Hanoi, April 20th, 2026.

REPORT OF THE BOARD OF DIRECTORS ON THE 2025 OPERATIONS AND 2026 OPERATIONAL PLAN To: THE GENERAL MEETING OF SHAREHOLDERS

The Board of Directors (BOD) of SCI Joint Stock Company respectfully submits to the General Meeting of Shareholders this report encompassing the following contents:

1. The BOD's evaluation of the Company's operations;
2. The BOD's evaluation of the Board of Management's and the Audit Committee's operations;
3. Main activities of the BOD in 2025;
4. Operational orientations of the BOD. Specifically as follows:

1. The BOD's evaluation of operational aspects

In 2025, the overall economic situation was adversely impacted by prolonged geopolitical conflicts, notably the consequences of the Russia-Ukraine War and instability in the Middle East.

Particularly, the macroeconomic landscape for the renewable energy sector in Vietnam and Laos remains unfavorable due to numerous policy bottlenecks. Notably, power tariffs are not yet sufficiently attractive to investors, leading to slower-than-planned project implementation. This is an unfavorable period for enterprises operating primarily in the energy sector like SCI.

This significantly affected SCI's production and business plan in the past year. For the fiscal year 2025, SCI Joint Stock Company achieved a total production and business value of VND 1,131 billion; Revenue reached VND 1,520 billion, accounting for 75% of the annual target; Consolidated profit before tax stood at VND 136 billion (achieving 102% of the annual target). *(Details are presented in the General Director's report).*

Nevertheless, SCI Group has proactively adapted and gradually advanced in the right strategic direction, achieving several highlights in 2025 as follows:

- **Construction sector:** Ensured the progress and quality of the works the Company participated in, and enhanced competitiveness in bidding:
 - The construction of the Nam Mo 2 (120 MW) and Nam Sam 3A (45 MW) hydropower projects was vigorously executed to ensure project schedules.
 - Domestically, the Company participated in bidding and won the contracts for: Tri An Hydropower Plant Extension, Huong Phung 1 Wind Power Plant, and Doc Da Trang Industrial Park. All three projects are being implemented on schedule.

- **Construction consulting sector:** Remained fully proactive in consulting works for hydropower and wind power projects invested by the Company, as well as projects undertaken under the EPC contract model.
- **Project investment sector:** Actively sought investment opportunities for wind and hydropower projects domestically and internationally.
 - Obtained investor approval to implement the SCI Huong Viet Wind Power Plant (26 MW) and SCI Tan Thanh Wind Power Plant (30 MW) projects, and is currently executing investment deployment procedures. For other wind power projects/research zones, SCI continues to complete investment promotion procedures for the SCI Tan Thanh Wind Power Project Phase 2 (12 MW), SCI Ba Tang 1 (25 MW), and other potential projects.
 - **In Laos:** Continued to execute the contents signed in the Development Agreement for the project cluster with a capacity scale of 85 MW: Nam Khian 1 – 25 MW, Nam Khian 2 – 35 MW, Nam Khian 3 – 25 MW in Xieng Khouang province. Currently negotiating the Project Development Agreement for the 80 MW cluster: Nam Lan 1 (20 MW), Nam Lan 2 (10 MW), Lower Nam Neun (50 MW) in Xieng Khouang province. Concurrently, implementing procedures to apply for the in-principle approval for power purchase and other related legal procedures.

2. Main activities of the BOD in 2025 Supervision of the Board of Management's operations:

The BOD highly appreciates the efforts of the Board of Management, yielding commendable results, especially in profitability, amidst numerous difficulties and unpredictable fluctuations. The BOD's strategic decisions were decisively and firmly implemented by the Board of Management. The results achieved across all production and business sectors have maintained the right development trajectory, consolidating trust among partners, clients, and shareholders.

The Audit Committee successfully performed its duties in accordance with the regulations and its 2025 operational plan, providing timely advice and counsel to the BOD in corporate governance. *(For details, please refer to the Independent Report of the Audit Committee).*

In 2025, the BOD approved numerous crucial matters related to production and business operations as well as the consolidation of the operational apparatus of subsidiary companies. All meetings were fully attended by BOD members. The BOD approved several key resolutions as follows:

- Selected and approved the independent audit firm for the 2025 financial statements;
- Approved SCI Energy Co., Ltd. to contribute capital to establish SCI Viet Lao Joint Stock Company, and approved the transfer of the following projects from SCI Energy to SCI Viet Lao for management and investment execution: Nam Khian 1, 2, 3 hydropower cluster; Nam Lan 1, 2 hydropower; Lower Nam Neun hydropower; Nam Lan 3 hydropower; and the 220kV transmission line project connecting Nam Khian 1, 2, 3; Nam Lan 1, 2; Lower Nam Neun from Laos to Vietnam.

- Approved the transfer of the SCI Huong Viet and SCI Tan Thanh wind power plant projects to SCI Quang Tri Joint Stock Company for management and investment execution.
- Implemented the detailed plan for the share issuance to pay dividends pursuant to the Resolution of the 2025 Annual General Meeting of Shareholders.
- Approved and supervised the implementation of project investment activities and production & business operations of the Company.
- Passed other critical decisions.

During the corporate governance process, BOD members fully attended meetings in accordance with their functions and duties, and engaged in clear and specific discussions. Voting to pass BOD resolutions achieved high unanimous consensus; resolutions were promulgated promptly and implemented effectively in alignment with the Company's actual conditions.

(The BOD's resolutions are listed in the 2025 Corporate Governance Report, disclosed in accordance with regulations, and published on the Company's Website).

3. Operational Orientations of the BOD

Investment and Consulting are the two core operational pillars in the Company's business model, focusing primarily on Energy and Infrastructure. "Safety – Efficiency – Sustainable Development" is the overarching and consistent objective throughout SCI Group's operations.

In the coming time, the Company will proactively and actively seek investment and consulting opportunities in renewable energy, environment, and infrastructure; gradually reduce and terminate construction and installation operations at SCI Parent Company, and divest from the subsidiary SCI E&C.

- **Consulting activities:** Strongly promote team quality enhancement, apply new technologies and supporting software to further elevate consulting quality, and upgrade the SCI PMC brand to consistently ensure progress, quality, and optimal solutions for projects and works.
- **Investment activities:**
 - Research and promote investment in hydropower, wind power, and solar power projects in Vietnam and Laos;
 - Research and seek investment opportunities in the field of resort tourism combined with tourism services and real estate.
 - The implementation of investment projects will be executed as follows: SCI directly promotes, researches, and develops projects; upon completion, it transfers them to SCI Energy Company for direct management, and/or SCI Energy assigns them to a subsidiary in the project area for direct investment. If the project is in Laos, a local project company will be established to execute the project; the BOD shall decide on the establishment of/capital contribution to the subsidiary at an appropriate time and report to the General Meeting of Shareholders within its competence at the nearest meeting.

With existing advantages, solidarity, a high-quality and experienced workforce, and the accompanying trust of shareholders, the Company is gradually perfecting itself further to solidify its position domestically and regionally.

We respectfully submit this full report to the General Meeting of Shareholders for consideration and approval.

Sincerely thank you.
