IV. ACCOUNTING POLICIES**1. Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, cash at bank and current investments for a period not exceeding 3 months or highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2. Financial investments***Held to maturity investments***

Held to maturity investments comprise term deposits.

Equity investments in other entities***Other investments***

Investments classified as other investments are investments other than investments in subsidiaries, investments in associates or investments on joint ventures.

Other investments are accounted for under the cost method which comprise purchase prices plus (+) acquisition related costs (if any). In case of investments of non-monetary assets, the cost of investments is recognised at the fair values of the assets as incurred.

Recognition principles of provisions for securities investment impairment loss***For equity investments in other entities***

As of the date of the financial statements, provisions for impairment losses on equity investments are recognised if an indication of impairment exists.

Provisions for impairment losses on equity investments in other entities are determined using fair values if the fair values can measure reliably. If the fair values cannot be measure reliably at the reporting date, provisions are measured on the basis of the investee's losses.

3. Account receivables**Recognition method**

Receivables are classified into trade receivables and other receivables based on the following rules: Trade receivables represent those arising from purchase and sale related transactions of goods, services or assets and the seller is independent of the buyer; the remaining receivables are classified as other receivables.

Account receivables are stated at the carrying amounts of trade receivables and other receivables less provisions for doubtful debts.

Provisions for doubtful debts

As of the date of the financial statements, provisions for doubtful debts are recognised for past-due accounts receivable and for accounts receivable where circumstances indicate that they might be uncollectible or for uncollectible debts due to liquidation, bankruptcy, or similar difficulties.

The difference between the required balance and the existing balance of provision for doubtful debts is recorded as a general and administrative expense in the income statement.

4. Inventories**Inventory measurement**

Industrial and urban real estate properties constructed for sale during the normal course of the Company's operations, not for lease or capital appreciation, are recognized as inventory at the lower of cost to bring each product to its present location and condition, and net realizable value.

The cost of real estate properties constructed for sale includes compensation costs, site clearance costs, road construction and drainage system costs, landscaping and other infrastructure costs, construction costs paid to contractors, design consultancy fees, and other related expenses.

Net realizable value is determined as the estimated selling price less the estimated costs of completion along with marketing, selling, and distribution expenses.

Method of accounting for inventories

Inventories are measured using the weighted average method and are recorded under the perpetual inventory method.

5. Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation.

Tangible fixed asset initial recognition

Tangible fixed assets are initially recognised at their cost. The cost of purchased tangible fixed assets comprises the purchase price and any directly attributable costs of bringing the assets to their present location and working condition for their intended use.

The costs of tangible fixed assets constructed by contractors are the finalised costs of the construction, other directly related expenses and the registration fee (if any).

The costs of fixed assets are depreciated on a straight-line method over their estimated useful lives.

The estimated useful lives are as follows:

▪ Buildings, structures	06 - 39 years
▪ Machinery and equipment	05 - 10 years
▪ Motor vehicles	05 - 30 years
▪ Management equipment and devices	04 - 10 years

6. Intangible fixed assets

Intangible fixed assets are measured at cost less accumulated amortisation.

Intangible fixed asset recognition

The cost of an intangible fixed asset comprises the total amount of expense incurred by the Company to acquire an asset at the time the asset is put into operation for its intended use.

Accounting principles for intangible fixed asset***Land use rights***

Land use rights are stated at their costs less accumulated amortisation, representing the value of land use rights in the Bien Hoa, Go Dau, and Xuan Loc industrial parks.

The land use rights are amortised using the straight-line method over the period of the right to use the land from 30 to 50 years.

Computer software

Computer software is not an indispensable component of hardware and is recognised as an intangible asset and depreciated over its useful life (02 - 04 years).

7. Leases***Lease classification***

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating leases

Lease payments under an operating lease are recognised as production and operating expenses on a straight-line basis over the lease term.

8. Leases**Operating leases**

Assets subject to operating leases are recognised in the statement of financial position according to the Company's asset classification pattern.

Initial direct costs to generate income from operating leases are recognised as expenses in the year as incurred or amortised over the lease term. Lease income from operating leases is recognised in the income statement on a straight-line basis over the lease term regardless of payment methods.

Depreciation of assets subject to operating leases is consistent with the depreciation policy of the lessor applicable to similar assets.

9. Investment property

Investment properties are measured at cost less accumulated depreciation.

Investment property initial recognition

An investment property is measured initially at its cost. The cost of an investment property is the amount of cash or cash equivalents paid or the fair value of other considerations given to acquire an asset at the time of its acquisition or construction. The costs include initial transaction charges.

Investment property depreciation

The cost of an investment property is depreciated on a straight-line method. Investment properties held for capital appreciation are not depreciated but subject to impairment review.

The estimated useful life of buildings, structures is 05 - 20 years.

10. Construction in progress

Properties in the course of construction for rental, or administrative purposes, or for other purposes are carried at cost. Cost includes necessary fees to acquire assets including related construction fees, equipment, other fees, and interest expense in accordance with the Company's accounting policy.

These expenses are temporarily measured as the original cost when the assets are put into use if the cost has yet to be approved.

11. Prepayments

Prepayments are classified as current and non-current based on their original term. Prepayments mainly comprise costs of tools and supplies, land rental prepayment, compensation costs for site clearance and infrastructure costs, which are amortised over the period for which they are paid or the period in which economic benefits are generated in relation to these expenses.

The following expenses are recognised as prepayments and amortised to the income statement:

- Tools and supplies are amortised to the income statement for no more than 03 years;

- Land rental prepayment represents the payment for industrial land rental with technical infrastructure leasing at Chau Duc industrial park and Tan Duc industrial park, State-leased land at Bien Hoa 2 industrial park, and the Go Dau industrial park. The land rental prepayments are amortised according to the lease term in the contract;
- Compensation costs for site clearance for the Thanh Phu industrial park are amortised on a straight-line basis over the remaining of the project;
- Industrial park infrastructure costs are costs related to the construction of Xuan Loc industrial park infrastructure which is handed over from Sonadezi Corporation for the infrastructure that the Company is using. These costs are amortised on a straight-line basis over the remaining of the project (45.5 years);
- Other prepaid expenses are amortised to the income statement for no more than 03 years.

12. Liabilities

Liabilities are classified into trade payables and other payables based on the following rules: Trade payables represent those arising from purchase and sale related transactions of goods, services or assets and the seller is independent of the buyer; the remaining payables are classified as other payables.

Liabilities are also classified according to the maturity date, the remaining term from the date of the financial statements, original currency, and each creditor.

Liabilities are recognised at no less than the payment obligation.

13. Accrued expenses

Accrued expenses represent expenses that will be paid in the future, including land rental of Go Dau industrial park and other payable expenses. The land rental of Go Dau industrial park is recorded based on information available at the end of the year and reasonable estimates of the amount payable.

14. Unearned revenues

Unearned revenues include advance payments from customers for one or more accounting periods for land leasing and industrial park premises usage fees.

Unearned revenues are periodically recognized and transferred into revenues in accordance with the lease term.

15. Owners' equity***The owners contributed equity***

The owners' contributed equity is recognised when contributed.

Share premiums

Share premiums are recognised as the difference between the issue price and the par value of shares, and the difference between the re-purchase price and the re-issue price of treasury shares.

Dividends

Dividends are recognised as a liability at the date of declaring dividends.

Reserves

Reserves are created at certain percentages of profit after tax as prescribed in the Company's charter. The allocation of funds is carried out in accordance with the annual Resolution of the General Meeting of Shareholders.

Retained earnings

Net profit after income tax can be distributed to shareholders after the distribution is approved by the General Meeting of Shareholders and reserves are created in accordance with the Company's Charter, resolutions of the General Meeting of Shareholders and legal regulations in Vietnam.

16. Revenue and other income***Revenue from transferring real estate***

Revenue from the transferring real estate is recognised when all 05 of the following conditions are satisfied:

- The Company has transferred risks and benefits associated with ownership of the real estate to the buyers;
- The Company no longer holds the right to manage the real estate as real estate's owners or the right to control the real estate;
- The turnover is determined reliably;
- The Company has received or will receive economic benefits from the sales of the real estate;
- Costs related to sales of the real estate may be determined.
