#### II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

1. **Accounting period**

Annual accounting period of Company is from 01 January to 31 March

2. **Accounting currency**

The financial statements are prepared and presented in Vietnam Dong (VND).

#### III. ACCOUNTING STANDARDS AND ACCOUNTING SYSTEM

1. **Accounting system**

The Company applies Enterprise Accounting System issued under Circular no.200/2014/TT-BTC dated December 22, 2014 by Ministry of Finance as well as the circulars of the Ministry of Finance giving guidance on the implementation of the accounting standards and system.

2. **Declaration of adherence to Accounting Standards and Accounting system**

The Company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current accounting system.

#### IV. ACCOUNTING POLICIES

1. **Cash and cash equivalents**

a. **Cash**

Cash includes: cash on hand, cash in bank under current account and cash in transit.

b. **Cash equivalents**

Cash equivalents are short term investments for a period not exceeding 3 months that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value from the date of purchase to the date of financial statements.

c. **Other currencies convert**

Transactions in currencies other than Vietnam dong must be recorded in original currency and converted into Vietnam dong. Overdraft is recorded as a bank loan.

At the reporting date, the company is requested to revalue the balance of foreign currencies and monetary gold as follows:

- The balance of foreign currencies: using buying price quoted by commercial bank which is trading with the company at the reporting date;
- The monetary gold: re-evaluated according to the buying prices on the domestic market at the time in which the financial statement is prepared. The buying prices on the domestic market are prices announced by the State bank. In case the State bank does not announce gold buying-prices, the buying-prices announced by enterprise entitled to trade in gold as prescribed shall be chosen.

## **2. Financial investment**

Financial investment is the outside investments with purpose to use capital reasonably and improve efficiency of business operations such as investments in subsidiaries, joint ventures, cooperation, investment in securities and other financial investments ...

For the preparation of financial statements, the financial investment must be classified as follows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.
- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

### **a. Trading securities**

Trading securities are the investment in securities and other financial instruments for trading purposes (hold for increasing price to sell for profit.) Trading securities include:

- Stocks and listed bonds;
- The securities and other financial instruments such as commercial bill, forward contracts, swap contracts ...

Trading securities are recorded at original cost at the time when investors hold ownership.

The dividends paid in the period before investment date shall be recorded as a decrease in value of investment. When the investor receives additional shares without payment to issuer from capital surplus shares, capital expenditure funds or dividends in shares, the investors only monitor the quantity of additional shares.

In case shares are exchanged, its value must be determined according to fair value at the exchanging date.

The cost shall be determined in accordance with weighted average method when trading securities are liquidated or transferred.

**Provisions for decline in value of trading securities:** the value of loss may occur if there are reliable evidences showing the market value of the Company's trading securities are lower than book value. The provision shall be additionally created or reverted at the reporting date and shall be recorded in financial expense.

### **b. Held to maturity investments**

These investments do not reflect bonds and debt instruments which are held for trading purpose. Held to maturity investments include term deposits (maturity over than 3 months), treasury bills, promissory notes, bonds, preference shares which the issuer is required to re-buy them in a certain time and held to maturity loans to earn profits periodically and other held to maturity investments.

**Provision for decline in value of held to maturity investment:** If the provision of held to maturity investment are not created under statutory regulations, the Company has to assess the recovery. In the case, there are reliable evidences showing a part or all of the investments may not be recoverable, the losses have recorded in financial expenses in the period. The provision shall be additionally created or reverted at the reporting time. In case, the loss can not be determined reliably, investments are not decreased and the recovery of the investments are recorded in the Notes to the Financial Statements.

### **c. Investments in subsidiaries, joint ventures and associates**

Investments in subsidiaries and associates are stated at original cost. Distributions from accumulated net profits from subsidiaries and associates arising after the date of acquisition are recognized in the financial income. Other distributions (except net profits) are considered a recovery of investments and are deducted to the cost of the investment.

The Company applies accounting regulations on jointly controlled operations and jointly controlled assets as on normal business activities. In which:

- Monitoring incomes, expenses of joint ventures separately and allocated to parties of joint ventures;
- Monitoring contributed assets, contributed capital, liabilities separately in the joint ventures arising from operating joint venture.

Expenses directly related to investment activities in joint ventures and associates have been recorded as financial expense in the period.

**Provision for investment losses in other units:** losses of subsidiaries, joint ventures, associates have led to loss of capital or provision of investors by declining value of investments. The provision is created or reverted at the reporting date for each investment and are recorded in financial expenses in the period.

#### **d. Investment in equity of other entities**

Investment in equity of other entities are the investments in equity instruments of other entities but the Company does not control or influence significantly to the invested entities.

### **3. Trade and other receivables**

All receivables must be recorded detail by aging, by each client and in original currency if any and others details depending on the management request of the company.

The classification of receivables must be managed as follows:

- Trade receivables: any receivable having from trading activities between the company and its clients: selling goods, providing service, disposal of assets, exported receivable of consigner through the consignee;
- Intra-company receivables: receivables between the company with its dependant branches;
- Other receivables: are non trade receivables and do not related to trading activities.

For the preparation of financial statements, the receivables must be classified as follows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.
- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

At the reporting date, the company revaluates the receivables which have balance in foreign currency (except for advance to suppliers; if we have evidence that the supplier will not supply the good or provide the service and the company will receive back this advance in foreign currency, this advance will be treated as monetary item having foreign currency) at the buying price quoted by commercial bank which is trading with the company at the reporting date.

**Provisions for bad debts:** The bad debts are make provision at the balance sheet date. The provision or reversal is made at the reporting date and is recorded as management expense of the fiscal year. For the long-term bad debts in many years, the company tried to collect but cannot and there is evidence that the client has insolvency, the company may sell these long-term bad debts to debt collection company or write off (according to regulations and charter of the company).

### **4. Inventories**

#### **a. Recognition basis**

Inventories are stated at original cost. Where the net realizable value is lower than cost, inventories should be measured at the net realizable value. The cost of inventories should comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The assets are purchased for the production, use or sale are not presented in this item but are presented in item "Long-term equipment, supplies, spare parts", including:

- Costs of work in progress beyond a normal operating cycle (over 12 months);
- Supplies, equipments and spare parts for replacement which reserved period are more than 12 months or more than an ordinary cycle of business operation.

#### **b. Cost determination of inventories**

Cost of inventories are determined in accordance with method: weighted average.

#### **c. Record method of inventories**

Inventories are recorded in line with perpetual method.

#### **d. Provisions for decline in value of inventories**

In the end of accounting year, if inventories do recover enough at its historical value not because of damage, obsolescence, reduction of selling price. In this case, the provision for inventories is recognized. The provision for decline in inventories is the difference between the historical value of inventories and its net realizable value.

### **5. Tangible and intangible fixed assets, investment properties**

Fixed assets are stated at the historical cost. During the using time, fixed assets are recorded at cost, accumulated depreciation and net book value.

Historical cost of finance lease fixed assets are recognized at the fair value of the leased property or the present value of the minimum lease payment (in case the fair value is higher than the present value of the minimum lease payment) plus the initial costs directly related to the initial operation of financial leasing.

During the operation, the depreciation is recorded to depreciation expense for using assets. Intangible fixed assets which are termed land use rights are depreciated.

Investment properties are depreciated normally, except for investment property for waiting increase of price. The Company just only determine value of loss cause of decreasing value.

## **6. Business cooperation contract**

BCC means a cooperation contract between two or more venturers in order to carry out specific business activities, but it does not require establishment of a new legal entity. In any cases, when receiving money or assets from other entities in the BCC, they should be recorded to liabilities, not be recorded to owner's equity. BCC in the forms as follows:

- BCC in the form of jointly controlled assets;
- BCC in the form of jointly controlled operations;
- BCC in the form of shares of post-tax profits.

## **7. Deferred corporate income tax expenses**

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date.

## **8. Prepaid expenses**

The calculation and allocation to expense to each accounting period based on the nature, level of each prepaid expense to determine the allocation method properly and consistently.

Prepaid expense is recorded separately: incurred, allocated amount to its cost center and carried amount.

Prepaid expense is classified as follows:

- Prepaid expense related to purchase or service less than 12 months or 01 normal production period, from incurred date, are recorded as short - term.
- Prepaid expense related to purchase or service over than 12 months or 01 normal production period, from incurred date, are recorded as long - term.

## **9. Trade and other payables**

All payables must be recorded detail by aging, by each client and in original currency if any and others details depending on the management request of the company.

The classification of payables must be managed as follows:

- Trade payables: any payable having from trading activities from purchase, using service, import through consigner;
- Intra-company payables: payables between the company with its dependant branches;
- Other payables: are non trade payables and do not related to trading activities.

For the preparation of financial statements, the payables must be classified as follows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.
- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

At the reporting date, the Company revalues the payables which have balance in foreign currency (except for advance from clients; if we have evidence that the supplier will not supply the good or provide the service and the company will receive back this advance in foreign currency, this advance will be treated as monetary item having foreign currency) at the buying price quoted by commercial bank which is trading with the Company at the reporting date.

## **10. Loans and finance lease liabilities**

Loans in the form of issuance of bond or preference share with preferential terms required the issuer to repurchase at a certain time in the future shall not be reflected on this item.

Loans, debts should be monitored in detail for each entity, each contract and each type of loan assets. The financial lease liabilities are stated at present value of minimum lease payment or the fair value of the lease assets.

For the preparation of financial statements, the loans and finance lease liabilities must be classified as follows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.
- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

At the reporting date, the Company revalues the loans and finance lease liabilities which have balance in foreign currency at the selling price quoted by commercial bank which is trading with the Company at the reporting date.

## **11. Borrowings and capitalization of borrowing costs**

Borrowing costs are recognized into financial expenses, except in case where the borrowings cost directly attribute to the acquisition or work in progress is calculated to value of assets (capitalized), when all the conditions are in accordance with VAS no. 16 "Borrowing costs".

## **12. Accrued expenses**

Payables for purchase, using service from suppliers or providing already by supplier but not yet paid due to lack of supporting documents and payables to employee are allowed to record to expense to match the matching concept between revenue and expense. The accrual must be calculated carefully and must have proper evidence. When these expenses arise, if there is any difference with the amount charged, accountants additionally record or make decrease to cost equivalent to the difference.

### 13. Provision for payables

Provision for payables is recognized when the following conditions are satisfied:

- The Company has current liabilities (legal obligation or joint obligation) as a result of occurred event;
- Decreasing in economic benefits that may occur resulting in the requirement to pay debt obligations;
- Giving a confident estimation on value of debt obligation.

Provision for payables is the most reasonably estimated value which will be paid for current debt obligation at the reporting date.

A provision for restructuring costs is only recognized when all the conditions are in accordance with VAS "Provisions, assets and potential liabilities".

The provision for payables shall be set up or reverse at the reporting date in accordance with the law. When setting up provision for payables, the cost are recorded in general administration expenses. Payable provisions for products /goods warranty shall be recorded in selling expenses; payable provisions for construction warranty shall be recorded in manufacturing overhead expenses and the reversal shall be recorded in other income.

Only costs related to the initial payables provision shall be offsetted by that provision.

### 14. Unearned revenues

Unrealized revenues include: rental prepayment of customer, interest prepayment of borrower or debt instrument, the difference price on installment payment; corresponding to turnover of goods, services or discounts to customers in traditional client program.

The balance of the unearned revenue in foreign currency at the end of the fiscal year: if there is not reliable evidence lead to refund this amount, foreign exchange rate difference are not evaluated at the reporting date.

### 15. Convertible bonds

Convertible bonds are bonds that may be converted into common shares of the same issuer under the conditions identified in the issuance plan.

Convertible bonds to keep on the track of each type, maturity, interest rate and par value.

When issuing convertible bonds, principal debt of convertible bonds is recorded as a liabilities; capital component (Conversion options) of convertible bonds is recorded as an owner's equity.

At the initial recognition, the cost of issuing convertible bonds is reduced to the original value of the bond. Periodically, this cost are amortized in line with bond life under the straight line method or the actual interest rate method by increasing the principal and recognized in financial expenses or capitalized consistent with the recognition of accrued interest of the bond; bond interest is recognized in financial expenses.

Upon maturity of convertible bonds, the value of conversion options on convertible bonds are reflected in equity is transferred to capital surplus which does not depend on whether the bond holders have done the conversion option into shares or not. An decrease in the principal of convertible bonds in proportion to the amount refund in case the bond holders have not done the conversion option into shares. In the opposite, an increase in owner's capital in proportion to par value of stocks are issued additionally in case the bond holders have done the conversion option into shares. The higher difference between the value of the principal of the convertible bonds and the value of additional stocks is recorded as capital surplus.

### 16. Capital

#### a. Contributed capital, capital surplus , conversion options on convertible bonds, other capital

Capital contribution is stated at actually contributed capital of owners and recorded by each individual, organization.

When capital of the investment license is determined in foreign currency, the determination of the investors shall be based on the actual amount of foreign currencies which they contribute.

Contributed capital in assets must be recorded in revaluation of assets which share holders approved. Intangible assets such as brand, trademark, trade name, right of exploitation, development projects ... shall only be recorded as capital if relevant law allows.

For joint-stock company, contributed capital of the shareholders is recorded according to actual price of stock issuance, but it is reflected in two separate items:

- Contributions from owners are recorded at par value of the shares;
- Capital surplus is recognized by the greater than or less than difference between the actual price of issue of shares and par value.

In addition, the capital surplus was also recorded at the difference higher or lower between the actual price of stock issuance and the par value of shares as treasury shares.

The conversion options on convertible bonds arising from convertible shares issuance which prescribed in issuance plan. The value of capital component of convertible bonds is the difference between the total proceeds from the issuance of convertible bonds and the value of the debt component of the convertible bonds. At the time of initial recognition, the value of conversion options on convertible bonds are recorded separately in owner's capital. At the bond maturity, accountants shall record this option as capital surplus.

Other capital: to reflect operation capital which set up additionally from the result of the operating results or given as gifts, presents, asset revaluation (under the current regulations).

#### **b. Differences upon asset revaluation**

Differences upon asset revaluation reflect differences due to revaluation of existing assets and situation of settlement of such differences. Assets are revalued mainly fixed assets, property investment. In some cases it is possible and necessary to revalue materials, equipments, tools, finished goods, goods, unfinished goods ...

Differences upon asset revaluation in the following cases:

- Decision of the State;
- Equitization of State enterprises;
- Other cases under law regulations.

Asset value shall be re-determined on the basis price list of State, asset valuation council professional valuation agency.

#### **c. Foreign exchange rate difference**

Exchange rate difference is the difference occurring from exchange or revaluating foreign currency monetary items in different exchange rate.

Exchange rate difference is recorded to financial income (if gain) or financial expense (if loss) at the incurred time. Particularly 100% State's capital company which has project implementation, major national projects, exchange rate differences from the previous period of the business activities are reflected on the Balance sheet and gradually allocate into financial income or financial expense.

#### **d. Undistributed post-tax profits**
