8. **Explanation of business results for the first quarter of 2026:**

In Q1 2026, the Parent Company's revenue showed growth compared to the same period last year. However, since most key projects are currently in the implementation phase and do not yet meet the criteria for revenue recognition, revenue remains at a low level. Meanwhile, recurring operating expenses continued to arise, resulting in a loss in profit after tax. Specifically, Parent Company revenue reached 34.75 billion VND (up 138% compared to the same period in 2025); profit after tax loss was 6.02 billion VND.

For the subsidiary (Smart Technology Investment and Development Joint Stock Company), revenue reached VND 17.20 billion, up 103% compared to the same period in 2025, but results remain limited as new products and services have not yet generated revenue. Profit after tax was a loss of VND 1.16 billion.

Consolidated business results for Q1 2026: revenue reached VND 51.58 billion, an increase of 125% compared to the same period in 2025. Consolidated profit after tax loss was VND 6.62 billion.
