NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

1. GENERAL INFORMATION

1.1 Ownership

Hoa Binh Construction Group Joint Stock Company (English name is Hoa Binh Construction Group Joint Stock Company and short name is HBCG) which is operating under Business Registration Certificate No. 0302158498 dated 01 December 2000 issued by Department of Planning and Investment of Ho Chi Minh City (currently the Ho Chi Minh City Department of Finance), the 38th amended on 08 August 2024.

The stock code of the Parent Company is HBC and has been listed on the Upcom under Decision No. 975/QD-SGDHCM dated 10 September 2024, issued by Hanoi Stock Exchange (before 10 September 2024, the Parent Company's shares were listed on the Ho Chi Minh City Stock Exchange (HOSE) under Listing License No. 80/UBCK-GPNY, issued by the State Securities Commission of Vietnam on 22 November 2006).

Charter capital of the Parent Company as at dated 01 Jan 2026 and at dated 31 March 2026 is VND 3,472,132,700,000.

The Parent Company's head office is located at No. 235 Vo Thi Sau, Xuan Hoa Ward, Ho Chi Minh City, Vietnam.

The Parent Company has a dependent representative office for accounting purposes located at Floor 21, No. 36 Hoang Cau, O Cho Dua Ward, Hanoi City, Vietnam.

The Group includes Hoa Binh Infrastructure Construction Investment Corporation (Parent Company) and its subsidiaries, associates, as presented in Notes I.6.

1.2 Scope of operating activities

The Company operates in the fields of construction, manufacturing and trading of building materials, and real estate business.

1.3 Line of business

The Company's business activities are: civil and industrial construction; land leveling; construction consulting; manufacturing

1.4 Normal business and production cycle

For construction and real estate business activities, which are carried out based on the construction and investment project implementation timelines, are dependent on the scale and technical characteristics of the project/work, the Company's typical production and business cycle for these activities exceeds 12 months..

1.5 Application of the Going Concern Assumption

As at 31 March 2026, the Company reported an accumulated loss of VND 557.967.429.736 (compared to VND 1.391.060.019.930 as at 31 March 2025). Additionally, the real estate market continues to be significantly affected by adverse domestic and international events, and the liquidity of real estate developers has notably declined, substantially impacting the Company's business operations and debt repayment cash flows. These indicators suggest the presence of material uncertainties that may cast significant doubt on the Company's ability to continue as going concern. However, the separate financial statements for the financial period ended 31 March 2026 have been prepared by the Board of General Directors on a going concern basis for the following reasons:

(i) Business plan and receivables recovery plan:

This year, the Company's business strategy focuses on further expanding markets both domestically and internationally. In addition to the potential projects the Company is involved in across various countries, it has commenced construction on two major infrastructure projects in Cambodia.

Simultaneously, the Company is enhancing its investment capacity, management, operation, and exploitation of social housing projects both domestically and internationally. The Company is also collaborating with several domestic investors to undertake renovation projects for apartment buildings and urban areas across multiple provinces and cities, including Ho Chi Minh City, Hanoi City, Hai Phong City, Phu Tho, Bac Ninh, Da Nang City, Lam Dong, Dong Nai, and others.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

The Company plans to intensify efforts to recover overdue receivables, particularly through effective measures such as resolving disputes via courts or arbitration. The recovery of receivables from projects implemented over the next 12 months and those completed in prior years is expected to generate significant cash flows to support the Company's business operations and debt repayments.

(ii) The Board of General Directors is confident that the Government will continue to introduce policies to alleviate difficulties in the real estate market, and the State Bank of Vietnam will soon approve the extension of the debt restructuring period and the maintenance of debt classifications to support struggling enterprises. The Company expects to reach agreements on restructuring its upcoming debt obligations and secure new credit facilities from financial institutions to meet its working capital needs for business operations.

Based on the aforementioned plans, the Board of General Directors has assessed and is confident that the Company will have sufficient working capital for its business operations and adequate cash flows to meet its due obligations over the next 12 months from the date of issuance of these separate financial statements. Accordingly, the Company's separate financial statements for the financial year ended 31 December 2025, have been prepared on a going concern basis.

The figures in the interim consolidated financial statements for the 03-month financial period ended 31 March 2026 are comparable to the prior period's corresponding figures.

2. THE FINANCIAL YEAR, ACCOUNTING CURRENCY

2.1 Financial period

From 01 January 2026 and ended 31 March 2026

2.2 Accounting currency

The accounting currency used is Vietnamese Dong ("VND") as the majority of receipts and payments are conducted in VND.

3. APPLICABLE ACCOUNTING STANDARDS AND APPLICATION

3.1 Applicable Accounting Standards

The Company applied Vietnamese Accounting Standards, Circular No. 99/2025/TT-BTC dated 27 October 2025 and other circulars providing guidance on implementation of accounting standards of the Ministry of Finance relevant to preparation and presentation of the separate financial statements.

3.2 Comply with the Vietnamese Accounting Standards and Vietnamese Accounting System

The Board of General Directors confirmed that it has complied with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System in Circular No. 99/2025/TT-BTC dated 27 October 2025 and other circulars providing guidance on implementation of accounting standards of the Ministry of Finance relevant to preparation and presentation of the financial statements.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of preparation the separate financial statements

The separate financial statements are prepared on the accrual basic (except for information relating to cash flow).

4.2 Foreign currency transactions

All transactions denominated in foreign currencies which arise during the period (trading foreign currencies, capital contribution or receipt of contributed capital, recording receivables and payables, purchasing assets or costs immediately paid by foreign currencies) are converted at the actual exchange rates ruling as of the transaction dates.

Closing balance of monetary items (cash, cash equivalents, payables and receivables, except for prepayments to suppliers, prepayments from customers, pre-paid expenses, deposits and unearned revenue) denominated in foreign currencies should be revaluated at the actual rate ruling as of the balance sheet date:

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

- For asset accounts, applying bid rates of commercial banks where the Company regularly conducts transaction;
- For liability accounts, applying offer rates of commercial banks where the Company regularly conducts transactions.

Foreign exchange differences, which arise from foreign currency transactions during the period, shall be included in the income statement. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included in the income statement.

4.3 Cash and cash equivalents

Cash comprises cash on hand, cash in bank (demand deposits). Cash equivalents are short-term highly liquid investments with an original maturity of less than three months from the investment date that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value at the balance sheet date.

4.4 Financial investments

Short-term and long-term investments are presented at cost less any provision for impairment of investments (if any).

A provision for impairment of investments is established when the market value of an investment falls below its cost or if the investee company incurs a loss. The provision is reversed when there is a subsequent increase in the recoverable value due to an objective event occurring after the provision has been recognized. Increases or decreases in the provision account balance are recorded as financial expenses in the Income Statement.

Held-to-maturity investment

Investments are classified as held-to-maturity when the Company has the intention and ability to hold them until maturity. Held-to-maturity investments include: term bank deposits and loans held to maturity with the purpose of earning periodic interest.

Loan receivables

Loans are the amounts granted according to contracts and agreements signed between the two parties for the purpose of periodically collecting interests and recorded at the original cost less provision for doubtful debts

The provision for doubtful debts is made on the basis of the estimates on the loss due to overdue, undue debts that are unlikely to be recovered because of the insolvency.

Financial investments in Subsidiaries, Joint-venture and Associates

Subsidiaries are controlled by the Company. The control is obtained when the Company has the ability to control the financial and operating policies of the investee enterprise so as to obtain economic benefits from the operation of this enterprise.

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee enterprise but not control or joint control over those policies.

Investments in subsidiaries, joint-ventures and associates are initially recognized at initial cost, including purchase price or capital contributions plus costs directly attributable to the acquisition. In case of investment in non-monetary assets, the cost of the investment is recognized at the fair value of non-monetary assets at arise.

Dividends and profits from previous period of the investments before purchase are accounted for the decrease in value of the investments. Dividends and profits of the following period are after purchase is recognized in revenue. Dividends received by shares are only followed up by the number of shares increases without recognizing the value of shares

Provision for diminution in value of long-term investments in subsidiaries, joint-ventures and associates are made when a subsidiary, joint venture, association get loss at the level of appropriation equivalent to the difference between on subsidiaries, joint ventures, associates' actual investment capital at economic organization and actual equity capital of economic organization multiplying the capital contribution rate of the Company in comparison with in subsidiaries, joint ventures, associates' actual investment capital at economic organization. If the subsidiaries, joint ventures and associates are the object up to present the Consolidated financial statements, the basis for determining loss is the Consolidated financial statements.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

Increase or decrease in provision for diminution in value of long-term investments of subsidiaries, joint ventures, associates have recorded on the reporting date, and is recognized in the financial expenses.

Investments in other entities

The carrying value of investments in other entities is determined at cost. Cost includes the actual purchase price of the investment and any costs directly attributable to the acquisition of the investment (if any).

A provision for impairment of investments in other entities is recognized when the estimated recoverable amount is lower than the carrying amount of the investment, based on the financial position and operating results of the investee. The impairment assessment is primarily based on the separate financial statements of the investee at the reporting date.

4.5 Accounting principles for receivables

Receivables are presented at their carrying amount less the allowance for doubtful debts.

The provision for doubtful debts represents the estimated loss due to non-payment arising on receivables that were outstanding at the balance sheet date. Increases and decreases to the provision balance are recognised as general and administration expense in the income statement.

The classification of receivables is trade receivables and other receivables, which is complied with the following principles:

- Trade receivables reflect the nature of the receivables arising from commercial transactions with purchase - sales between the Company and buyer (an independent unit against the Company).
- Other receivables reflect the nature of the receivables arising from non-commercial transactions, and not to be related to the purchase – sales transactions.

4.6 Accounting principles for inventories

Inventories are stated at the lower of cost and net realizable value.

Inventories are initially recognized at cost, which includes purchase costs, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Subsequent to initial recognition, at the reporting date, if the net realizable value of inventories is lower than their cost, inventories are measured at net realizable value.

Net realizable value is estimated based on the estimated selling price of inventories in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Net realizable value represents the estimated selling price of inventories in the ordinary course of business, based on market prices at the reporting date less estimated costs of completion and estimated selling expenses.

The cost of real estate sold is recognized in the consolidated statement of profit or loss using the specific identification method.

Inventory valuation method: First-in, first-out (FIFO).

Inventory accounting method: Perpetual inventory method.

Work in progress represents costs accumulated for construction works that are not yet completed or for which revenue has not yet been recognized, corresponding to the portion of work in progress at the end of the period.

A provision for inventory is established for the anticipated loss in value due to the impairment of materials, finished goods, and merchandise inventories owned by the Company, which may occur (due to price reductions, quality deterioration, obsolescence, etc.), based on reasonable evidence of impairment at the end of the fiscal year. Any increases or decreases in this provision are recognized as part of the cost of goods sold in the Income statement

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

4.7 Accounting principles and depreciation for tangible fixed assets, intangible fixed assets, finance lease assets

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The historical cost of tangible fixed assets includes all the expenses that the Company incurs to get fixed assets by the time the asset is put into a state ready for use. Costs incurred after initial recognition is only recorded as increase in cost of fixed assets if these costs are sure to increase economic benefits in the future by using these assets. The costs incurred are not satisfied conditions are recognized as an expense in the year.

When an asset is sold or disposed of, its cost and accumulated depreciation are derecognized from the financial statements, and any resulting gain or loss on disposal is recognized in the statement of profit or loss.

Depreciation of tangible fixed assets is calculated using the straight-line method over the estimated useful lives of the assets as follows:

- Buildings and structures: 05 – 50 years
- Machinery and equipment: 03 – 12 years
- Vehicles and transmission equipment: 08 – 10 years
- Office equipment: 05 – 08 years

Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortization.

The initial cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Costs relating to intangible assets incurred after initial recognition are recognized to the income statement, except for costs which are related to the specific intangible assets and increase benefits economic from these assets.

When an intangible fixed asset is sold or disposed of, its cost and accumulated amortization are derecognized, and any resulting gain or loss on disposal is recognized as income or expense in the period.

The Company's intangible fixed assets include:

Computer software

The purchase cost of computer software that is not an integral part of the related hardware is capitalized.

Initial cost of computer software includes all the expenses paid until the date the software is put into use.

Computer software is amortized using the straight-line method over a period of 03 – 06 years.

Land use rights

Land use rights represent the total actual costs incurred by the Company directly related to the land in use, including: expenses paid to acquire land use rights, compensation costs, site clearance costs, land leveling costs, registration fees, and other related expenses.

Land use rights with indefinite term are not amortized.

Other intangible fixed assets

Other intangible assets are amortized using the straight-line method over 05 years.

4.8 Accounting principles for construction in progress

Construction in progress presents the directly expenses related to the Company's assets which are in the status of the building, machinery in the status of assembling for manufacturing, leasing and managing as well as expenses related to repairing fixed assets (including interest expenses suitable for relevant accounting policies of the Company). Those assets are stated at cost and are not allowed to depreciate.

4.9 Accounting principles for prepaid expenses

Prepaid expenses represent actual expenses incurred but relating to the results of production and business activities of multiple accounting periods. The Company's prepaid expenses include the following:

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

Tools and instruments

Tools and instruments that have been put into use are allocated to expenses using the straight-line method over a period of 06 to 24 months.

Prepaid land rental

Prepaid land rental represents land rental paid for the land currently used by the Company. Prepaid land rental is allocated to expenses using the straight-line method corresponding to the land lease term.

Other prepaid expenses

Bank guarantee fees and insurance expenses are allocated based on the duration of each guarantee or insurance contract.

Other prepaid expenses are recognized at cost and are allocated using the straight-line method over their estimated useful lives.

4.10 Accounting principles for trade payables

Trade payables are recognized for amounts payable to suppliers arising from the purchase of goods, services or assets. These payables are classified as current or non-current liabilities based on the remaining payment term at the reporting date.

Trade payables are monitored in detail by each supplier, and are managed based on the contractual payment terms, remaining payment period at the reporting date, and by currency denomination for foreign-currency payables.

Trade payables that are monetary items denominated in foreign currencies are retranslated at the reporting date. The exchange rate used for retranslation is the selling exchange rate of the commercial bank where the enterprise regularly conducts transactions at the reporting date. Exchange differences arising are recognized as financial income or financial expenses during the period.

Trade payables are recognized based on the actual payment obligation and are not recorded at amounts lower than the payable obligation at the reporting date.

4.11 Accounting principles for accrued expenses

Accrued expenses represent amounts payable for goods and services received from suppliers or provided to customers but not yet paid due to the absence of invoices or insufficient accounting documentation, as well as amounts payable to employees for accrued leave, salaries and other expenses that need to be accrued for production and business activities.

Accrued expenses are recognized based on reasonable estimates of the amounts payable.

4.12 Accounting principles for deferred revenue

Deferred revenue arises when the Company receives advance payments from customers while the obligation to deliver goods or services has not yet been fulfilled at the reporting date. Such amounts are recognized as unearned revenue and are allocated to revenue over the relevant periods, typically using the straight-line method over the contract period or based on the stage of completion of the performance obligation.

4.13 Accounting principles for provisions

Provisions are recognized only when the following conditions are satisfied:

- The Company has A present debt obligation (legal obligation or joint obligation) as A result of past events
- It is probable that an outflow of economic benefits will be required to settle the obligation; and
- A reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the financial period.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

Provisions are recognized in production and business expenses of the financial year. Any difference between the provision recognized in prior years that remains unused and the provision required in the current year is reversed to reduce operating expenses during the year, except for excess provisions related to construction warranty, which are reversed to other income in the financial period.

Provision for construction warranty

Provision for construction warranty is recognized at 0.5% of revenue generated during the period.

Provision for severance allowance

In accordance with the Vietnamese Labour Code, employees of the Company who have worked regularly for 12 months or more are entitled to a severance allowance. The working period used to calculate severance allowance is the total period the employee has actually worked for the Company, excluding the period during which the employee participated in unemployment insurance in accordance with legal regulations and any period for which the Company has already paid severance allowance.

Severance allowance is accrued at the end of each financial year at a rate equal to one-half of the employee's average monthly salary for each year of service. The average monthly salary used for calculation is based on the average salary of the six most recent months prior to the end of the financial year. This accrued amount is used for one-time payment when the employee terminates the labour contract in accordance with prevailing regulations.

4.14 Accounting principles for recognition and capitalization of borrowing costs

The value of borrowings represents the total amount borrowed from banks, financial institutions, finance companies and other parties (excluding borrowings in the form of bond issuances or preferred shares with mandatory redemption terms at a specified future date).

Borrowings are monitored in detail by each lender, each loan agreement and each type of borrowing asset.

Recognition of borrowing costs

Interest expenses and other costs incurred that are directly attributable to the Company borrowings are recognized as production and operating expenses in the period, except where such costs are directly attributable to the acquisition, construction or production of qualifying assets, in which case they are capitalized as part of the cost of those assets, provided that the conditions stipulated in Vietnamese Accounting Standard No. 16 – Borrowing Costs are satisfied.

4.15 Accounting principles for ordinary bonds

The Company issues ordinary bonds for long-term borrowing purposes.

The carrying amount of ordinary bonds is presented on a net basis, being the par value of the bonds less issuance costs.

Bond issuance costs are amortized over the term of the bonds using the straight-line method and recognized as finance costs. At initial recognition, bond issuance costs are deducted from the principal amount of the bonds. Subsequently, the issuance costs are amortized periodically by increasing the carrying amount of the bond liability and recognizing the corresponding amount as finance costs, consistent with the recognition of bond interest expenses.

4.16 Accounting principles for equity

Contributed capital

Owner's equity is recorded according to the amount actually invested by shareholders

Share premium

Share premium represents the excess of the share issuance price over the par value, after deducting share issuance costs in accordance with regulations.

Foreign exchange differences

Foreign exchange differences arise from fluctuations in exchange rates when revaluing monetary items denominated in foreign currencies or when settling transactions in foreign currencies, in accordance with the applicable accounting standards and accounting regulations.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

Development investment fund

The development investment fund is appropriated from after-tax profits in accordance with the resolution of the General Meeting of Shareholders or the decision of the owner, and is used for the purpose of expanding production and business activities in accordance with regulations.

Retained earnings

Retained earnings represent the accumulated after-tax profits from the Company's production and business activities after deducting amounts distributed to owners and appropriations to funds in accordance with regulations.

Principles for profit and dividend distribution

After-tax profits are distributed to shareholders after appropriations to funds as required by the Company's Charter and applicable laws, and subject to approval by the General Meeting of Shareholders.

The distribution of profits to shareholders also considers non-cash items included in retained earnings that may affect cash flows and the Company's ability to pay dividends, such as gains from the revaluation of assets contributed as capital, gains from the revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recognized as a liability when they are approved by the General Meeting of Shareholders.

4.17 Principles and methods for recognition of revenue and other income

Revenue from sale of goods and finished products

Revenue from the sale of goods and finished products is recognized when all five (5) of the following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably. When contracts define that buyers are entitled to return products, goods purchased under specific conditions, the Company shall only record turnovers if such specific conditions no longer exist and buyers are not entitled to return products, goods (unless the customer is entitled to return the goods under the form of exchange for other goods or services).
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from rendering of services

Revenue from services is recognized when all four (4) of the following conditions are satisfied:

- Revenue can be measured reliably. If the contract allows the buyer to return services already provided under certain conditions, revenue is recognized only when those conditions no longer exist and the buyer no longer has the right to return the service;
- It is probable that the economic benefits associated with the transaction will flow to the company
- The stage of completion of the transaction at the balance sheet date can be determined reliably;
- The costs incurred and the costs to complete the service transaction can be measured reliably.

Construction revenue

For the construction contracts specifying that the contractor will receive payments according to the completed work, where the outcome of a construction contract can be determined reliably and accepted by the customers, revenue and costs are recognised by reference to the stage of completion of the contract activity at the balance sheet date which is certified by the customers. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

Difference between the cumulative revenue of a construction contract recognised to date and the cumulative amount of progress billings of that contract is presented as construction contractor receivable based on agreed progress billings in the balance sheet.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the year in which they are incurred.

Financial income

Interest income

Interest income is recognized on an accrual basis, determined based on the balances of bank deposits and the applicable interest rates for each period.

Dividends and profit distributions

Dividends and profit distributions are recognized when the shareholders obtain the right to receive dividends or when investors obtain the right to receive profits arising from their capital contributions.

Other income

Other income includes: gains from the disposal or liquidation of fixed assets; penalties received from customers for breach of contracts; customer bonuses related to the sale of goods, products or services that are not included in revenue; and other miscellaneous income.

4.18 Accounting principles for revenue deductions

Revenue deductions arising from the sale of goods and rendering of services during the year include trade discounts and sales allowances.

Trade discounts arising in the same year as the sale of goods, products or services are deducted from the revenue of the period in which they arise. If goods, products or services were sold in prior years but revenue deductions arise in subsequent years, the Company accounts for such deductions as follows: If the deductions arise before the issuance date of the financial statements, revenue is reduced in the financial statements of the reporting year (the prior year); and If the deductions arise after the issuance date of the financial statements, revenue is reduced in the period in which the deductions arise (the subsequent year).

4.19 Accounting principles for cost of sales

Cost of sales and services rendered represent the total costs incurred for finished goods, merchandise, materials sold and services provided to customers during the period, which are recognized as cost of sales or deducted from cost of sales in the reporting period. Cost of sales is recognized when the transaction occurs or when it is reasonably certain that such costs will be incurred in the future, regardless of whether payment has been made. Cost of sales and revenue are recognized simultaneously in accordance with the matching principle. Costs exceeding normal levels of consumption are recognized immediately in cost of sales in accordance with the prudence principle.

4.20 Accounting principles for finance costs

Finance costs include expenses or losses related to financial investment activities, borrowing costs, costs related to investments in joint ventures and associates, provisions for impairment of financial investments, and other finance costs.

Finance costs are recognized separately for each category of expense when incurred during the period, provided that they can be measured reliably and supported by adequate documentation evidencing such costs.

4.21 Accounting principles for selling expenses and general and administrative expenses

Selling expenses and general and administrative expenses are recognized in accordance with the matching principle between revenue and expenses, reflecting all actual costs incurred in relation to sales activities and corporate management during the accounting period, regardless of the timing of payment.

Adjustments reducing selling expenses and general and administrative expenses include:

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

- Reversal of expenses previously recognized when the obligation to settle such expenses no longer exists;
- Reductions in expenses due to reimbursements received from third parties;
- Reversal of provisions related to selling expenses or general and administrative expenses when such provisions are no longer required; and
- Other adjustments reducing expenses in accordance with the prevailing accounting regulations.

Provisions are recognized when:

- The enterprise has a present obligation arising from past events;
- It is probable that an outflow of resources will be required to settle the obligation; and
- The amount of the obligation can be estimated reliably.

Allowance for doubtful receivables

An allowance for doubtful receivables is established for receivables that may be uncollectible, based on the aging of receivables and the debtor's ability to settle the outstanding amounts, in accordance with prevailing regulations.

Provision for warranties of products, goods and construction works

A warranty provision is recognized for warranty obligations relating to products, goods or construction works that have been sold or delivered, based on the estimated costs required to fulfill the warranty obligations under contractual terms or based on the Company's historical experience.

4.22 Accounting principles for disposal and liquidation of fixed assets and investment properties

When fixed assets or investment properties are disposed of or liquidated, the cost and accumulated depreciation of the assets are derecognized. Any gain or loss arising from the disposal is determined as the difference between the net proceeds from disposal (after deducting related expenses) and the carrying amount of the asset, and is recognized in profit or loss for the period.

4.23. Principles and methods for recognizing corporate income tax expense (including additional corporate income tax under the global minimum tax regulations) and deferred corporate income tax

Corporate income tax expense comprises current corporate income tax and deferred corporate income tax.

Current income tax

Current income tax represents the amount of tax calculated based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between accounting and tax regulations, non-deductible expenses, non-taxable income and tax losses carried forward.

Deferred income tax

Deferred income tax represents the amount of corporate income tax payable or recoverable in future periods arising from temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their corresponding tax bases. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred income tax assets is reviewed at the end of each financial year and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets that have not been previously recognized are reassessed at the end of each financial year and are recognized to the extent that it has become probable that future taxable profit will allow the deferred income tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates expected to apply in the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred income tax is recognized in the statement of profit or loss, except to the extent that it relates to items recognized directly in equity, in which case the deferred tax is also recognized directly in equity.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the three-month period from 1 January 2026 to 31 March 2026

Deferred tax assets and deferred tax liabilities are offset when:

- The Company has a legally enforceable right to offset current tax assets against current tax liabilities; and
- The deferred tax assets and deferred tax liabilities relate to corporate income tax levied by the same tax authority;
- On the same taxable entity; or
- The Company intends to settle current income tax liabilities and current income tax assets on a net basis, or to realize the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or deferred tax assets are expected to be settled or recovered.

4.24 Earnings per share

Basic earnings per share are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund and allowance for the Board of Management) by the weighted average number of ordinary shares outstanding during the period.

4.25 Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

4.26 Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

Total	1,008,079,668,538	1,095,882,889,804

8. Other information

8.1 Segment reporting

Segment information is presented by business lines and geographical areas. The primary segment reporting is based on geographical areas in line with the Company's organizational and internal management structure as well as its internal financial reporting system.

The Company does not present segment reporting in the separate financial statements because the Board of General Directors has assessed and concluded that the Company is currently engaged primarily in construction activities, which are concentrated within the territory of Vietnam.

8.2 Events subsequent to the separate balance sheet date

There have been no significant events occurring after the separate balance sheet date, which would require adjustments or disclosures to be made in the separate financial statements.
