FINANCIAL STATEMENTS

Quarter 3 - 2025

NOTES TO THE FINANCIAL STATEMENTS

Quarter 3 Year 2025

I. GENERAL INFORMATION

1. Operating field

Operating field of the Company is industrial production.

2. Business Sector

The Company's business sector is industrial manufacturing.

3. Principal business activities

Principal business activities of the Company are to dry and process agricultural products.

4. Normal operating cycle

Normal operating cycle of the Company is within 12 months.

5. Statement of information comparability on the Interim Financial Statements

The figures in the current period can be comparable with corresponding figures in the previous period.

6. Headcount

As of the balance sheet date, the Company's headcount is 136 (headcount at the beginning of the year: 160).

II. FISCAL YEAR AND ACCOUNTING CURRENCY

1. Fiscal year

The fiscal year of the Company is from 01 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is Vietnamese Dong (VND) because the Company's transactions are primarily made in VND.

III. ACCOUNTING STANDARDS AND POLICIES

1. Accounting System

The Company applies the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 as well as other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of the Financial Statements.

2. Statement of the compliance with the Accounting Standards and System

The General Director ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 as well as other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of the Financial Statements.

TIEN THINH GROUP JOINT STOCK COMPANY

Address: My Phu Hamlet, Tan Phuoc Hung Commune, Can Tho City

FINANCIAL STATEMENTS

Quarter 3 - 2025

Notes to the Financial Statements (continued)

3. Accounting convention

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

4. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arising from foreign currency transactions during the period shall be recorded as financial income or financial expenses. Foreign exchange differences resulting from the revaluation of ending balances of monetary items in foreign currencies, after offsetting positive and negative differences, shall also be included in financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For receivables: the buying rate ruling as at the time of transaction of the commercial bank where the Company designates the customers to make payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the Company is supposed to make payments.

The exchange rates used to re-evaluate the ending balances of monetary items in foreign currencies are determined according to the following principles:

- For foreign currency deposits: the buying rate of the bank where the Company opens its foreign currency account.
- For monetary items in foreign currencies classified as other assets: the buying rate of Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) – Can Tho Branch, where the Company frequently conducts transactions.
- For monetary items in foreign currencies classified as liabilities: the selling rate of Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) – Can Tho Branch, where the Company frequently conducts transactions.

5. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks.

6. Financial Investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments only include term deposits for the purpose of receiving periodical interest.

Held-to-maturity investments are initially recognized at cost. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interests arising prior to the Company's acquisition of held-to-maturity investments are recorded as a decrease in the costs as at the acquisition time.

TIEN THINH GROUP JOINT STOCK COMPANY

Address: My Phu Hamlet, Tan Phuoc Hung Commune, Can Tho City

FINANCIAL STATEMENTS

Quarter 3 - 2025

Notes to the Financial Statements (continued)

When there are reliable evidences proving that a part or the whole investment cannot be recovered and the loss is reliably determined, the loss is recognized as financial expenses during the period while the investment value is derecognized.

7. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the nature of trade arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the nature of trade and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the ages of debts after offsetting against liabilities (if any) or estimated loss as follows:

- As for overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.
 - 100% of the value of debts overdue from 3 years or more.
- As for doubtful debts: Allowance is made on the basis of the estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into general and administration expenses.

8. Inventories

Inventories are stated at the lower of cost and net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandise: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/(decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into costs of sales.

9. Prepaid expenses

Prepaid expenses comprise actual expenses incurred but relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include:

Insurance premiums

TIEN THINH GROUP JOINT STOCK COMPANY

Address: My Phu Hamlet, Tan Phuoc Hung Commune, Can Tho City

FINANCIAL STATEMENTS

Quarter 3 - 2025

Notes to the Financial Statements (continued)

Insurance premiums incurred once with high value are allocated into expenses in accordance with the straight-line method in 12 months.

Expenses of fixed asset repairs

Expenses of fixed asset repairs incurred once with high value are allocated into expenses in accordance with the straight-line method in 24 months.

Expenses of tools

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 36 months.

Prepaid land rental

Prepaid land rental reflects the rental prepaid for the land being used by the Company and is allocated into expenses in accordance with the straight-line method over the lease term.

10. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	10 – 25
Machinery and equipment	05 – 25
Office equipment	03

11. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

The Company's intangible fixed asset only includes land use right. Land use right includes all the actual expenses paid by the Company directly related to the land being used such as expenses to obtain the

FINANCIAL STATEMENTS

Quarter 3 - 2025

Notes to the Financial Statements (continued)

land use right, expenses for house removal, land clearance and ground leveling, registration fees, etc. The land use right is amortized in accordance with the straight-line method in 49 years and a half. If the land use right is permanent, it is not amortized.

12. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Company) directly attributable to assets under construction, machinery and equipment under installation for purposes of production, leasing and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

13. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Company, including payables for import through entrustment.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Balance Sheet on the basis of their remaining term as of the balance sheet date.

14. Owner's equity

Contributed Capital

Contributed Capital is recorded according to the actual amounts invested by shareholders.

15. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

16. Recognition of sales

Sales of merchandise, finished goods

Sales of merchandise, finished goods shall be recognized when all of the following conditions are satisfied:

- The Company transfers most of risks and benefits incident to the ownership of products, merchandise to customers.

TIEN THINH GROUP JOINT STOCK COMPANY

Address: My Phu Hamlet, Tan Phuoc Hung Commune, Can Tho City

FINANCIAL STATEMENTS

Quarter 3 - 2025

Notes to the Financial Statements (continued)

- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandise, products sold.
- The amount of sales can be measured reliably. When the contracts stipulate that buyers have the right to return products or merchandise under specific conditions, sales are recorded only when those specific conditions no longer exist and buyers retain no rights to return products or merchandise (except where such returns are in exchange for other merchandise or services).
- The Company received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Sales of service provision

Sales of service provision shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales are recognized only when these specific conditions no longer exist and the buyer is no longer entitled to return the services provided.
- The Company received or shall probably receive the economic benefits associated with the transactions.
- The stage of completion of the transaction at the end of the reporting period can be measured reliably.
- The costs incurred for transaction and costs to complete the transactions can be measured reliably.

In the case that the services are provided in several accounting periods, the recognition of sales is based on the volume of work done as of the balance sheet date.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

17. Revenue Deductions

Revenue deductions only include sales discounts arising in the same period as the consumption of products and goods, which are adjusted to reduce the revenue of the period in which they occur.

In cases where sales discounts arise for products and goods sold in prior years, the revenue reduction is recognized according to the following principles:

- If the sales discount arises before the issuance of the Financial Statements, it is recorded as a reduction of revenue in this year's Financial Statements.
- If the sales discount arises after the issuance of the Financial Statements, it is recorded as a reduction of revenue in next year's Financial Statements.

18. Borrowing costs

Borrowing costs are interest and other costs that the Company directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when they are incurred. In case the borrowing costs are directly attributable to the construction or production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for its intended use or sale, these costs will be included in the cost of that asset. To the extent that the borrowings are specifically for the purpose of constructing fixed assets and investment properties, the borrowing cost is eligible for capitalization even if the construction period is less than 12 months. Income arising from provisional investments as loans is recognized as a reduction in the cost of the relevant assets.

TIEN THINH GROUP JOINT STOCK COMPANY

Address: My Phu Hamlet, Tan Phuoc Hung Commune, Can Tho City

FINANCIAL STATEMENTS

Quarter 3 - 2025

Notes to the Financial Statements (continued)

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the period, except for particular borrowings serving the purpose of obtaining a specific asset.

19. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

20. Corporate Income Tax

Corporate income tax expenses include current income tax and deferred income tax.

Current Income Tax

Current income tax is calculated based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses, tax-exempt income, and the utilization of carried-forward tax losses.

Deferred Income Tax

Deferred income tax represents the corporate income tax to be paid or refunded due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profits will be available to utilize these deductible temporary differences.

The carrying amount of deferred income tax assets is reviewed at the end of the financial year and is reduced to the extent that sufficient taxable profits are not probable to utilize all or part of the deferred income tax assets. Previously unrecognized deferred income tax assets are reassessed at the financial year-end and are recognized if it becomes probable that sufficient taxable profits will be available to utilize these assets.

Deferred income tax assets and liabilities are determined using the tax rates expected to apply in the period when the asset is realized, or the liability is settled, based on tax rates enacted at the financial year-end. Deferred income tax is recognized in the Income Statement unless it relates to items recognized directly in equity, in which case it is also recorded directly in equity.

Offsetting Deferred Income Tax Assets and Liabilities

Deferred income tax assets and liabilities are offset when:

- The Company has a legal right to offset current tax assets against current tax liabilities; and
- The deferred income tax assets and liabilities relate to corporate income tax managed by the same tax authority:
 - Either for the same taxable entity; or
 - For different taxable entities within the Company that intend to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities

TIEN THINH GROUP JOINT STOCK COMPANY

simultaneously in future periods when significant amounts of deferred tax liabilities or assets are expected to be settled or realized.

21. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

22. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Interim Financial Statements of the Company.
