(Explanation of profit after tax difference of
over 10% of the financial statements of
Quarter 02/2026 compared to the same
period last year.)

Ho Chi Minh City, July 29, 2026

**To: STATE SECURITIES COMMISSION;
HANOI STOCK EXCHANGE.**

Pursuant to Circular 76/TT-BTC dated 06/11/2024 of the Ministry of Finance guiding the disclosure of information on the securities market;

Based on the Financial Statements of Quarter 02/2026, there are indicators of profit after tax fluctuating by 10% or more compared to Quarter 02/2025 of Indochine Import-Export Investment Industrial Joint Stock Company (Stock Code: DDG) on the Separate and Consolidated Financial Statements as follows:

II.1 - Separate Financial Statements (Parent Company)

STT	Criteria	Q2/2026 (VND)	Q2/2025 (VND)	Difference (+/-) compared to the same period last year
1	Gross profit on sales and service provision	(17.045.184.315)	(18.284.893.538)	7,27%
2	Total accounting profit before tax	(60.080.433.880)	(112.510.030.662)	87,27%
3	Profit after corporate income tax	(60.080.433.880)	(112.510.030.662)	87,27%

The increase in profit after tax and profit before tax in the Q2/2026 financial statements increased compared with Q2/2025 was primarily attributable to a substantial decrease in revenue from trading activities. Steam supply systems also recorded lower output, with certain systems temporarily ceasing operations due to reduced customer production volumes, while others required upgrading and maintenance. Conversely, interest expenses from credit agreements and provisions for doubtful debts decreased compared to the same period last year.

II.2 - Consolidated Financial Statements (Group)

STT	Criteria	Q2/2026(VND)	Q2/2025 (VND)	Difference (+/-) compared to the same period last year
1	Gross profit on sales and service provision	(16.817.911.588)	(17.563.285.586)	4,43%
2	Total accounting profit before tax	(60.687.816.416)	(112.344.734.371)	85,12%
3	Profit after corporate income tax	(60.481.171.191)	(111.772.442.083)	84,81%

The increase in profit after tax and profit before tax in the Q2/2026 financial statements compared with Q2/2025 was mainly driven by the parent company.

In addition, the Consolidated Financial Statements recorded a decrease in the provision for doubtful accounts of the subsidiary. Consequently, the Group's consolidated decreased loss compared to the same period last year.

Our company would like to assure you that the above data is true and at the same time commit to comply with the regulations on information disclosure

Thank you very much./.
