*Ho Chi Minh City, January 26, 2026*

*Re: Explanation of variance in Consolidated  
Profit After Tax in the 1st quarter of fiscal year  
2026 compared to the 1st quarter of the fiscal  
year 2025*

**TO: - THE STATE SECURITIES COMMISSION OF VIETNAM**  
**- HANOI STOCK EXCHANGE**

Hung Hau Agricultural Corporation (Stock Code: SJ1) hereby provides the following explanation for the variance in the Consolidated profit after tax:

The after-tax profit in the 1st quarter of fiscal year 2026 is VND 10,822,342,405 increased 56% compared to the same period in the fiscal year 2025 (equivalent to VND 3,893,709,907). The primary reasons are detailed as follows:

- Net revenue in the 1st quarter of fiscal year 2026 reached VND 532,041,910,998, decreased 23% compared to the same period in 2025 (equivalent to VND 160,955,265,491). Gross profit in the 1st quarter of fiscal year 2026 reached VND 49,536,040,734, increased 54% compared to the same period in 2025 (equivalent to VND 17,418,083,963).
- Financial income increased by VND 5,033,705,730, up 118% compared to the same period in 2025.
- Interest expenses increased by VND 6,964,401,064, up 56% compared to the same period in 2025.
- Selling expenses increased by VND 2,175,450,661, up 33% compared to the same period in 2025.
- General and administrative expenses increased by VND 2,617,577,502, up 33% compared to the same period in 2025.
- Current corporate income tax expenses increased by VND 1,680,431,330, up 85% over the same period in 2025.

The above is an explanation of the variance in profit after tax between the two reporting periods of Hung Hau Agricultural Corporation.

Best regards!

**2 ACCOUNTING PERIOD, CURRENCY UNIT USED IN ACCOUNTING****2.1 Accounting period**

The Company's fiscal year begins on October 01 and ends on September 30 of the following year.

**2.2 Currency unit**

The accounting currency unit is Vietnam Dong (VND).

**2.3 Accounting system**

The Company applies Vietnamese Enterprise Accounting system issued under the Circular no.200/2014/TT-BTC dated December 22, 2014, the Circular no.53/2016/TT-BTC dated March 21, 2016 amending and supplementing Circular no. 200/2014/2014/TT-BTC as well as accounting standards issued by the Ministry of Finance.

The Company applies Circular no. 202/2014/TT-BTC dated December 22, 2014 in preparing and presenting consolidated financial statements.

**2.4 Declaration on compliance with Accounting Standards and Accounting System**

The Board of General Directors ensure to follow all the requirements of the current Vietnamese Accounting standards and Vietnamese Enterprise Accounting system in preparing consolidated financial statement.

**2.5 Basis of consolidation****Subsidiaries**

A subsidiary is an entity controlled by the Parent Company. Control exists when the Parent Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of the subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The consolidated financial statements of the subsidiaries are prepared for the same accounting year and applied accounting policies consistently with the policies adopted by the parent company. Accounting policies have been changed where necessary to ensure consistency with the policies adopted by the Company.

**Joint venture, associate**

Associates are entities over whose financial and operating policies the Company has significant influence, but not control. Joint ventures are entities over whose activities the Company has joint control, established by contractual arrangement and requiring unanimous consent for strategic financial and operating decisions. Associates and joint ventures are accounted for under the equity method in the financial statements.

The investment is accounted for using the equity method from the date the investee becomes a joint venture or associate. On acquisition of the investment, the difference between the cost of the investment and the investor's interest in the fair value of the identifiable net assets of the investee is accounted for as follows:

- a. Goodwill on acquisitions of investments in associates is included in the book value of the investments. The Company does not amortise this goodwill.
- b. The difference between the investor's ownership in the fair value of the investee's identifiable net assets and the cost of the investment is immediately recognized as income when determining the investor's ownership in the results of operations of the joint venture or associate in accordance with the period of purchase of the investment.
- c. Adjustments to the investor's share of the results of operations of the joint venture or associate after the acquisition date must be made, for example, for impairment of fixed assets or depreciation of fixed assets based on the fair value of the fixed assets at the acquisition date.

Under the equity method, investments in associates are carried in the consolidated balance sheet at cost plus the Company's proportionate share of the Company's share of the associate's net assets. The consolidated income statement reflects the Company's proportionate share of the associate's results of operations. When items are recognized directly in the associate's equity accounts, the Company recognizes its proportionate share, as appropriate, in the Company's respective equity accounts.

The financial statements of the associates are prepared for the same accounting year and applied accounting policies consistently with the policies adopted by the parent company. Accounting policies have been changed where necessary to ensure consistency with the policies adopted by the Company.

**Transactions eliminated on consolidation**

Internal balances and all income and expenses arising from internal transactions are eliminated when preparing consolidated financial statements. Unrealized profits arising from internal transactions that are included in the value of assets (such as inventories, fixed assets, etc.) must be completely eliminated.

Unrealized losses arising from intragroup transactions are eliminated unless the cost is unrealizable. Unrealized gains arising from intragroup transactions with equity-accounted investees are eliminated against the investment in respect of interests in investees.

**2.6 Basis of preparation financial statements**

The consolidated financial statements are presented in Vietnamese Dong (VND), historical cost principle, and prepared in Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and statutory requirements.

**2.7 Estimates**

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

**2.8 Cash and cash equivalents**

Cash includes cash on hand, cash in transit and demand deposits.

Cash equivalents are short-term investments (for a period not exceeding 3 months) that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

**2.9 Principles of recognition of trade receivables and other receivables**

Receivables are trade receivables, advances to suppliers or receivables from other entities. Receivables are stated at book value less provision for doubtful debts when preparing consolidated financial statements, and are classified as:

- Having maturity not exceeding 1 year are classified as short - term assets.
- Having maturity exceeding 1 year are classified as long - term assets.

Provision for doubtful debts represents the estimated loss value of receivables that are likely to be uncollectible or insolvent at the date of preparing the consolidated financial statements.

**2.10 Accounting policies for inventories****Principles of inventory valuation**

Inventories are recorded at original cost. Cost of inventories comprises purchase costs, processing costs and other directly relevant costs that have been incurred in bringing the inventories to their present location and condition.

Where the net realizable value is lower than cost, inventories should be measured at the net realizable value.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to sell them.

**Cost of inventories at the end of the period are determined in accordance with method:** weighted average.

**Method of recording inventories:** perpetual method.

**Provision for devaluation of inventories:** Provision for devaluation of inventories is made at the end of the period as the difference between the original cost of inventories greater than their net realizable value.

**2.11 Recording and depreciation of tangible fixed assets****Method of recording and depreciation of tangible fixed assets**

Tangible fixed assets are stated at cost less accumulated depreciation. Cost of a tangible fixed asset is the amount of all expenses paid by the Company to acquire an asset at the time the asset is put into operation for its intended use.

The costs incurred after the initial recognition is only recorded an increase in the price of the fixed asset if these cost are sure to increase the economic benefits in the due to the use of that property. These costs do not satisfy the above conditions are recognized as an expense in the period.

When a fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain/(loss) arisen are posted into the income or the expenses during the period.

**Depreciation method of tangible fixed assets:** Tangible fixed assets are depreciated according to the straight line method based on the estimated useful time as follows:

<u>Type of fixed assets</u>	<u>Years</u>
- Buildings, structures	10 - 50 years
- Machines and equipment	03 - 20 years
- Means of transportations	04 - 08 years
- Equipment and management tools	03 - 08 years

## 2.12 Finance lease fixed assets

Leases asset is classified as finance lease if mostly the risks and rewards associated with ownership of the asset are with the lessee. Finance lease fixed assets are stated at cost less accumulated depreciation. The cost of a finance lease fixed asset is the lower of the fair value of the leased asset at the beginning of the lease agreement and the present value of the minimum lease payments. The discount rate used to calculate the present value of the minimum lease payment for the lease agreement is the interest rate implied in the lease agreement or the rate stated in the agreement. In case it is not possible to determine the implicit interest rate in the lease agreement, use the loan interest rate at the beginning of the lease.

Finance lease fixed asset are depreciated on a straight-line basis over their estimated useful time. In the unlikely event that the Company will acquire title to the assets at the end of the lease time, the fixed assets will be depreciated over the shorter of the lease time and the estimated useful time. Depreciation years of finance lease fixed asset are as follows:

<u>Type of fixed assets</u>	<u>Years</u>
- Machines and equipment	07 - 15 years
- Means of transportations	08 years

## 2.13 Intangible fixed assets

### **Land use rights**

Land use rights are all actual expenses spent by the Company directly related to the land to be used, including: money spent to acquire land use rights, expenses for compensation and site clearance, ground leveling, registration fees... Land use rights with indefinite are not depreciated.

Land use rights are the land rent that the Company pays once for many years and are granted a land use right certificate. The leased land use rights are depreciated over the land lease term (from 32 to 44 years).

### **Computer software**

Computer software is all expenses that the Company has spent up to the time of putting the software into use. Computer software is depreciated from 05 to 08 years.

## 2.14 Construction in progress

Construction in progress reflect costs directly related to the construction of the factory and the installation of unfinished machinery and equipment and not yet installed. Assets in the process of construction in progress and installation are not depreciated.

## 2.15 Financial investment

### **Investments held to maturity**

Investments held to maturity include investments that the Company has the intention and ability to hold to maturity, including: term deposits with banks (including all kinds of promissory notes, treasury bills), bonds, preferred shares that the issuer is required to re-buy them at a certain time in the future; loans held to maturity for the purpose of earning interest periodically and other investments held to maturity.

Investments held to maturity are recognized beginning on the date of purchase and are initially measured at the purchase price and expenses related to the investments purchase. Interest income from investments held to maturity after the purchase date is recognized in the income statement on an accrual basis. Interest income earned before the holding company is deducted from the original cost at the time of purchase.

Held-to-maturity investments are measured at cost less provisions for doubtful investments.

Provisions for held-to-maturity investments are made in accordance with current accounting regulations.

### **Investments in associates**

An associate is an entity in which the Company has significant influence and that is neither a subsidiary nor a joint venture of the Company. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

**Equity investments in other entities**

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control or significant influence.

Equity investments in other entities are carried at cost less provision for impairment of such investments.

**2.16 Borrowing costs**

Borrowing costs are recognized as an expense during the period. Where borrowing costs are directly related to the investment in construction or production of unfinished assets that require a sufficiently long period (more than 12 months), before they can be put into use for the predetermined purpose or sold. This borrowing cost is capitalized.

For general loans which are used for investment in construction or production of unfinished assets, the capitalized borrowing cost is determined to the capitalization rate to weighted average accumulated cost for the investment in capital construction or production of that asset. The capitalization rate is calculated using the weighted average interest rate on outstanding loans for the period, excluding separate loans for the purpose of forming a specific asset.

**2.17 Method of allocating of prepaid expenses**

Prepaid expenses related to the current fiscal year are recorded as operating expenses in the fiscal year.

The calculation and allocation of prepaid expenses to operating expenses for each accounting period must be based on nature and extent of each type of expenses to select appropriate method and criteria.

**2.18 Recognizing of payables and others payables**

Trade payables, advances from customers, other payables and loans at the reporting date, if:

- Having maturity not exceeding 1 year are classified as short - term liabilities;
- Having maturity exceeding 1 year are classified as long - term liabilities.

**2.19 Owner's capital**

**Contributed capital**

Capital contribution is stated at actually contributed capital of shareholders.

**Share capital surplus**

Share capital surplus is recorded according to the difference between the issue price and the par value of shares when initially issued, additional issues, the difference between the reissue price and the book value of treasury shares and the structure of shares capital portion of the convertible bond upon maturity. Direct costs related to the issuance of additional shares and re-issuance of treasury shares are recorded as a decrease in share capital surplus.

**Other capital**

Other capital is formed from additions from business results, reassessment of assets and the remaining value between the fair value of donated, donated or sponsored assets after deducting taxes payable (if any) related to these assets.

**Treasury shares**

When repurchasing shares issued by the Company, the payment, including transaction-related expenses, is recorded as treasury shares and is reflected as a deduction in equity. When re-issuing, the difference between the re-issue price and the book price of treasury shares is recorded in the item "Share capital surplus".

**2.20 Profit distribution**

Profit after corporate income tax is distributed to shareholders after funds have been appropriated according to the Company's Charter as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to shareholders takes into account non-monetary items in undistributed after-tax profits that may affect cash flow and the ability to pay dividends such as interest due to asset revaluation. Contribute capital and profits due to revaluation of monetary items, financial instruments and other non-monetary items.

Dividends are recorded as liabilities when approved by the General Meeting of Shareholders.

## 2.21 Revenue and income recognition

### Revenue from sale of goods

Revenue from sale of goods should be recognised when all the following conditions have been satisfied:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer;
- The Company retains neither continuing managerial involvement as a neither owner nor effective control over the goods sold;
- The amount of revenue can be measured reliably. When the contract prescribes that the buyer is entitled to return the service purchased under specific conditions, the enterprise may record revenue only when those specific conditions no longer exist and the buyer is not entitled to return the service provided (except where the customer has the right to return the goods in exchange for other goods or services);
- The economic benefits associated with the transaction of goods sold have flown or will flow to the Company;
- The costs incurred or to be incurred in respect of the transaction of goods sold can be measured reliably.

### Revenue from rendering of services

Revenue from rendering of services should be recognised when all the following conditions have been satisfied:

- The amount of revenue can be measured reliably. When the contract prescribes that the buyer is entitled to return the service purchased under specific conditions, the enterprise may record revenue only when those specific conditions no longer exist and the buyer is not entitled to return the service provided;
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The stage of completion of the transaction at the balance sheet date can be measured reliably;
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Where the service provision transaction is carried out over many accounting periods, turnover recognized in the accounting period shall be determined as a percentage of the completed work portion at the balance sheet date.

### Interest

Interests recognized on the basis of the actual time and interest rates in each period.

## 2.22 Borrowing costs

Borrowing costs include loan interest and other costs incurred directly related to the loans.

Borrowing costs are recognized as an expense during the period. Where borrowing costs are directly related to the investment in construction or production of unfinished assets that require a sufficiently long period (more than 12 months), before they can be put into use for the predetermined purpose or sold. This borrowing cost is capitalized. For specific loans for the construction of fixed assets and investment real estate, interest is capitalized even if the construction period is less than 12 months. Income arising from temporary investment of loans is recorded as a reduction in the historical cost of related fixed assets.

For general loans which are used for investment in construction or production of unfinished assets, the capitalized borrowing cost is determined to the capitalization rate to weighted average accumulated cost for the investment in capital construction or production of that asset. The capitalization rate is calculated using the weighted average interest rate on outstanding loans for the period, excluding separate loans for the purpose of forming a specific asset.

## 2.23 Costs

Costs are amounts reducing economic benefits, recorded at the time the transaction arises or shall be likely to arise in the future regardless of spending money or not.

Costs and revenues set up by it must be recorded simultaneously on the principle of conformity. In case, conformity principles may conflict with the precautionary principle, costs are recorded based on the nature and the accounting Standards to ensure transactions give true and fair view.

## 2.24 Corporate income taxes

### Current corporate income tax

Current income tax is calculated based on taxable income and tax rate for the year. Taxable income is different from accounting profit presented on the Income Statement due to adjustments to non-taxable income or non-deductible expenses and losses carried forward.

**Deferred corporate income tax**

Deferred income tax is determined on temporary differences between the book values and the tax base of assets and liabilities for financial reporting purposes. Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized only when it is probable that taxable profits will be available in the future against which these deductible temporary differences can be used.

**2.25 Related parties**

The party is considered as related party if one party has capacity to control or has significant impact to other party in the decision of financial and operation activities. All parties are recognized as related parties if having the same control or significant impact.

In the review of related parties, nature of the relationship is considered more than legal form.

**2.26 Segment reporting**

Business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of an enterprise that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements.

Payment for goods and services	3,773,180	

Related parties balances are presented in notes 5, 7, 8, 16 and 19.

**37 Segment reporting****Segment reporting by geographical area**

The Company's operations are mainly distributed domestically and for export.

Details of net revenue from sales and rendering of services by geographical area based on customer location are as follows:

	Current period	Previous period
Export	179,076,026,842	116,414,616,762
Domestic	352,965,884,156	576,582,559,727
<b>Total</b>	<b>532,041,910,998</b>	<b>692,997,176,489</b>

**Segment reporting by business area**

The Company's main business activities are the production and processing of seafood and agricultural products; therefore, segment reporting are not presented.

**38 The fair value of financial assets and liabilities**

The Company has not assessed fair value of its financial assets and liabilities as at the balance sheet date since there are no comprehensive guidance under Circular 210/2009/TT-BTC issued by the Ministry of Finance on 06 November 2009 ("Circular 210") and other relevant prevailing regulations to determine fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS.
