III. ACCOUNTING STANDARDS AND SYSTEM

1. Accounting System

The Group applies the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 43/2026/TT-BTC dated 20 April 2026, the Circular No. 43/2026/TT-BTC dated 20 April 2026 amending and supplementing a number of articles of the Circular No. 202/2014/TT-BTC dated 22 December 2014 guiding the preparation and presentation of the Consolidated Financial Statements as well as other Circulars guiding the implementation of the Accounting Standards of the Ministry of Finance in preparation and presentation of the Consolidated Financial Statements.

2. Statement of the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 43/2026/TT-BTC dated 20 April 2026, the Circular No. 43/2026/TT-BTC dated 20 April 2026 amending and supplementing a number of articles of the Circular the Circular No. 202/2014/TT-BTC dated 22 December 2014 as well as other Circulars guiding the implementation of the Accounting Standards of the Ministry of Finance in preparation and presentation of the Consolidated Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Consolidated Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Consolidation bases

The Consolidated Financial Statements include the Financial Statements of the Parent Company and those of its subsidiary. A subsidiary is an enterprise that is controlled by the Parent Company. The control exists when the Parent Company has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right arising from options or debt and capital instruments that can be converted into common shares as of the balance sheet date should also be taken into consideration.

The financial performance of subsidiaries, which is bought or sold during the period, are included in the Consolidated Income Statement from the date of acquisition or until the date of selling investments in that subsidiary.

The Financial Statements of the Parent Company and those of subsidiary used for consolidation are prepared in the same accounting period and apply consistently accounting policies to the same types of transactions and events in similar circumstances. In the case that the accounting policy of a subsidiary is different from the accounting policy applied consistently in the Group, the Financial Statements of that subsidiary will be properly adjusted before being used for the preparation of the Consolidated Financial Statements.

Intra-group balances in the Balance Sheet and intra-group transactions and unrealized profits resulting from these transactions must be completely eliminated. Unrealized losses resulting from intra-group transactions are also eliminated unless costs cannot be recovered.

CONSOLIDATED FINANCIAL STATEMENTS

For the 1st Quarter of 2026 from January 1st, 2026 to 31st March 2026

Notes to the Consolidated Financial Statements (cont.)

Benefits of non-controlling shareholders reflect profit or loss and net assets of subsidiary, which are not held by the Group and presented in a separate item of the Consolidated Income Statement and Consolidated Balance Sheet (classified under "Owner's equity"). Benefits of non-controlling shareholders include the values of their non-controlling benefits at the initial date of business combination and those arise within the ranges of changes in owner's equity from the date of business combination. The losses arising in the subsidiary are attributed equally to the ownership rate of non-controlling shareholders, even if such losses are higher than the interest owned by these shareholders in net assets of the subsidiary.

3. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the period shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Group and the Bank.
- For receivables: the buying rate ruling as at the time of transaction of the commercial bank where the Group designates the customers to make payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the Group supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Group makes payments.

The exchange rates used to re-evaluate the ending balances of monetary items in foreign currencies are determined according to the following principles:

- For foreign currency deposits: the buying rate of the bank where the Group frequently conducts transactions.
- For monetary items in foreign currencies classified as other assets: the buying rate of the bank where the Group frequently conducts transactions.
- For monetary items in foreign currencies classified as liabilities: the selling rate of the bank where the Group frequently conducts transactions.

4. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

5. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Group intends and is able to hold to maturity. Held-to-maturity investments of the Group include term deposits and held-to-maturity bonds for the purpose of receiving periodical interest.

Held-to-maturity investments are initially recognized at cost. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interests arising prior to the Group's acquisition of held-to-maturity investments are recorded as a decrease in the costs as at the acquisition time.

When there are reliable evidences proving that a part or the whole investment cannot be recovered and the loss is reliably determined, the loss is recognized as financial expenses during the period while the investment value is derecognized.

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Group to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase or capital contributions plus other directly attributable transaction costs. Values of these investments are derecognized for dividends and profits arising in the periods prior to the acquisition of such investments. Dividends and profit arising in the periods after the acquisition of investments are recorded into the revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity of shares is followed up.

Provisions for impairment of investments in equity instruments of other entities are made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provisions are made on the basis of the market value of shares.
- For investments of which the fair value cannot be measured at the time of reporting, provisions are made on the basis of the losses suffered by investees, at the rate equal to the difference between the actual capital invested by owners and the owner's equity as of the balance sheet date multiplying (x) by the Group's rate of charter capital over the total actual charter capital invested in these investees.

Increases/(decreases) in the provisions for impairment of investments in equity instruments of other entities as of the balance sheet date are recorded into financial expenses.

6. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Group and customers who are independent to the Group.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of estimated loss.

CONSOLIDATED FINANCIAL STATEMENTS

For the 1st Quarter of 2026 from January 1st, 2026 to 31st March 2026

Notes to the Consolidated Financial Statements (cont.)

Increases/decreases in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into general and administration expenses.

7. Inventories

Inventories are recognized at the lower of cost or net realizable value.

The Group's inventories are the costs incurred for service performance relevant to contracts on supplying equipment and materials for petroleum projects, equipment for the aviation industry, petrol depots and ongoing telecommunications equipment supply projects, including costs of main materials, labor and other directly relevant costs.

Net realizable value is the estimated revenue of each contract less the estimated costs for service completion.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/decreases in the obligatory allowance for inventories as of the balance sheet date are recorded into costs of sales.

8. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Group mainly include repair and maintenance expenses, expenses of tools and prepaid land rental. These prepaid expenses are allocated over the prepayment period or period of corresponding economic benefits generated from these expenses.

9. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the Group's operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

10. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Group to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	05 - 46
Machinery and equipment	03 - 05
Vehicles	04 - 10
Office equipment	03 - 05
Other tangible fixed assets	04

Notes to the Consolidated Financial Statements (cont.)

11. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Group to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

The Group's intangible fixed asset includes:

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Group until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 3 years.

12. Business combination and goodwill

The business combination is accounted by applying acquisition method. The costs of business combination include the fair values as at the acquisition date of the exchanged assets, the incurred or assumed liabilities as well as the equity instruments issued by the Group in exchange for control of the acquiree, plus any cost directly attributable to the business combination. The acquired assets, the identifiable and contingent liabilities assumed from the business combination are recognized at their fair values as at the acquisition date.

If the business combination covers some accounting periods, the cost of business combination equals the total investment made at the date of obtaining the control of subsidiaries plus the amount of previous investments which are re-evaluated at fair value as at the date of obtaining the control of subsidiaries. The difference between the re-evaluated amount and the cost of investment shall be recorded in the financial performance provided that the Group does not have any significant influence on subsidiaries prior the date of obtaining the control and the investment in subsidiaries is presented in line with the cost method. In case where the Group has significant influence on the subsidiaries prior the date of obtaining the control the investment in subsidiaries is presented in line with the equity method, the difference between the re-evaluated amount and the cost of investment determined in line with the equity method shall be recorded in the financial performance; and the difference between the investment determined in line with the equity method and the cost of investment shall be directly recorded in "Retained earnings" of the Consolidated Balance Sheet.

The excess of the cost of business combination over the ownership share of the Group in the net fair value of the assets, the identifiable and contingent liabilities of acquiree which are recognized at the date obtaining the control of subsidiaries is recognized as goodwill. If the ownership share of the Group in the net fair value of the assets, the identifiable and contingent liabilities of acquiree which are recognized at the date of obtaining the control of subsidiaries exceeds the cost of business combination, the difference will be included in the financial performance.

The benefit of non-controlling shareholders as at the date of business combination is initially measured on the basis of the ownership share of non-controlling shareholders in the fair values of the assets, the liabilities and the inherent liabilities recognized.

13. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Group.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Consolidated Balance Sheet on the basis of their remaining term as of the balance sheet date.

14. Capital

Capital is recorded according to the actual amounts invested by shareholders of the Parent Company.

15. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Group companies as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

16. Recognition of sales and income

Sales of merchandises

Sales of merchandises shall be recognized when all of the following conditions are satisfied:

- The Group transfers most of risks and benefits incident to the ownership of products or merchandises to customers.
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandises sold.
- The amount of sales can be measured reliably. When the contracts stipulate that buyers have the right to return products, merchandises purchased under specific conditions, sales are recorded only when those specific conditions are no longer exist and buyers retains no right to return products, merchandises (except for the case that such returns are in exchange for other goods or services).
- The Group received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Notes to the Consolidated Financial Statements (cont.)

Sales of service provision

Sales of service provision shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services provided.
- The Group received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of sales is done on the basis of the volume of work done as of the balance sheet date.

Income from leasing operating assets

Income from leasing operating assets is recognized in accordance with the straight-line method during the lease term. Rentals received in advance for several periods are allocated to revenues in consistence with the lease term.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividends and profit shared

Dividends and profit shared are recognized when the Group has the right to receive dividends or profit from the capital contribution. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

17. Sales deductions

Sales deductions of the Group include sales returns incurred in the same period of providing products, merchandises, services, in which revenues are derecognized.

In case of products, merchandises, services provided in the previous period but sales returns incurred in the current period, revenues are derecognized as follows:

- If sales returns incur prior to the release of the Consolidated Financial Statements, revenues are derecognized on the Consolidated Financial Statements of the current period.
- If sales returns incur after the release of the Consolidated Financial Statements, revenues are derecognized on the Consolidated Financial Statements of the following period.

18. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the due. The Parent Company filed a lawsuit with the Vung Tau City People's Court and received the Decision recognizing the agreement of the two parties that Petroleum Pipeline & transactions can be fairly and truly reflected.

19. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Consolidated Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the balance sheet date and will be reduced to the rate that ensures enough taxable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when there is certainly enough taxable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the Consolidated Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Group shall offset deferred tax assets and deferred tax liabilities if:

- The Group has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Group has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

20. Related parties

A party is considered a related party of the Group in case that party is able to control the Group or to cause material effects on the financial decisions as well as the operations of the Group. A party is also considered a related party of the Group in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

A geographical segment is a distinguishable component that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Consolidated Financial Statements of the Group.

22. Financial instruments

Financial assets

The classification of financial assets depends on their nature and purposes and is determined at the date of initial recognition. The financial assets of the Group include cash and cash equivalents, trade receivables, other receivables and financial investments.

At the date of initial recognition, financial assets are recognized at original cost plus other costs directly related to those financial assets.

Financial liabilities

The classification of financial liabilities depends on their nature and purposes and is determined at the date of initial recognition. The financial liabilities of the Group include trade payables, other payables and accrued expenses.

At the date of initial recognition, financial liabilities are recorded at original cost less other costs directly related to those financial liabilities.

Equity instrument

Equity instrument is the contract which can prove the remaining benefits in the assets of the Group after deducting all of its liabilities.

Offsetting financial instruments

Financial assets and financial liabilities will be offset against each other and reflected at their net values in the Consolidated Balance Sheet when, and only when, the Group:

- has a legal right to offset the recognized amounts; and
- has intention either to settle on a net basis, or to recognize the asset and to settle the liability simultaneously.
