2 . ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

Annual accounting period commences from 1st January and ends as at 31st December.
The Company maintains its accounting records in VND.

3 . STANDARDS AND APPLICABLE ACCOUNTING POLICIES

Applicable accounting policies

The Company applies Corporate Accounting System issued under the Circular No. 99/2025/TT-BTC dated 27 October 2025 by the Ministry of Finance and the Circular No. 202/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance guiding the preparation and presentation of Consolidated Financial Statements; Circular No. 43/2026/TT-BTC dated April 20, 2026 amends and supplements a number of articles of Circular 202/2014/TT-BTC.

Declaration of compliance with accounting standards and accounting system

The Company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current Accounting Standards and Accounting System.

4 . SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these financial statements

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the fiscal year. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) up to 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statement

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Company. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intragroup transactions and balances are eliminated in full on consolidation.

Goodwill

Goodwill represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of a subsidiary, associate or jointly controlled entity at the date of acquisition. Goodwill is recognised as an asset and is amortised on the straight-line basis over its estimated period of benefit of 10 years.

Goodwill arising on the acquisition of associates and jointly controlled entities is included in the carrying amount of the associates and jointly controlled entities. Goodwill arising on the acquisition of subsidiaries is presented separately as an intangible asset in the consolidated balance sheet.

On disposal of a subsidiary, associate or jointly controlled entity, the attributable amount of unamortised goodwill is included in the determination of the profit or loss on disposal.

Financial Instruments

Initial recognition

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash, cash equivalents, trade and other receivables, deposits, financial investments and derivative financial instruments.

Financial liabilities: At the date of initial recognition financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade and other payables, accrued expenses, obligations under finance leases, borrowings and derivative financial instruments.

Subsequent measurement after initial recognition

Currently, there are no requirements for the subsequent measurement of the financial instruments after initial

Foreign currency transactions

The foreign currency transactions during the fiscal year are converted into Vietnam dong with the real exchange rate at the transaction date. Real exchange rates are determined as the following principles:

- When buying or selling foreign currency: are exchange rates concluded in contracts of foreign exchange sale between Company and commercial banks;
- When capital contribution or receipt of contributed capital: are exchange rate of purchase of foreign currency of the bank where Company opens the account to receive capital from investors at the date of the contribution of
- When recording receivables: are exchange rates of purchase of commercial banks where Company assigned customers to make payment at the time of incurred transactions;
- When recording liabilities: are exchange rates of purchase of commercial banks where Company expects to conduct transactions at the time of incurred transactions;
- When purchases of assets or expenses paid immediately in foreign currency: are the rate of purchase of commercial banks where Company makes payments.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statement

Real exchange rate upon re-determining accounts derived from foreign currencies at the date of the Consolidated financial statements determined on the following principles:

- For accounts classified as asset: applies exchange rates of purchase of commercial banks where Company regularly conducts transaction;
- For foreign currency deposited in bank: applies exchange rate of purchase of the bank where Company opens
- For accounts classified as liabilities: applies exchange rates of selling foreign currency of commercial banks where Company regularly conducts transaction.

All sums of real exchange rates for foreign currency transactions in the year and real exchange rate upon re-determining accounts derived from foreign currencies at the end of the year are recorded immediately to results of

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments

Trading securities

Trading securities are those the Company holds for trading purpose. Trading securities are recognised from the date the Company obtains the ownership of those securities and initially measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent periods, investments in trading securities are measured at cost less provision for impairment of such investments.

With regard to investments in trading securities, the provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the provision date.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

With regard to investments held to maturity, the provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements

Loan receivables

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Interests in associates are carried in the balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. Losses of an associate in excess of the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate) are not recognised.

Where a group entity transacts with an associate of the Company, unrealised profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

Equity investments in other entities

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment.

With regard to investments held long-term (other than trading securities) without significant influence on the investee: If the investment is made in listed shares or the fair value of the investment is determined reliably, the provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, the provision shall be made based on the Financial Statements at the provision date of the investee.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statement

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method /or FIFO /or specific identification method /or retail method in case of goods. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The cost of inventory is calculated by weighted average method/first in first out method /or specification price /or

Inventory is recorded by perpetual method /or periodic method.

Method for valuation of work in process at the end of the year:

- Works in progress is obtained for each construction project unfinished or related unrecognised revenue, corresponding to the workload unfinished at the end of the period.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their following estimated useful lives:

- Buildings	15 - 40 years
- Machine, equipment	03 - 10 years
- Transportation equipment	04 - 10 years
- Office equipment and furniture	03 - 08 years
- Others property	03 - 05 years

Leasing

The cost of finance lease fixed assets is recognised at fair value or present value of the minimum lease payments (in case the fair value is greater than present value of minimum lease payments amounts) plus initial direct costs

Assets held under finance leases are recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on borrowing costs (see below).

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives, as follows:

- Machine, equipment	04 - 08	years
- Transportation equipment	08	years

Intangible assets and amortisation

Land use rights

Intangible assets represent land use rights that are stated at cost less accumulated amortisation. Land use rights are amortised using the straight-line method over the duration of the right to use the land.

Patents and trademarks

Patents and trademarks are measured initially at purchase cost and are amortised on the straight-line basis over their estimated useful lives.

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for other purposes, are carried at cost. Cost includes professional fees, and for qualifying assets, borrowing costs dealt with in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

Prepaid expenses

Prepaid expenses are expenses which have already been paid but relate to results of operations of multiple accounting periods, including land rentals, establishment costs and other types of long-term prepayments.

Payables

The payables shall be kept records in details according to period payables, entities payables, types of currency payable and other factors according to requirements for management of the Company.

Loans and finance lease liabilities

The value of finance lease liabilities is the total payable amount calculated on the present value of minimum lease payments or the fair value of leased assets.

Loans and finance lease liabilities shall be kept records in details according to entities loans, loan agreement and loans and finance lease liabilities term. In case of loans or liabilities in foreign currency shall be kept records in detail the currency.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statement

Borrowing costs

Borrowing costs are recognized into operating costs in the year, except for which directly attributable to the construction or production of unfinished asset included (capitalized) in the cost of that asset, when gather sufficient conditions as regulated in VAS No. 16 "Borrowing costs". Beside, regarding loans serving the construction of fixed assets, investment properties, and the interests shall be capitalized even if the construction duration is under 12 months.

Regarding joint capital borrowings, which are used for the purpose of investment in construction or production of an unfinished asset, the borrowing costs eligible for capitalization in each accounting year shall be determined according to the capitalization rate for weighted average accumulated costs incurred to the investment in construction or production of such asset. The capitalization rate shall be calculated according to the weighted average interest rate of the borrowings unrepaid in the period, except for particular borrowings for purpose of

Accrued expenses

Payables to goods or services received from the seller or provided for the seller during a reporting year, but payments of such goods or services have not been made and other payables such as annual leave salary, expenses in seasonal cessation of production period, interest expenses... which are recorded to operating expenses of the reporting year.

The recording of accrued expenses to operating expenses during a period shall be carried out in conformity with revenues and expenses incurring during the year. Accrued expenses payable are settled with actual expenses incurred. The difference between accrualment and actual expenses are reverted.

Provision for payables

Provision for payables only record when meet all following conditions:

- Enterprises have current debt obligation (legal obligation or jointly liable obligation) due to result from a fact happened;
- Decrease in economic benefits may happen leading to the requirement for payment of debt obligation;
- Giving a confident estimation on value of such debt obligation.

Value recorded of a provision payable is the most reasonably estimated the amount which will be paid for current debt obligation at the end of the year.

Only expenses related to the provision for payable set up initially shall be offset by that provision for payable.

Provisions for payables are recorded in business and production costs of the accounting year. In case provision set for the previous year but not used up exceeds the one set for the current year, the difference is recorded as decrease in production and operation expenditures. The bigger difference of the payables provision on insuring the construction is recorded into other revenue in the year.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements

Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium shall record the difference between the par value, direct costs related to the issuing shares and issue price of shares (including the case of re-issuing stock fund) and can be a positive premium (if the issue price is higher than par value and direct costs related to the issuance of shares) or negative premium (if the issue price is lower than par value and direct costs related to the issuance of shares).

Other capital shall record operating capital set up additionally from the result of business activities or given as gifts, presents, financing and asset revaluation (if these items are allowed to record a decrease or increase in investment capital).

Undistributed profit after tax is used to record business results (profit, loss) after corporate income tax and situation of income distribution or loss handling of company. The distribution of profits are made when the undistributed profit after tax of company shall not exceed the undistributed profit after tax on Consolidated Financial Statements after eliminating the impact of profits recorded from cheap purchase. In case payment of dividends, profits for the owners exceeding the undistributed profit after tax shall be essentially decrease of contributed capital. Undistributed profit after tax can be distributed to investors based on capital contribution rate after approval by General Meeting of Shareholders and after making appropriation to funds in accordance with the Company's Charter and Vietnamese regulatory requirements.

The Company's retained earnings is distributed to other funds according to recommendation of the Board of Management and approval of shareholders at annual General Meeting of Shareholders:

- Development and investment funds: The fund is reserved for The purpose of business expansion or in depth investment.
- Bonus and welfare fund and bonus for the Board of Directors: The fund is reserved for the purpose of bonus, material incentives, common benefit and increasing welfare for employees and presented as a liability on the Consolidated financial statements.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after declaration from the Board of Management and announcement closing date receipt dividends of Securities Depository Center of Vietnam.

Revenue

Sales

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements

Services rendered

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

The stage of completion of a transaction may be determined by surveys of work completed method.

Revenue from construction contract

- In case the construction contract defines that the contractor shall be entitled to payment basing on the progress, when achieved results of construction contract are estimated reliably, then turnover from the construction contract is recorded proportionally to part of works finished, determined by the Company on the date of financial statements without depending on the bills under the progress made or not and the amount on the bills.
- In case the construction contract defines that the contractor shall be entitled to payment basing on value of volume achieved, when achieved results of construction contract are estimated reliably and confirmed by customers, then revenues and expenditures related to the contract recorded in proportion to the completed work confirmed by the customer in period are recorded in the bills set up.
- When the results of a construction contract can not be estimated reliably, revenue is only recognised corresponding to the incurred costs which the recovery is probable. Contract costs are only recognised as expenses in the year when they are actually incurred.

Financial income

Revenue arising from the used by the others of entity assets yielding interest, royalties and dividends shall be recognised when:

- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The amount of the income can be measured reliably;

Dividends shall be recognised when the shareholder's right to receive payment is established.

Cost of goods sold

Cost of goods sold is recognized in accordance with revenue arising and ensure compliance with the prudence principle. Cases of loss of materials and goods exceeded the norm, abnormal expenses, and losses of inventories after deducting the responsibility of collective and individuals concerned,... are recognized fully and promptly into cost of goods sold in the year.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements

Financial expenses

Items recorded into financial expenses consist of:

- Expenses or losses relating to financial investment activities;
- Expenses of capital borrowing;
- Losses from short-term security transfer, expenses of security selling transaction;
- Provision for business security decrease, provision for losses from investment in other units, losses incurred when selling foreign currency, losses from exchange rate...

The above items are recorded by the total amount arising within the year without compensation to financial revenue.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements

Earnings per share

Basic earnings per share are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund and allowance for Board of Directors) by the weighted average number of ordinary shares outstanding during the .

Diluted earnings per share are calculated by dividing the net profit or loss after tax attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund, allowance for Board of Directors and interest on the convertible preference shares) by the weighted average number of ordinary shares that would be issued by conversion of all dilutive potential ordinary shares into ordinary shares.

Segment information

A segment is a distinguishable component of the Company that is engaged in providing an individual or group of related products or services (business segment), or providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and returns that are different from other components.

Segment information should be prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company in order to help users of financial statements better understand and make more informed judgements about the Company as a whole.

Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and affiliated companies;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals; ;

In considering the relationship of related parties, one should also consider the nature, not only the legal form of the relationship.

Tu Liem Ward, Ha Noi

Consolidated financial statements

For the accounting period from 01/01/2026 to 30/06/2026

These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements.

	Carrying amount	
	30/06/2026	01/01/2026
	VND	VND
Financial Liabilities		
Loans and borrowings	1.968.408.116.206	1.991.736.535.164
Trade payables, other payables	153.909.884.521	192.854.301.734
Accrued expenses	47.873.196.140	63.551.469.918
	2.170.191.196.867	2.248.142.306.816

Financial assets and financial liabilities are not revalued according to fair value at the year ended because Circular No. 210/2009/TT-BTC and prevailing statutory regulations require to present Financial Statements and additional note for financial instruments but do not provide any relevant instructions for assessment and recognition of fair value of financial assets and liabilities, excluding provisions for bad debts and provision for devaluation of securities investments which are presented in relevant notes.

Financial risk management

The Company's financial risks including market risk, credit risk and liquidity risk. The Company has developed its control system to ensure the reasonable balance between cost of incurred risks and cost of risk management. The Board of Management of the Company is responsible for monitoring the risk management process to ensure the appropriate balance between risk and risk control.

Market risk**Price Risk**

The Company bears price risk of equity instruments from short-term and long-term security investments due to uncertainty on future prices of the securities. Long-term securities are held for long-term strategies, at the end of the fiscal year, the Company has no plans to sell these investments.

Exchange rate risk

The Company bears the risk of exchange rate due to fluctuation in fair value of future cash flows of a financial instrument according to changes in exchange rates if loans, revenues and expenses of the Company are done in foreign currencies other than VND.

Interest rate risk

The Company bears the risk of interest rates due to fluctuation in fair value of future cash flow of a financial instrument according to changes in market interest rates if the Company has time or demand deposits, loans and debts subject to floating interest rates. The Company manages interest rate risk by analyzing the market competition situation to obtain any interest profitable for its operation purpose.

Credit Risk

Credit risk is risk in which the potential loss may be incurred if a counterpart fails to perform its obligations under contractual terms or financial instruments. The Company has credit risk from operating activities (mainly for trade receivables) and financial activities (including bank deposits, loans and other financial instruments).
