Re: Explanation of profit variance  
Q4/2025 compared to Q4/2024

Da Nang, January 17, 2026

To: - State Securities Commission of Vietnam  
- Hanoi Stock Exchange

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance on periodic information disclosure by listed companies, which requires a specific explanation when corporate income tax profit after tax changes by 10% or more compared to the same period of the previous year.

VNECO.SSM Steel Structure Manufacturing Joint Stock Company hereby explains the profit after tax for the fourth quarter of 2025 compared to the fourth quarter of 2024 as follows:

The profit after tax in Q4/2025 recorded a loss of VND 5,925,174,161, compared to a loss of VND 254,773,717 in Q4/2024. The main reason for this variance is the increase and fluctuation in input raw material costs in 2025 compared to Q4/2024.

This factor adversely affected the profit after tax in Q4/2025 compared to the same period of the previous year.

Respectfully submitted.
