d. Accounting for interest income, interest expenses and termination of interest accruals

The Bank records interest income and interest expenses by accrued method on daily basis. Interests on overdue loans are not recorded on accrual basis, but in the off- balance sheet. When a loan becomes overdue, the accrued interest will be deferred and recorded in the off-balance sheet. These interests will be recorded in the income statement once they are collected.

e. Accounting for loans granted to customers, debt dealing

Accounting for loans granted to customers

NOTES TO THE FINANCIAL STATEMENTS**Quarter III Year 2025****Unit: VND million****Recording and measuring loans to customers**

Loans granted to customers are stated at the balance of loan (principal) less provision for loss.

Short-term loans are those with a repayment date within one year, medium-term loans are those with a final repayment date between one and five years and long-term loans are those with a repayment date of more than five years.

Debt classification and credit risk provisioning are in accordance with Circular 31 and Decree 86.

Classification of debts

Debt classification for term deposits and loans to other credit institutions, unlisted corporate bonds, customer loans, and credit trusts (collectively referred to as "debts") is performed monthly based on the quantitative method prescribed in Article 10 of Circular No. 31/2024/TT-NHNN dated June 30, 2024 ("Circular 31"). The Bank performs monthly debt classification based on the principal balance on the last day of the previous month.

Debts are classified according to the risk levels as follows: Qualified debt, Attention debt, Substandard debt, Doubtful debt and Potential loss of capital debt. Bad debts are debt which are classified as Substandard debt, Doubtful debt and Potential loss of capital debt. Debts are classified and provision at the end of each month of the fiscal year.

- Qualified debt (group 1) include: a) Debts that are due and assessed as being able to fully recover both principal and interest on time; b) Debts that are overdue for less than 10 days and are assessed as being able to fully recover overdue principal and interest and fully recover the remaining principal and interest on time. Debts are classified into group 1 because they meet the criteria to be classified into lower risk debt group.

- Potential loss of capital debt (group 5): a) Debts that are overdue for more than 360 days; or b) First-time rescheduled debt is overdue for 91 days or more according to the first rescheduled repayment term; or c) Debts which have been restructured for the second time and are overdue according to the second restructured repayment term; or d) Debts which have been rescheduled for the third time or more, even if they are not overdue or overdue; or e) Debts specified at point (d) of sub-standard debts that have not been recovered for more than 60 days from the date of issuance of a decision on recovery; or f) Debts to be recovered under the inspection decision but still not recovered by more than 60 days past the time limit for collection according to the inspection conclusion; or g) Debts to be recovered under the decision on early debt recovery because the customer has not recovered from the agreement's violation for more than 60 days from the date of the decision on recovery; or h) Debts of customers being credit institutions announced by the State Bank of Vietnam to be placed under special control, or foreign bank branches whose capital and assets are frozen; or i) Debts classified into group 5 according to the provisions of Clause 3, Article 10 of Circular 31; or j) Debts that must be classified into group 5 according to the provisions of Clause 4, Article 8 of Circular 31.

The Bank restructures the debt repayment period and maintains the debt group to support customers facing difficulties in production and business activities and customers facing difficulties in repaying loans for living and consumption needs according to the provisions of Circular No. 02/2023/TT-NHNN dated April 23, 2023 and Circular No. 06/2024/TT-NHNN dated June 18, 2024 of the State Bank.

Debts are classified into the group of lower-risk debts in the following cases:*For overdue debt*

- The customer has fully paid the overdue principal and interest (including interest applicable to the overdue principal) and the principal and interest of the following repayment terms within a minimum period of 03 (three) months for medium-term and long-term debt, 01 (one) month for short-term debt, from the date of starting to fully pay overdue principal and interest; and the bank has documents and records to prove that the customer has paid the debt;
- The bank has sufficient information and documents to assess that customers are capable of fully paying the remaining principal and interest on time.

For debt with repayment term structure

- The customer has fully paid the principal and interest according to the restructured repayment term for at least 03 (three) months for medium-term and long-term debt, 01 (one) month for short-term debt, from the date of commencement of full payment of principal and interest according to the restructured term.
- The bank has sufficient information and documents to assess that customers are capable of fully paying the remaining principal and interest on time.

Debts are classified into higher risk debt group in the following cases:

NOTES TO THE FINANCIAL STATEMENTS

Quarter III Year 2025

Unit: VND million

- The indicators of profitability, solvency, debt-to-capital ratio, cash flow, and debt repayment ability of customers decreased continuously through 03 times of continuous assessment and classification of debts.
- The customer fails to provide sufficient, timely and truthful information at the request of the credit institution, foreign bank branch to assess the customer's debt repayment ability.
- Debts that have been classified into group 2, group 3, group 4 according to the provisions of points a and b of this clause for 01 (one) year or more but are not eligible for classification into the group of lower-risk debts.
- Debts for which the act of credit extension is administratively sanctioned as prescribed by law.

The bank is required to use the risk classification results provided by the Credit Information Center of the State Bank ("CIC") to classify the bank's loans to customers into the higher-risk group between the debt group assessed by the bank and the debt group provided by CIC.

In the event that a customer has more than one debt with the bank and any debt is transferred to a higher-risk debt group, the bank is required to classify the remaining debts of that customer into debt groups that have a commensurate level of risk.

The monthly provision is recognized in the Bank's separate income statement.

Provision for credit risk

Provision for credit losses includes general and specific provisions.

According to the provisions of Decree No. 86/2024/ND-CP dated July 11, 2024 ("Decree 86"), the Bank establishes specific credit risk provisions based on the provision rates corresponding to the debt classification results and the outstanding principal balance less the deductible value of discounted collateral. Specific provisions are calculated based on the debt classification results and the outstanding principal balance as of the last working day of the month.

Specific loan is made for the losses that may happen to each individual loan with the provision rate applicable to each group as follows:

	Debt classification	Specific provisioning rate
Group 1	Qualified debts	0%
Group 2	Attention debt	5%
Group 3	Substandard debt	20%
Group 4	Doubtful debt	50%
Group 5	Potential loss of capital debt	100%

Specific provisions are calculated based on the outstanding balance of individual customer loans as of the last working day of each month, less the deductible value of the collateral. The deduction rate for collateral is specified in Clause 2, Article 6 of Decree 86.

According to Clause 1, Article 7 of Decree 86, general provisions are established to provide for losses that have not been identified during the debt classification and specific provision establishment process, and in cases where credit institutions encounter financial difficulties due to a decline in the quality of debts. Accordingly, the Bank must establish and maintain general provisions equal to 0,75% of the total outstanding balance of debts from group 1 to group 4, excluding the following items:

- Deposits at credit institutions and foreign bank branches as stipulated by law, and deposits at credit institutions abroad;
- Loans and repurchase agreements of valuable papers between credit institutions and foreign bank branches in Vietnam;
- Purchases of certificates of deposit and bonds issued by other domestic credit institutions and foreign bank branches;

NOTES TO THE FINANCIAL STATEMENTS**Quarter III Year 2025****Unit: VND million**

- Repurchase transactions of government bonds on the securities market as stipulated by the law on the issuance, registration, deposit, listing, and trading of government debt instruments on the securities market;
- Other debts arising from activities specified in Clause 2, Article 3 of Decree 86 between credit institutions and foreign bank branches in Vietnam as stipulated by law.

Using provision risk

Provisions are recorded as an expense on the separate statement of operations and are used to handle debts classified in group 5, borrowers who are dissolved or bankrupt legal entities, individuals who are dead or missing, and to handle asset losses for debts as prescribed in Article 11 of Decree 86/2024/ND-CP.

Handling credit risks

From the date of using provisions to handle risks and after implementing measures to recover the debt but failing to do so, the bank is authorized to write off the risk-handled debt from the off-balance sheet based on Article 12 of Decree 86/2024/ND-CP.

f. Accounting for business operations and securities investment**Securities trading:**

Trading securities are securities acquired with the intent to sell them in the near future to profit from short-term price fluctuations.

Accounting principles for recognizing the value of trading securities: Trading securities are initially recorded at their purchase cost (original cost), which includes the purchase price plus (+) any directly attributable costs (if any). Subsequently, they are carried at cost less any impairment allowance.

Profit or loss on trading securities is recognized in the income statement on a net basis.

Securities that are not actively traded or for which market values cannot be reliably determined are not subject to impairment and are carried at cost.

Income earned during the holding period of trading securities is recognized in the income statement on a cash basis.

Investment in securities

Investment securities consist of securities held to maturity and securities available for sale. Banks classify investment securities at the time of purchase as either held-to-maturity securities or securities available for sale. According to Circular No. 2601/NHNN-TCKT dated April 14, 2009 of the State Bank of Vietnam, banks are allowed to reclassify investment securities at most once after the initial classification at the time of purchase.

Available-for-sale securities are debt or equity securities held for an indefinite period and can be sold at any time.

Held-to-maturity securities are debt securities whose terms and payments are fixed or identifiable and the Board of Management intends and can hold to their maturity.

Accounting principles for recognizing the value of investment securities: Trading securities are initially recorded at their purchase cost (original cost), which includes the purchase price plus (+) any directly attributable costs (if any). Subsequently, they are carried at cost less any impairment allowance.

Held-to-maturity securities are carried at cost less any impairment loss. An impairment loss is recognized when the market value of the securities falls below the carrying amount or when there are indications of a decline in value based on the assessment of the Board of Managements.

Any premium or discount arising from the purchase of held-to-maturity securities is amortized to the income statement of the bank over the life of the securities using the straight-line method.

NOTES TO THE FINANCIAL STATEMENTS**Quarter III Year 2025****Unit: VND million**

Interest income earned after the purchase of held-to-maturity securities is recognized in the income statement on an accrual basis.

Securities that cannot be actively traded on the market or whose market value cannot be determined shall not be provided for and shall be reflected at cost.

Available-for-sale debt securities and held-to-maturity debt securities are initially recognized at cost, which includes the purchase price plus directly attributable costs such as brokerage fees, transaction fees, information fees, taxes, levies, and bank charges. Subsequently, these securities are carried at amortized cost (affected by the amortization of discount and premium) less allowance for credit losses (including allowance for credit losses and impairment losses). The premium or discount arising from the purchase of debt securities is amortized to the income statement using the straight-line method over the holding period.

Listed available-for-sale debt securities are carried at cost less impairment loss by referring to the closing price on the Hanoi Stock Exchange at the end of the fiscal year. The bank does not recognize an allowance for held-to-maturity debt securities unless there are indications of a prolonged decline in the value of the securities or there is convincing evidence that the bank is unlikely to recover the full amount of the investment.

Available-for-sale debt securities and held-to-maturity debt securities of unlisted enterprises are recorded at cost less credit risk provisions in accordance with Decree 86/2024/ND-CP.

Income earned during the holding period of trading securities is recognized in the income statement on a cash basis.

Interest earned after the purchase of available-for-sale debt securities and held-to-maturity debt securities is recognized in the income statement on an accrual basis. Any accrued interest prior to the purchase by the bank shall be deducted from the purchase price.

Discontinuation of recognition of investment securities

Investment securities are derecognized on the trade date for listed securities or when the bank has formally transferred ownership in accordance with the law for unlisted securities.

g. Investments in subsidiaries

Investments in subsidiaries are recognized when the Bank holds more than 50% of the voting rights and has the power to govern the financial and operating policies so as to obtain benefits from its activities. When the Bank no longer holds control of the Subsidiary, the investment in the subsidiary is reduced. Investments in Subsidiaries are stated in the financial statements using the historical cost method.

Investments in subsidiaries are recognized when the Bank holds more than 50% of the voting rights and has the power to govern the financial and operating policies so as to obtain benefits from its activities. When the Bank no longer holds control of the Subsidiary, the investment in the subsidiary is reduced. Investments in Subsidiaries are stated in the financial statements using the historical cost method.

Provision for losses on investments in subsidiaries is established when the Bank determines that these investments have suffered a permanent and unexpected decline in value due to the losses incurred by the invested subsidiaries.

h. Principles of recognition of tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenditures incurred beyond their originally assessed standard of performance are capitalized as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures which do not meet the above conditions are charged to the expenses in the year.

NOTES TO THE FINANCIAL STATEMENTS**Quarter III Year 2025****Unit: VND million**

When the assets are sold or disposed, their original costs and the accumulated depreciation which have been written off and any gain or loss from disposal of assets are recorded in the income statement.

Tangible fixed assets purchased

The original cost of purchased tangible fixed assets shall consist of the actual purchase price less (-) trade discounts or reduction plus (+) taxes (excluding taxes to be refunded) and relevant expenses calculated to the time when such fixed assets are put into operation such as fees for installation and trial operation of fixed assets; specialists and other direct costs.

The original cost of a tangible fixed asset formed from capital construction under the mode of tendering shall be the finalization price of the construction project, other relevant fees plus (+) registration fee (if any).

Fixed assets which are buildings, structures attached to land use right, the value of land use right is computed separately and recorded as intangible fixed assets.

i. Principles for recording intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortization. The original cost of a intangible fixed asset comprises all costs of owning the asset to the date it is put into operation as expected.

Purchase of separate intangible fixed assets

The original cost of purchased intangible fixed assets shall consist of the actual purchase price payable less (-) trade discounts or reduction plus (+) taxes (excluding taxes to be refunded) and relevant expenses calculated to the time when such fixed assets are put into operation. The land use rights which are purchased together with buildings, structures will be determined separately and recorded as intangible fixed assets.

Intangible fixed assets formed from the exchange and payment of documents related to the ownership of capital of the entity, the historical cost of the intangible fixed assets is the fair value of the relevant issued documents to capital ownership.

Land use right

The original cost of an intangible fixed asset which is the land use right shall be the payment made to obtain the lawful land use right plus (+) compensatory payments for clearance of site, expenses for leveling the ground, registration fee...or land use right as contribution in joint-venture.

Computer software

Computer software is the total cost incurred by the Bank up to the time the software is put into use.

j. Method of depreciating and amortizing fixed assets

Depreciation is charged to write off the cost of fixed assets on a straight line basis over their estimated useful lives. Useful life means the duration in which the tangible fixed assets produce their effect on production and business.

The estimated useful life for assets is as follows:

<i>Buildings and structures</i>	<i>5 - 50 years</i>
<i>Machinery and equipment</i>	<i>5 - 15 years</i>
<i>Transportation and facilities</i>	<i>6 - 10 years</i>
<i>Office equipment</i>	<i>3 - 8 years</i>
<i>Other fixed assets</i>	<i>5 - 10 years</i>
<i>Intangible fixed assets</i>	<i>3 - 8 years</i>

Land use rights which are granted for a definite term are amortized in conformity with the term stated in the certificate of land use right.

NOTES TO THE FINANCIAL STATEMENTS**Quarter III Year 2025****Unit: VND million**

Land use rights which are granted for an indefinite term are carried at cost and not amortized.

k. Accounting for finance leases

Operating leases: Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

l. Cash and cash equivalents

In the statement of cash flows: cash and cash equivalents includes cash, precious metal and gemstones, payment deposits at the State Bank of Vietnam, demand deposits and deposits with the term of under 90 days since deposit date at other credit institutions, government bond and other short-term valuable paper qualified to be discounted with SBV, securities with recoverable or maturity term of less than 3 months since purchase date, convertible to certain amount, containing not many risks relating to value change, and bare for the purpose of meeting engagement of short-term payment rather than for investment or others.

m. Provisions, contingent liabilities and unidentified assets

Provisions are recorded when: the Bank has present obligations as a result of past events; It is probable that an outflow of resources will be required to settle the obligation; The obligation is estimated reliably; Provision is not recorded for the operating loss in the future.

When there are similar obligations, the possibility of outflow of resources due to the settlement of obligations is determined by considering the whole group in general. Provision will be made though the outflow due to obligation settlement is very small.

Provision is calculated at present value of estimated expenses for settling debts at the discount interest rate before tax and reflects the assessment based on present market of the market price of currency and specific risk of those debts. The increase of provision throughout time will be recorded as interest expense.

Other assets are considered for risk provisioning for on-balance sheet assets based on the age of overdue debt or the expected loss that may occur in the event that the debt has not yet reached maturity but the economic organization is bankrupt or undergoing dissolution procedures; the debtor is missing, absconding, being prosecuted, tried by law enforcement agencies, or serving a sentence or has died. The provisioning costs incurred are accounted for in operating expenses during the year.

For overdue assets, the Bank applies the provisioning level based on the overdue period as guided in Circular No. 48/2019/TT-BTC issued by the Ministry of Finance on August 8, 2019 and amended by Circular No. 24/2022/TT-BTC issued by the Ministry of Finance on April 7, 2022 for each bad debt based on the age of the overdue debt or the expected loss that may occur. Increases and decreases in the balance of the provision for bad debts that must be set up at the end of the fiscal year are recorded in operating expenses.

n. Accounting for obligations to employees

The Bank records salaries, wages and other payables to employees in the operating expenses in the period on the basis of salary expenses incurred in the period. The salaries, wages to employees are based on the conditions and level provided in the following documents: Labor Law of Vietnam, Labor Contract, Union Agreement, Financial Statue of the Bank and Group, Statute on bonus regulated by the Chairman, General Manager, Director on the basis of the Bank, Group's Financial Statute.

o. Principles and methods of recording current taxes, deferred taxes

Corporate income taxes for the year comprises current and deferred tax when profit or loss of one accounting period is determined.

NOTES TO THE FINANCIAL STATEMENTS**Quarter III Year 2025****Unit: VND million**

Current corporate income tax is the tax payable (or recoverable) on the taxable income and tax rate enacted in current year in accordance with the law on corporate income tax.

Deferred corporate income tax is provided for temporary on the date of balance sheet differences between the carrying amounts of assets and liabilities and book value financial reporting purposes and the amounts used for taxation purposes. Deferred income tax liability is provided for all temporary differences, deferred income tax asset is only provided when there is enough taxable profit in the future for deducting the temporary differences.

The carrying amount of deferred corporate income tax assets must be reassessed at each balance sheet date and reduced to the extent that it is certain that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax assets to be utilized. The unrecognized deferred tax assets will be reassessed at each balance sheet date and recognized to the extent that it has become certain sufficient taxable profit will allow the deferred tax asset to be utilized.

The deferred tax is charged or credited in the income statement except when it relates to items recognized directly to equity, in which case the deferred tax is also dealt with in equity.

The Bank offsets deferred tax assets and deferred tax liabilities only to the extent that it has a legally enforceable right to set off current tax assets against current tax liabilities and other assets. deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the same taxable entity and the enterprise intends to pay current tax liabilities and current tax assets on a net basis.

The tax amounts payable to the State budget will be finalized with the tax office. Differences between the tax amounts payable specified in the book and the tax amounts under finalization will be adjusted when the tax finalization has been issued by the tax office.

The bank has been inspected for tax finalization up to 2018.

p. Owners' equity

Chartered capital: The capital sourced from shares, securities purchased by members or shareholders or added from the profit after tax in accordance with the Resolution of annual shareholders' meeting or the Company's charter. Business fund will be recorded at the actual contributed capital by cash or assets computed at the par value in the early establishment period or additional mobilization to expand operation scale.

Treasury share is the share the Bank issued and purchased back. The payment for purchasing share, including directly attributable expenses, will be deducted into the owners' equity till the treasury share has been cancelled or reissued. The received amount from reissue or sale of the treasury share, deducting expenses related to the reissue or sale will be included in the owners' equity.

Principles for recognizing undistributed profit

Principle for recognizing undistributed profit: the undistributed profit is recorded as the profit (loss) from the Company's result of operation after deducting the current year corporate income tax and the adjusted items due to the retroactive application of changes in accounting policy and adjustments for material misstatement of the previous year.

The distributing of profit and fund appropriation are based on the charter of the Company approved by the annual shareholder meeting.

q. Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to the common stockholders of the Bank after setting aside the Bonus and Welfare Fund by the weighted average number of shares. popular circulation in the period. According to Circular 200/2014/TT-BTC basic earnings per share are not presented in the separate statement, only in the consolidated statement of the bank.
