	Amount increase (+)/decrease (-)	Percentage (%)
1	Revenue from sales of goods and rendering of services	1,363,175,908	1,337,110,934	+ 26,064,974	Increased 1.95%
2	Cost of goods sold	840,173,468	875,528,261	- 35,354,793	Decreased 4.04%
3	Gross profit from sales of goods and rendering of services	522,995,941	461,578,674	+ 61,417,267	Increased 13.31%
4	Financial income	33,999,427	29,606,302	+ 4,393,125	Increased 14.84%
5	Financial Expense	19,611,477	27,701,637	- 8,090,160	Decreased 29.20%
6	Share of the profit of associates	39,883,113	43,529,123	- 3,646,010	Decreased 8.38%
7	Selling Expense	28,494,955	24,782,813	+ 3,712,142	Increased 14.98%
8	General and administrative expenses	113,475,165	103,198,194	+ 10,276,971	Increased 9.96%
9	Operating profit	435,296,883	379,031,454	+ 56,265,429	Increased 14.84%

No.	Content	Quarter III/2025	Quarter III/2024	Amount increase (+)/decrease (-)	Percentage (%)
10	Net other income	2,434,833	1,707,778	+ 727,055	Increased 42.57%
11	Total accounting profit before tax	437,731,717	380,739,232	+ 56,992,485	Increased 14.97%
12	Profit after corporate income tax	374,628,606	324,874,297	+ 49,754,309	Increased 15.31%

Profit after corporate income tax in Quarter III/2025 increased compared to Quarter III/2024 due to the following reasons:

- Revenue from sales of goods and rendering of services increased by 1.95% year-over-year, mainly driven by port service operations and clean water supply services.

- Cost of goods sold decreased by 4.04%, resulting in a 13.31% increase in gross profit from sales and service provision compared to the same period.

- Financial income increased by 14.84%, while financial expenses decreased by 29.20%.

- These factors led to a 14.97% increase in total accounting profit before tax and a 15.31% increase in Profit after corporate income tax compared to the same period last year.

Sonadezi Corporation provides an explanation to the State Securities Commission and shareholders for information.

Sincerely.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

2. BASIS OF PREPARATION

2.1. Accounting standards, accounting system

The accompanying consolidated financial statements, expressed in Vietnamese Dong ("VND"), are prepared in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

2.2. Financial year

The Group's financial year is from 01 January to 31 December.

2.3. Reporting and functional currency

The Group maintains its accounting records in VND.

2.4. Basis of consolidation

The consolidated financial statements are the financial statements of a Group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and subsidiaries are presented as those of a single economic entity regardless of the legal structure of the entities. The financial statements of the subsidiaries have been prepared for the same financial year using uniform accounting policies to those used by the parent company. Adjustments were made for any different accounting policies to ensure consistency between the subsidiaries and the parent company.

A subsidiary is fully consolidated from the acquisition date on which the Group obtains control over the subsidiary until the date on which the parent ceases to control the subsidiary, unless control is intended to be temporary because the subsidiary is acquired and held exclusively with the intention of selling or disposing of it within twelve months.

Non-controlling interest recognition

Non-controlling interests in the net assets and net results of consolidated subsidiaries are shown separately in the consolidated statement of financial position and in the consolidated income statement.

The loss of a subsidiary is attributed to the non-controlling interests in proportion to their relative interests in the subsidiary even if this results in the non-controlling interests having a deficit balance.

Profit or loss recognition in changes in ownership interests in subsidiaries

Changes in the Group's ownership interest in a subsidiary that do not result in the Group losing control are accounted for as equity transactions. The carrying amounts of the Group's and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity in the consolidated statement of financial position.

Upon loss of control of a subsidiary, the Group's profit or loss is calculated as the difference between the fair value of the consideration received and the respective carrying amount of the net asset of the subsidiary plus the remaining balance of goodwill at the date when control is lost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)***Intra-group transactions elimination***

All intra-group transactions, balances, income and expenses - including unrealised intra-group profits or losses - are eliminated in full on consolidation. Unrealised losses resulting from intra-group transactions that are deducted in arriving at the carrying amount of assets are also eliminated unless the cost cannot be recovered.

3. SIGNIFICANT ACCOUNTING POLICIES**3.1. Foreign currencies**

- The exchange rates announced by banks of companies in the Group are applied in accounting;
- The exchange rate applicable to asset recognition and re-evaluation is the foreign currency-buying rate;
- The exchange rate applicable to liability recognition and re-evaluation is the foreign currency-selling rate.

Transactions in foreign currencies are recorded, on initial recognition, in the reporting currency, by applying to the foreign currency amount the spot exchange rate between the reporting currency and the foreign currency at the date of the transaction. The exchange differences arising on the settlement of monetary items are recognised in profit or loss in the year in which they arise. At the end of the reporting year, monetary items excluding advances to suppliers, prepaid expenses, and unearned revenues, which are denominated in foreign currency, are reported using the closing rate and resultant exchange differences resulting from the reporting after offset are recognised in profit or loss in the year in which they arise.

3.2. Use of estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that impact the carrying value of certain assets and liabilities, contingent assets and liabilities reported in the notes at 30 September 2025 as well as revenues and expenses in the consolidated financial statements for the six-month period ended 30 September 2025. Although these estimates are based on management's best knowledge of all relevant information available at the date when the consolidated financial statements are prepared, this does not prevent actual figures differing from estimates.

3.3. Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at bank and current investments for a period not exceeding 3 months or highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash equivalents are defined the same as those under Accounting Standard No. 24 - Statement of cash flows.

3.4. Financial investments***Held to maturity investments***

Held to maturity investments comprise term deposits.

Equity investments in other entities***Investments in associates***

Investments are classified as investments in associates when the Group directly or indirectly holds from 20% to under 50% of the voting shares of the investee without any other agreement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Investments in associates are accounted for under the equity method. Under the equity method, on initial recognition the investment in an associate is recognised at cost. In case of investments of non-monetary assets, the cost of investments is recognised at the fair values of the assets as incurred. The carrying amount is increased or decreased to recognise the Group's share of profit or loss of the associate after the date of acquisition.

Distributions received from associates reduce the carrying amount of the investment.

Other investments

Investments classified as other investments are investments other than investments in subsidiaries, investments in associates or investments on joint ventures.

Other investments are accounted for under the cost method which comprise purchase prices plus (+) acquisition related costs (if any). In case of investments of non-monetary assets, the cost of investments is recognised at the fair values of the assets as incurred.

Recognition principles of provisions for other financial investment impairment loss*For investments in securities*

As of the date of the consolidated financial statements, with regard to the investments in securities that are listed or registered for trading in the domestic stock markets and freely traded in the market, if the market price of the securities is below their carrying amounts, a provision for a securities investment impairment loss is recognised at no more than the carrying amount to reflect the loss due to the impairment to ensure that the value of the investments is no more than the market price.

For equity investments in other entities

Provisions for impairment losses on equity investments in other entities are determined using fair values if the fair values can measure reliably. If the fair values cannot be measure reliably at the reporting date, provisions are measured on the basis of the investee's losses.

3.5. Account receivables**Recognition method**

Account receivables are stated at the carrying amounts of trade receivables and other receivables less provisions for doubtful debts.

Provisions for doubtful debts

As of the date of the consolidated financial statements, provisions for doubtful debts are recognised for past-due accounts receivable and for accounts receivable where circumstances indicate that they might be uncollectible or for uncollectible debts due to liquidation, bankruptcy, or similar difficulties.

The difference between the required balance and the existing balance of provision for doubtful debts is recorded as a general and administrative expense in the consolidated income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.6. Inventories

Inventory measurement

Inventories are measured at the lower of cost and net realisable value.

Real estate industrial parks and urban areas were built for sale in the ordinary course, not for rent or for capital appreciation, are measured as inventory at the lower of cost bringing each product to its present location and condition and net realisable value.

The cost of real estate for sale include the cost of compensation and ground clearance, the cost of road construction and drainage systems, the cost of planting trees and other infrastructure, the cost of construction pay for contractors, design consulting fees and other related expenses.

The costs of inventories shall comprise all costs of purchase, costs of conversion, and other costs incurred in bringing inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour, and attributable manufacturing overheads.

The costs of purchase comprise the purchase price, non-reimbursable taxes and duties, and transport, handling, and other costs directly attributable to the purchase. Trade discounts and sales rebates on substandard and obsolete goods purchased are deducted from the costs of purchase.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Method of accounting for inventories

Inventories are measured using the weighted average method and are recorded under the perpetual inventory method.

Provisions for decline in value of inventories

As of the date of the consolidated financial statements, provisions are recognised for obsolete, slow-moving, defective inventory, and for inventory stated at cost higher than net realisable value.

The difference between the required balance and the existing balance of the provision for a decline in value of inventories is included in cost of sales in the consolidated income statement.

3.7. Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation.

Tangible fixed asset recognition

Tangible fixed assets are initially recognised at their cost. The cost of purchased tangible fixed assets comprises the purchase price and any directly attributable costs of bringing the assets to their present location and working condition for their intended use.

The costs of tangible fixed assets constructed by contractors are the finalised costs of the construction, other directly related expenses and the registration fee (if any).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)***Depreciation***

The costs of fixed assets are depreciated on a straight-line method over their estimated useful lives.

The estimated useful lives are as follows:

▪ Buildings, structures	03 - 50 years
▪ Machinery and equipment	03 - 25 years
▪ Motor vehicles	03 - 30 years
▪ Management equipment	03 - 12 years
▪ Others	02 - 40 years

3.8. Intangible fixed assets

Intangible fixed assets are measured at cost less accumulated amortisation.

Intangible fixed asset recognition

The cost of an intangible fixed asset comprises the total amount of expense incurred by the Group to acquire an asset at the time the asset is put into operation for its intended use.

Accounting principles for intangible fixed assets***Land use rights***

Land use rights are stated at their costs less accumulated amortisation, include:

No.	Address	Amortisation time
1.	The land use right at Xuan Hoa Stone Mine	11 years
2.	The land use right at Dong Nai Water Joint Stock Company	20 - 48 years

Computer software

Computer software is not an indispensable component of hardware and is recognised as an intangible asset and depreciated over its useful life (02 - 10 years).

3.9. Leases***Lease classification***

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating leases

Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**3.10. Leases*****Operating leases***

Assets subject to operating leases are recognised in the consolidated statement of financial position according to the Group's asset classification pattern.

Initial direct costs to generate income from operating leases are recognised as expenses in the year as incurred or amortised over the lease term. Lease income from operating leases is recognised in the consolidated income statement on a straight-line basis over the lease term regardless of payment methods.

In case, where the rental period is more than 90% of the useful life of the assets, the Corporation could record as income once for the entire rental amount received in advance if the following conditions are met simultaneously:

- The lessee is not entitled to cancel the lease contract and the lessor has no obligation to repay the amount received in advance in all cases and in all forms;
- The amount received in advance from the lease is not less than 90% of the total lease amount expected to get under the contract during the lease term and the lessee must pay the entire amount of lease within 12 months from the beginning of the lease;
- Almost all the risks and benefits associated with ownership of the leased asset are transferred to the lessee;
- The lessor must estimate relatively the full cost of the lease.

Depreciation of assets subject to operating leases is consistent with the depreciation policy of the lessor for similar assets.

3.11. Investment property

Investment properties are measured at cost less accumulated depreciation. Investment properties held for capital appreciation are not depreciated but subject to impairment review.

Investment property recognition

An investment property is measured initially at its cost. The cost of an investment property is the amount of cash or cash equivalents paid or the fair value of other considerations given to acquire an asset at the time of its acquisition or construction. The costs include initial transaction charges.

Investment property depreciation

The cost of an investment property is depreciated on a straight-line method. Investment properties held for capital appreciation are not depreciated but an impairment test is required.

The estimated useful lives of investment properties are as follows:

- | | |
|--|---------------|
| ▪ Compensation and clearance expense, land use right | 06 - 48 years |
| ▪ Infrastructure | 05 - 41 years |
| ▪ Buildings | 03 - 45 years |
| ▪ Motor vehicles | 06 - 30 years |
| ▪ Others | 04 - 25 years |

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**3.12. Construction in progress**

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost. Cost includes necessary fees to acquire assets including related construction fees, equipment, other fees and interest expense in accordance with the Group's accounting policy.

These expenses will be temporarily converted to a fixed asset cost (if no finalisation is approved) when the assets are put into use.

Under the state regulation on investment and construction management, subject to management decentralisation, construction finalisation value should be approved by competent agencies. The final construction finalisation value could be changed subject to the finalisation approved by competent agencies.

3.13. Business cooperation contract (BCC)***Capital contribution recognition in jointly controlled operations***

Assets contributed to, or acquired for the purpose of, jointly controlled operations are recognised as other receivables by the contributing venturer, or as other payables by the acquiring venturer.

Sharing of revenues, expenses, products

Based on business results of BCC, the business cooperation parties will decide to share the business results according to the percent capital contributed.

3.14. Prepayments

Prepayments are classified as current and non-current based on their original term. Prepayments mainly comprise costs of tools and supplies, land rental prepayment, compensation costs for site clearance, etc., which are amortised over the period for which they are paid or the period in which economic benefits are generated in relation to these expenses.

3.15. Liabilities

Liabilities are classified into trade payables and other payables based on the following rules: Trade payables represent those arising from purchase and sale related transactions of goods, services or assets and the seller is independent of the buyer; the remaining payables are classified as other payables.

Liabilities are also classified according to the maturity date, the remaining term from the date of the consolidated financial statements, original currency, and each creditor.

Liabilities are recognised at no less than the payment obligation.

3.16. Borrowing costs***Capitalisation of borrowing costs***

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets until the assets are put into use or sale.

Investment income earned on temporary investment of borrowings is deducted from the cost of the respective assets.

All other borrowing costs are recognised as an expense in the consolidated income statement when incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.17. Accrued expenses

Accrued expenses represent expenses that will be paid in the future for goods or services received but not yet paid due to lack of invoices or accounting documents. These expenses are recognised as operating expenses of the reporting year such as accruals of infrastructure expenses on activities of trading houses, transferring land use right; accruals of infrastructure expenses on activities of trading infrastructures and transferring industrial premises use rights and other expenses.

The accruals of infrastructure expenses on activities of trading houses, transferring land use right are recognised on the land areas provided to customers but not yet completed in the investment phase, which are estimated according to the regulations of the government regarding the cost estimates in the construction industry.

The accruals of infrastructure expenses on activities of trading infrastructures and transferring industrial premises use rights are recognised based on the annual realized revenue ratio and estimated total investment costs.

3.18. Unearned revenues

Unearned revenues include advance payments for one or more accounting periods for land leasing and fee use of infrastructure premises.

Unearned revenues are periodically determined and transferred into revenues according to the lease term.

3.19. Owners' equity

The owners' contributed capital

The owners' contributed capital is recognised when contributed.

Share premiums

Share premiums are recognised as the difference between the issue price and the par value of shares, and the difference between the re-purchase price and the re-issue price of treasury shares.

Treasury shares

Treasury shares are recognised at purchased cost and presented in the consolidated statement of financial position as a deduction from equity.

Dividends

Dividends are recognised as a liability at the date of declaring dividends.

Reserves

Reserves are created at certain percentages of profit after tax as prescribed in the charter.

Retained earnings

Net profit after income tax can be distributed to shareholders after the distribution is approved by the Annual General Meeting of Shareholders and reserves are created in accordance with the Corporation's Charter and legal regulations in Vietnam.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**3.20. Assets revaluation**

For the purpose of valuation of the equitized enterprises, the Group assessed the value of its investments in subsidiaries and associates in accordance with valuation reports and profile of equitization settlement have been approved by competent authorities, the Group has recognized the increase in the cost of these investments in the consolidated balance sheet in amount of VND 592,863,242,704 (in which adjusted the revaluation of investments in subsidiaries is VND 558,488,719,712 and adjust the revaluation of investments in associates is VND 34,374,522,992), while the equity of these investees of the Group has not been revalued - Refer to Note 4.22.1.

For the purpose of the preparation of the consolidated financial statements, the difference between the revalued investments in subsidiaries and associates and the equity value of the investee companies is recognized as a deduction in the "Asset revaluation reverse" in the consolidated statement of financial position.

3.21. Revenue and other income***Revenue from selling goods***

Revenue from selling goods is measured at the fair value of the consideration received or receivable. In most cases, revenue is recognised when transferring the risks and rewards of ownership to the buyer.

Revenue involving the rendering of services

Revenue of a transaction involving the rendering of services is recognised when the outcome of this transaction can be estimated reliably. When a transaction involving the rendering of services is attributable to several periods, each period's revenue is recognised by reference to the stage of completion at the end of the reporting period.

Revenue from transferring real estate

Revenue from the transferring real estate is recognised when all five (05) of the following conditions are satisfied:

- The Group has transferred risks and benefits associated with ownership of the real estate to the buyers;
- The Group no longer holds the right to manage the real estate as real estate's owners or the right to control the real estate;
- The turnover is determined reliably;
- The Group has received or will receive economic benefits from the sales of the real estate;
- Costs related to sales of the real estate may be determined.

Revenue from leasing land and infrastructure business

Revenue from leasing land and infrastructure business is recognized for each lease contract.

Revenue from operating lease

Revenue from operating lease is presented in Note 3.10.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)***Revenue from clean water supply***

Revenue from the clean water supply is recorded in each period (each month) based on the volume of water (m3) consumed by customers (water meter index at the end of the year minus water meter index at the beginning of the period) multiplied by the progressive water unit price for residential households. For the remaining customers, the fixed unit price announced by the Group is applied periodically.

Revenue from construction contracts

Revenue from construction contracts is recognised in accordance with the accounting policy on construction contracts as Note 3.22 below.

Interest income

Interest income is recognised on an accrual basis by reference to the principal outstanding and at the interest rate applicable.

Income from investments in associates

Income from investments in associates is recognised in the consolidated income statement corresponding to the per cent interest of the Group in the associates.

3.22. Construction contracts

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the date of the consolidated statement of financial position as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs - except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably:

- Revenue is only recognised to the extent of contract costs incurred that it is probable will be recoverable;
- Contract costs are only recognised as an expense in the period in which they are incurred.

3.23. Cost of sales

Cost of sales and services provided represents total costs of finished products, goods, services, investment properties or manufacturing costs of construction products (for construction entities) which are sold and rendered in the year in accordance with the matching principle.
