administrative expenses				
Total accounting profit before tax	62,983,520,630	126,947,921,213	(63,964,400,583)	-50%
Current corporate income tax expense	21,672,167,898	24,006,905,324	(2,334,737,426)	-10%

Profit after corporate income tax	36,213,951,642	98,542,583,480	(62,328,331,838)	-63%

Profit after corporate income tax in 2025 after audit decreased by VND 62.3 billion, equivalent to a decrease of 63%, compared to the pre-audit figures. This fluctuation was mainly attributable to the following material reasons:

Provision for doubtful receivables: Selling and administrative expenses increased by 24%, equivalent to an increase of more than VND 26.6 billion, as the Company made additional provisions for doubtful receivables in accordance with the prudence principle under accounting standards, in order to accurately reflect the net recoverable value.

Restructuring of production activities: Profit before tax decreased by 50% as, during the period, the Company implemented a system restructuring plan and liquidated certain assets and inefficient operations at the agricultural farm under its subsidiary.

The increase in administrative expenses, combined with expenses arising from asset liquidation, directly reduced the Company's net profit margin compared to the previously self-prepared financial statements.

1.6 2026 plan

Maintain the principle of prudent financial management; strictly control receivables and provisions to ensure stable operating cash flows and prevent financial risks.

Standardize compliance: strengthen the internal governance system with a law-abiding approach, especially in the areas of environment, fire prevention and fighting, occupational safety, employee benefits, and other legal regulations applicable to the Company.

Continue streamlining the operating structure at subsidiaries and agricultural farms, focusing capital resources on core business segments.

Reduce costs and exercise strict management in each specific area and task, while addressing inefficiencies in the production and business process.

Direct and manage the Company's operations in a stable and sustainable manner, ensuring that the interests of the Company and Shareholders are prioritized.
